*Women in Early America* - Thomas A. Foster  
2015-03-20

Women in Early America, edited by Thomas A. Foster, tells the fascinating stories of the myriad women who shaped the early modern North American world from the colonial era through the first years of the Republic. This volume goes beyond the familiar stories of Pocahontas or Abigail Adams, recovering the lives and

experiences of lesser-known women—both ordinary and elite, enslaved and free, Indigenous and immigrant—who lived and worked in not only British mainland America, but also New Spain, New France, New Netherlands, and the West Indies. In these essays we learn about the conditions that women faced during the Salem witchcraft panic and the Spanish Inquisition in New Mexico; as indentured servants in early Virginia and Maryland; caught up between warring British and Native Americans; as traders in New Netherlands and Detroit; as slave owners in Jamaica; as Loyalist women during the American Revolution; enslaved in the President’s house; and as students and educators inspired by the air of equality in the young nation. Foster showcases the latest research of junior and senior historians, drawing from recent scholarship informed by women’s and gender history—feminist theory, gender theory, new

cultural history, social history, and literary criticism. Collectively, these essays address the need for scholarship on women’s lives and experiences. Women in Early America heeds the call of feminist scholars to not merely reproduce male-centered narratives, “add women, and stir,” but to rethink master narratives themselves so that we may better understand how women and men created and developed our historical past.

**A critical engagement with theological education in Africa** - Johannes J. Knoetze  
2022-02-07

The higher education landscape has arguably become one of the most arduous to traverse. More so in the African context, where a host of variables continuously challenge educators to reflect critically on their philosophies and practices as they engage an ever-changing audience. In this book, a critical engagement with theological

education in Africa is offered. As the book originates from South Africa, it is presented as a South African perspective, although contributors are situated across the African continent and abroad. The common denominator is that all contributors are, in some way or another, invested in theological education in Africa. The main contribution of this collaborative work is to be sought in the insights it offers on four main areas of theological education: A historical and current orientation on theological education in Africa, some paradigm shifts in theological education in Africa, ministerial formation needs versus theological education challenges, and a critical reflection on elective models and methods. The book presents the original and innovative research of scholars for fellow scholars involved in theological higher education as it is grounded in the respective fields of interest of each contributor. It

contributes to a better understanding of the complex African theological higher education landscape that is also mindful of post-COVID-19 realities. Methodologically the work draws on a combination of methods, including literature studies, empirical work, and in some cases sectional offerings from doctoral studies, as indicated in the various chapters.

**New Testament in Modern English** - J.B. Phillips 2014-03-04

An enduring scriptural treasure and a classic of Christian literature, this modern translation is a beautiful and true rendering of the New Testament. Written in 1958, The New Testament in Modern English is one of the most dynamic and lively translations to ever appear in print. Phillips' rendering of Holy Scripture into contemporary English is accessible and powerful to a modern audience. Easy to read and remarkable in its passionate depictions of Jesus and the

Apostles, this book is a classic work of Christian literature perfect for anyone looking to supplement their understanding of the Bible and enrich their spiritual life. *Mission in Malawi: Essays in Honour of Klaus Fiedler* - S. Nkhoma 2021-10-29

The first four essays in *Mission in Malawi* reassess the meaning, nature and place of mission in a postmodern world. Subsequent essays examine various issues that missionaries and the Church in Malawi have and continue to struggle with. These range from the problem of administering church discipline, the challenge of Bible translation, the question of how to deal with corruption in the corridors of power to the challenges of dealing with initiation rites, HIV/AIDS, patriarchy, gender inequality, the exercise of the Church's prophetic role, lack of contextualized theology, and the difficult task of creating an inclusive church and society. The last three essays are an

attempt to describe a contextual theology appropriate for the African church, construct a theology for Malawi and project a future for mission in Malawi in the context of a changing world. These essays offer a rare window into the life and struggles of the Malawian Church even as it faces the postmodern future. The essays are not only informative but also challenging and thought-provoking. Scholars, students and other readers who share an interest in mission and the life of the Church in Malawi will find this collection of essays indispensable in the many years to come. *The Good Shepherd and the Child* - Sofia Cavalletti 2021-05-15

Anyone familiar with the Catechesis of the Good Shepherd has probably encountered the early description of this approach to the religious formation of the child in *The Good Shepherd and the Child: A Joyful Journey*. With major contributions by Sofia Cavalletti, Gianna Gobbi, Silvana Montanaro, and Patricia Coulter, this book has long been a “core text” for catechists and also for parents of children in the Catechesis of the Good Shepherd. Now there is a new edition, which reflects the changes in the presentations and the materials that Sofia Cavalletti made in the years before her death in August 2011. The original contributions of the authors are retained in Part I. In Part II, long time catechist and one of the first US catechists to study with Sofia Cavalletti, Rebekah Rojcewicz, has carefully

outlined the current methods and developments in the work. This includes a selection of the key parables and scripture texts that are presented to the children. She also offers a new Introduction in which she describes the process by which the original authors and founders of the Catechesis of the Good Shepherd came to recognize the child’s potential for a relationship with God and learned what nurtures that experience. The original art work by Julie Coulter-English is retained in this new edition.

*Tracing Language Movement in Africa* - Ericka A. Albaugh 2018-01-10

The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent, with language maps only perpetuating this vision by drawing discrete language groups. In reality, however, most people can communicate with most others within and across linguistic boundaries, even if not in languages taught or learned in schools. Many disciplines have looked carefully at language movement and change on the continent, but their lack of interaction has prevented the emergence of a cohesive picture of African languages. *Tracing Language Movement in Africa* gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa, combining insights from history, archaeology, religion, linguistics, political science, and philosophy. The resulting volume illuminates commonalities and distinctions in these disciplines'

understanding of language change and movement in Africa. The volume is empirical -- aiming to represent language more accurately on the continent -- as well as theoretical. It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights the themes that cut across all disciplines: how scholars use data, understand boundaries, represent change, and conceptualize power. The volume is organized to reflect differing conceptions of language that arise from its discipline-specific contributions: that is, tendencies to study changes that consolidate language or those that splinter it, viewing languages as whole or in part. Each contribution includes a short explanation of a discipline's theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non-specialists, followed by an illustrative

empirical case study. This volume will inspire multidisciplinary conversations around the study of language change in Africa, opening new interdisciplinary dialogue and spurring scholars to adapt the questions, data, and method of other disciplines to the problems that animate their own fields.

### **Child and Adolescent Development -**

Anne Stevenson 2018-04-16

Global public health has improved vastly during the past 25 years, and especially in the survival of infants and young children. However, many of these children, particularly in Africa, continue to live in poverty and in unhealthy, unsupportive environments, and will not be able to meet their developmental potential. In other words, they will survive but not thrive. The UN's Sustainable Development Goals (SDGs) stress sustainable development, not just survival and disease reduction, and the

Global Strategy for Women's, Children's and Adolescents' Health proposes a Survive (end preventable deaths), Thrive (ensure health and wellbeing) and Transform (expand enabling environments) agenda. For children to thrive they must make good developmental progress from birth until the end of adolescence. Addressing the social determinants of developmental problems, this volume offers a broad, contextualised understanding of the factors that impact on children and adolescents in Africa. Unlike other works on the subject it is Africa-wide in its scope, with case studies in Ethiopia, Kenya, Malawi, Nigeria, Rwanda and South Africa. Covering mental health as well as physical and social development, it looks at policies and practice, culture and priorities for research, identifying challenges and proposing solutions.

**The Syntax of Chichewa** - Sam Mchombo  
2004-10-14

This comprehensive book provides a detailed description of the major syntactic structures of Chichewa. Assuming no prior knowledge of current theory, it covers topics such as relative clause and question formation, interactions between tone and syntactic structure, aspects of clause structure such as complementation, and phonetics and phonology. It also provides a detailed account of argument structure, in which the role of verbal suffixation is examined. Sam Mchombo's description is supplemented by observations about how the study of African languages, specifically

Bantu languages, has contributed to progress in grammatical theory, including the debates that have raged within linguistic theory about the relationship between syntax and the lexicon, and the contributions of African linguistic structure to the evaluation of competing grammatical theories. Clearly organised and accessible, *The Syntax of Chichewa* will be an invaluable resource for students interested in linguistic theory and how it can be applied to a specific language.

**Town Nyanja: a learner's guide to Zambia's emerging national language -**

Andrew Gray 2013

The first practical guide to Nyanja language as it's actually spoken in modern, urban Zambia. For too long, visitors to the Zambian capital Lusaka have arrived with phrasebooks and dictionaries of traditional Nyanja, the kind spoken in Malawi and Eastern Province, only to find themselves

laughed at or misunderstood. Zambians living in town today don't speak that kind of Nyanja. Their language has evolved. This Nyanja isn't 'pure', it isn't standardised, and it's only just beginning to be written down. But if you want to actually communicate with the people of Lusaka in their own language - on the street, on the bus, in the market or elsewhere - this is the Nyanja you need. The book includes an introduction to Nyanja sounds and grammar, over 300 useful everyday words and phrases, and A-Z Nyanja-English and English-Nyanja vocabulary.

**Holy Scriptures, Tree of Life Version (TLV) -** Messianic Jewish Family Bible Society 2015-08-04

A New Translation to Highlight the Jewish Roots of the Christian Faith The first Christians were Jews, and Christianity has its roots in the religion of God's chosen and called out people. Jesus's death and

resurrection was not the beginning of a new religion but the fulfillment of the covenant God made with his people. Yet most Bible translations sacrifice the deep connection between the Jewish roots of our faith and the grafted-in Gentile branches, using imprecise English terms rather than Hebrew terms that encompass a fuller meaning. The Tree of Life Version (TLV) is a new Bible translation, produced by the Messianic Jewish Family Bible Society, which highlights the rich Hebrew roots of the Christian faith by restoring: · the Jewish order of the books of the Old Testament · the Jewish name of the Messiah, Yeshua · reverence for the four-letter unspoken name of God · Hebrew transliterated terms, such as shalom, shofar, and shabbat · and more

*The Pink Line* - Mark Gevisser 2020-07-28  
One of TIME's 100 Must-Read Books of 2020.  
Longlisted for the 2021 Rathbones Folio

Prize. "[Mark] Gevisser is clear-eyed and wise enough to have a sharp sense of how tough the struggle has been, and how hard it will be now for those who have not succeeded in finding shelter from prejudice." --Colm Tóibín, *The Guardian* A groundbreaking look at how the issues of sexuality and gender identity divide and unite the world today More than seven years in the making, Mark Gevisser's *The Pink Line: Journeys Across the World's Queer Frontiers* is an exploration of how the conversation around sexual orientation and gender identity has come to divide—and describe—the world in an entirely new way over the first two decades of the twenty-first century. No social movement has brought change so quickly and with such dramatically mixed results. While same-sex marriage and gender transition are celebrated in some parts of the world, laws are being strengthened to criminalize

homosexuality and gender nonconformity in others. As new globalized queer identities are adopted by people across the world—thanks to the digital revolution—fresh culture wars have emerged. A new Pink Line, Gevisser argues, has been drawn across the globe, and he takes readers to its frontiers. Between sensitive and sometimes startling profiles of the queer folk he's encountered along the Pink Line, Gevisser offers sharp analytical chapters exploring identity politics, religion, gender ideology, capitalism, human rights, moral panics, geopolitics, and what he calls "the new transgender culture wars." His subjects include a Ugandan refugee in flight to Canada, a trans woman fighting for custody of her child in Moscow, a lesbian couple campaigning for marriage equality in Mexico, genderqueer high schoolers coming of age in Michigan, a gay Israeli-Palestinian couple searching for common ground, and a

community of kothis—“women’s hearts in men’s bodies”—who run a temple in an Indian fishing village. What results is a moving and multifaceted picture of the world today, and the queer people defining it. Eye-opening, heartfelt, expertly researched, and compellingly narrated, *The Pink Line* is a monumental—and urgent—journey of unprecedented scope into twenty-first-century identity, seen through the border posts along the world’s new LGBTQ+ frontiers.

## Young's Literal Translation of the Bible -

Young, Robert 2014-06-14

Young's Literal Translation of the Bible is, as the name implies, a strictly literal translation of the Hebrew and Greek texts (from the Textus Receptus and Majority Text). Compiled by Robert Young in 1862, he went on to produce a revised version in 1887 based on the Westcott-Hort text which had been completed in 1885. Young died on October 14, 1888, and the publisher released a New Revised Edition in 1898. Young used the present tense in many places where other translations used the past tense- particularly in narratives. The Preface to the Second Edition states: "If a translation gives a present tense when the original gives a past, or a past when it has a present; a perfect for a future, or a future for a perfect; an a for a the, or a the for an a; an imperative for a subjunctive, or a subjunctive for an imperative; a verb for a

noun, or a noun for a verb, it is clear that verbal inspiration is as much overlooked as if it had no existence. THE WORD OF GOD IS MADE VOID BY THE TRADITIONS OF MEN. [Emphasis in original.]" For example, the YLT version of Genesis begins as follows: 1. In the beginning of God's preparing the heavens and the earth--- 2. The earth hath existed waste and void, and darkness on the face of the deep, and the Spirit of God fluttering on the face of the waters, 3. And God saith, 'Let light be;' and light is. 4. And God seeth the light that it is good, and God separateth between the light and the darkness, 5. And God alled to the light 'Day,' and to the darkness He hath called 'Night;' and there is an evening, and there is a morning---day one. Young's Literal Translation in the 1898 Edition also consistently renders the Hebrew Tetragrammaton (the four Hebrew letters usually transliterated YHWH or JHVH that

form a biblical proper name of God) throughout the Old Covenant/Testament as "Jehovah", instead of the traditional practice of "LORD" in small capitals, which was used in editions prior to 1898. Young's usage of English present tense rather than past tense has been supported by scholars ranging from the medieval Jewish rabbi Rashi (who advised, "If you are going to interpret [this passage] in its plain sense, interpret it thus: At the beginning of the creation of heaven and earth, when the earth was (or the earth being) unformed and void . . . God said, 'Let there be light.'") to Richard Elliott Friedman in his translation of the Five Books in "The Bible with Sources Revealed" (2002). There is a linked Table of Contents for each book and chapter.

*Service of the Engine* - Birgitte Bruun 2002

Service of the Engine is a common local Chichewa-English expression in the Malawian fishing village where the author did her fieldwork. It refers to the practice of taking various pills--known locally as Ciba-- in order to prevent and cure diseases associated with sex. This study explores the sensitive interface between the use of pharmaceuticals, available through an extensive informal distribution system, and self-treatment of sex-related diseases. The author examines morally sensitive situations in which men and women opt for Ciba, and evaluates its efficacy, or effectiveness. The discussion not only covers physical and metaphorical aspects of efficacy, but also the possible social and moral effects of medication. It offers a fresh and empirically grounded perspective on the links between efficacy, sex-related diseases and

moralties. Birgitte Bruun graduated from the Institute of Anthropology, University of Copenhagen, Denmark and is currently working with reproductive health projects for United Nations Population Fund (UNFPA) in Jakarta, Indonesia.

**Johannes Rebmann** - Steven Paas  
2018-05-17

This book is the revised and enlarged second edition of a biography of the missionary and linguist Johannes Rebmann (1820-1876), a Christian from Germany who worked in 19th-century East Africa. Rebmann was deeply influenced by the Movement of Pietism in his homeland Württemberg. He was trained to be a missionary in Basel, Switzerland, for the Anglican Church Missionary Society (CMS). From its base in London the CMS sent him to the Muslim-ruled and slavery-ridden Mombasa area of present-day Kenya. There he stayed for 29 years before returning home to Gerlingen near Stuttgart, blind and

sick, soon to die. Rebmann was a faithful witness of Christ in word and deed. He experienced a lot of suffering and opposition, but was instrumental in establishing the Church in East and Central Africa. His lexicographical work facilitated succeeding missionaries. He compiled vocabularies of the Swahili and N(y)ika languages. Together with Salimini, a slave captured near Lake Nyasa (now Lake Malawi) by the Swahili Arabs, he made a dictionary of the 'Kiniassa', an important language in Central Africa, which is now usually called Chichewa.

### **New Explorations in Chinese**

**Theoretical Syntax** - Andrew Simpson  
2022-04-15

This volume brings together 19 cutting edge studies written by some of the most prominent linguists working on Chinese formal syntax, as a Festschrift volume dedicated to Yen-Hui Audrey Li. The contributions to the volume address a wide

range of issues currently developing in the field of Chinese syntax, grouped into five thematic sections on the structure of lexical and functional projections, modal verb syntax, syntax-semantics interactions, the syntax and interpretation of particles, and the acquisition of syntactic structures. With its rich descriptive content sourced from different varieties of Chinese, and its theoretical orientation and analyses, the book provides an important new resource both for researchers with a primary interest in Chinese and other linguists interested in discovering how properties of Chinese can inform the analysis of other languages.

English-Chichewa-Chinyanja Dictionary - Steven Paas 2003

There are more than fifteen million native speakers of Chichewa, or Chinyanja, in Malawi, and in parts of Zambia, Mozambique, Zimbabwe and South Africa; thus Chichewa is probably the most widely

spoken African language across the regions of Southern and South-Central Africa, used extensively in the private and public spheres: in the family, schools, government, NGOs and media communications. This is the first authoritative, and most comprehensive dictionary of its kind, a notable scholarly endeavour, and with major practical applications. The dictionary grew from an ad-hoc missionary publication of Chichewa/English translations from the 1970s, but far exceeds the scope of any previous efforts to transcribe the Chichewa language, provide accurate English equivalents, and reach a popular audience. It is a 'live text', taking in native speakers'

collections of Chichewa vocabulary, contemporary usage, as well as contributions from scholars in African languages; and it pays heed to the close interaction between Chichewa and English and how the languages influence one another when both are widely spoken. In Africa it aims to be the first popular Chichewa/English dictionary for all levels of language use; outside Africa, it is aimed at foreignvisitors and workers dealing with the Chichewa languages in professional and tourist capacities, in government and NGO communities, the media, academia and in specialist fields such as medicine, information technology and the law.
