**Meeting Yama** - Manoj V  
Jain 2020-11-11  
From the moment we are  
born, we start our  
journey towards death.  
Some walk slowly, others  
run towards it, some  
skip and dance their way  
there, while others  
crawl. In his seventh  
book, author Manoj Jain  
dwells on the  
uncomfortable topic of  
death. Interspersed with  
stories from Indian  
mythology, Meeting Yama  
is set in the mystical  
city of Varanasi where  
all answers are given if  
one is willing to  
listen. Amrit, Rajat and  
Surya, three visitors  
meet each other in this  
city and find  
resolutions to the  
issues that they carry  
within them. If you are  
reading this, then there  
is probably something in  
the book that is meant  
for you.

*Classic Tailoring  
Techniques for Menswear  
- Roberto Cabrera  
2015-03-26*

Since its first publication, *Classic Tailoring Techniques for Menswear* has been the authoritative resource for custom hand tailoring production. This new edition focuses on updating these timeless construction techniques through extensive use of all new photography and digital illustrations to enhance the clarity of each process. The enduring art of tailoring and the nature of bespoke tailoring processes means that the techniques presented in the first edition remain as relevant for today's designers as ever. The

new edition is updated with information on measuring, alternative approaches in use today and 748 all new photographs and illustrations. It also includes a brief overview of contemporary tailoring and the identifying key components of luxury tailoring from Britain, Italy and the United States. This introduction also familiarizes the reader with ways in which traditional production methods have been used in the development of luxury ready-to-wear men's tailoring. The text is ideal for students with basic design, patternmaking and sewing skills of at least an intermediate level for courses including *Tailoring Techniques, Menswear Design, Couture Sewing, Intermediate or Advanced Construction Techniques,*

Good Economics for Hard Times - Abhijit V. Banerjee 2019-11-12

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological

disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent

interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.
