*The Economy of God* - Witness Lee 1995

In 1927 Watchman Nee published his spiritual classic on Christian growth and progress, *The Spiritual Man*. In that book Nee presents the seemingly simple biblical truth that man is composed of three parts--spirit and soul and body--as a central and necessary revelation for believers to grow and make progress in their spiritual life. In *The Economy of God*, Nee's closest and most trusted co-worker, Witness Lee, builds upon this foundation in order to unveil the central revelation of the Bible--that God wants to impart Himself into man for His full expression in the church. This is God's plan, God's economy. In *The Economy of God*, Lee clearly reveals the move of the Divine Trinity according to His economy and gives believers practical ways to cooperate with Him for the fulfillment of His eternal plan. Step by step, Witness Lee shows how to deal with obstacles to spiritual growth so that Christ may fully make His home in our hearts, that we may be filled unto all the fullness of God.

Addressing Challenging Moments in Psychotherapy - Jerome S. Gans 2021-09-30

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--
