Writing and Difference - Jacques Derrida 2021-01-27

First published in 1967, *Writing and Difference*, a collection of Jacques Derrida's essays written between 1959 and 1966, has become a landmark of contemporary French thought. In it we find Derrida at work on his systematic deconstruction of Western metaphysics. The book's first half, which includes the celebrated essay on Descartes and Foucault, shows the development of Derrida's method of deconstruction. In these essays, Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought—one of his main targets being the way in which "structuralism" unwittingly repeats metaphysical concepts in its use of linguistic models. The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language, finally showing metaphysics to be constituted by this exclusion. These essays on Artaud, Freud, Bataille, Hegel, and Lévi-Strauss have served as introductions to Derrida's notions of writing and *différence*—the untranslatable formulation of a nonmetaphysical "concept" that does not exclude writing—for almost a generation of students of literature, philosophy, and psychoanalysis. *Writing and Difference* reveals the unacknowledged program that makes thought itself possible. In analyzing the contradictions inherent in this program, Derrida goes on to develop new ways of thinking, reading, and writing,—new ways based on the most complete and rigorous understanding of the old ways. Scholars and students from all disciplines will find *Writing and Difference* an excellent introduction to perhaps the most challenging of contemporary French thinkers—challenging because Derrida questions thought as we know it.

Almost a Girl - Alan Bacher Williamson 2001

Gender criticism, Alan Williamson argues, has for too long been

shaped and limited by the same dualisms that have defined male versus female literary voices in Western culture. Certain emotions expressed in literature are considered "feminine," certain emotions are typed as "masculine," and there is little room in critical studies for the male writer who shares in feminine experiences or who finds himself on the wrong ideological side of those firmly gendered dichotomies. Confined by such strict codes, male writers—homosexual, bisexual, or heterosexual—possessing the sensibilities typecast as feminine often face a crisis of gender identity. They struggle to overcome early childhood experience and adult cultural expectations as men with feminine creative emotions that are often repressed in more conventionally masculine lives. Almost a Girl challenges both feminist orthodoxy and men's movement thinking to show how several important male writers have drawn creative strength from their identification with, even envy of, a positive image of the feminine. Williamson opposes the feminist argument that men cannot really empathize with female experience, as well as the men's movement's insistence that female identification is common but psychically dangerous. As he explores the psychic confusion, even torment, and ambivalence toward women that accompanied their mixed gender identification, Williamson honors the works and imaginative courage of such diverse writers as Rainer Maria Rilke, Randall Jarrell, D.H. Lawrence, and Cesare Pavese.

Fetneh - Ali Dashti 2019-05-28

Reza Shah Pahlavi introduced policies that altered the lives of Iranian women radically. For the first time, women entered into modern sectors of the economy, family laws were modified, the unveiling was enforced, and the government established public coeducational primary schools. The rapid development of women's schools, in spite of bitter clerical objection, was one of the primary means for women's awakening in this period. The mid-1930s also saw the opening of higher education to women and enrollment of over seventy female students in 1936-37 at the University of Tehran. Reflecting on this radical change in the infrastructure of Iran's social scene, Ali Dashti wrote his collections of short stories and essays—*Fetneh*, *Jadoo*, *Hindu*, and *Sayeh*—in which he analyzed the attitudes of upper-class women caught between the traditional and modern Europeanized societies of Tehran. These books are testaments to the courage of Ali Dashti to document the situation in Iranian society so accurately. With his assertive voice, he underlined the short stories with the actual political and social changes in Iran. Dashti's humanistic ideas and his regard and high expectations for the human race, especially for women, are beyond time and place. The quality debates on the subject of human rights and gender equality presented in his short stories, written about a century ago in Iran, are only recently surfacing in the Western world.

The User Illusion - Tor Norretranders 1999-08-01

As John Casti wrote, "Finally, a book that really does explain consciousness." This groundbreaking work by Denmark's leading science writer draws on psychology, evolutionary biology, information theory, and other disciplines to argue its revolutionary point: that consciousness represents only an infinitesimal fraction of our ability to process information. Although we are unaware of it, our brains sift through and discard billions of pieces of data in order to allow us to understand the world around us. In fact, most of what we call thought is actually the unconscious discarding of information. What our consciousness rejects constitutes the most valuable part of ourselves, the "Me" that the "I" draws on for most of our actions--fluent speech, riding a bicycle, anything involving expertise. No wonder that, in this age of information, so many of us feel empty and dissatisfied. As engaging as it is insightful, this important book encourages us to rely more on what our instincts and our senses tell us so that we can better appreciate the richness of human life.

Modernity, Sexuality, and Ideology in Iran - Kamran Talatoff 2011-06-01

For more than a century Iran's social, political, and cultural history has been defined by a struggle toward or away from modernity. In this book Talatoff makes a compelling argument that, despite revolutionary upheaval, the ideals of modernity remain remote due to the absence of a modern notion of sexuality. He illustrates his assertion through the life of Shahrzad, a celebrated stage and screen actress, dancer, journalist, and published poet who eventually became imprisoned and later homeless in the streets of Tehran. Tracing her career along with other pre-revolutionary women artists, Talatoff explores the relationship between gender, sexuality, media, and modernity in Iran.

The Schopenhauer Cure - Irvin Yalom 2009-10-13

From the internationally bestselling author of *Love's Executioner* and *When Nietzsche Wept*, comes a novel of group therapy with a cast of memorably wounded characters struggling to heal pain and change lives. Suddenly confronted with his own mortality after a routine checkup, eminent psychotherapist Julius Hertzfeld is forced to reexamine his life and work -- and seeks out Philip Slate, a sex addict whom he failed to help some twenty years earlier. Yet Philip claims to be cured -- miraculously transformed by the pessimistic teachings of German philosopher Arthur Schopenhauer -- and is, himself, a philosophical counselor in training. Philip's dour, misanthropic stance compels Julius to invite Philip to join his intensive therapy group in exchange for tutoring on Schopenhauer. But with mere months left, life may be far too short to help Philip or to compete with him for the hearts and minds of the group members. And then again, it might be just long enough.

Morphologies of Asia and Africa - Alan S. Kaye 2007-01-01

In 1997, Eisenbrauns published the highly-regarded two-volume *Phonologies of Asia and Africa*, edited by Alan Kaye with the assistance of Peter T. Daniels, and the book rapidly became the

standard reference for the phonologies of the Afro-Asiatic languages. Now the concept has been extended, and Kaye has assembled nearly 50 scholars to write essays on the morphologies of the same language group. The coverage is complete, copious, and again will likely become the standard work in the field. Contributors are an international Who's Who of Afro-Asiatic linguistics, from Appleyard to Leslau to Voigt. It is with great sadness that we report the death of Alan Kaye on May 31, 2007, while these volumes were in the final stages of preparation for the press. Alan was diagnosed with bone cancer on May 1 while on research leave in the United Arab Emirates and was brought home to Fullerton by his son on May 22.

Creatures of a Day - Irvin D. Yalom 2015-02-24

"All of us are creatures of a day," wrote Marcus Aurelius, "rememberer and remembered alike." In his long-awaited new collection of stories, renowned psychiatrist Irvin D. Yalom describes his patients' struggles—as well as his own—to come to terms with the two great challenges of existence: how to have a meaningful life, and how to reckon with its inevitable end. In these pages, we meet a nurse, angry and adrift in a morass of misery where she has lost a son to a world of drugs and crime, and yet who must comfort the more privileged through their own pain; a successful businessman who, in the wake of a suicide, despairs about the gaps and secrets that infect every relationship; a newly minted psychologist whose study of the human condition damages her treasured memories of a lost friend; and a man whose rejection of philosophy forces even Yalom himself into a crisis of confidence. Their names and stories will linger long after the book's last page is turned. Like *Love's Executioner*, which established Yalom's preeminence as a storyteller illuminating the drama of existential therapy, *Creatures of a Day* is funny, earthy, and often shocking; it is a radically honest statement about the difficulties of human life, but also a celebration of some of the finest fruits—love, family, friendship—that life can bear. We are all creatures of a day. With Yalom as a guide, we can find in this book the means not just to make our own day bearable, but meaningful—and perhaps even joyful.

The Mongols in Iran - Judith Kolbas 2013-10-11

This book explores the administration of Iran under Mongol rule through taxation and monetary policy. A consistent development is evident only from abundant numismatic material, from the conquest of Samarqand by Chingiz Khan to the reign of the penultimate ruler, Uljaytu. In many cases, the individuals responsible for initiating and conducting the policies can be identified from the histories or remarks of the mint master. The structure of the empire is clearly demarcated by mint production, coin styles and type of metal. This illuminates many controversial historical points such as the meaning and function of an Il-khan and the establishment of the Toluid dynasty under Hulagu. The Mongols broke the crust of an inflexible and archaic Islamic monetary tradition that had hampered economic development by encouraging extensive trade and the sciences (especially astronomy and higher mathematics) through determined and always pragmatic programmes.

Issues in Phonological Theory - Michael J. Kenstowicz
1973-01-01

Recasting Persian Poetry - Ahmad Karimi-Hakkak 2012-11-30

Using a semiotic model of poetic change, *Recasting Persian Poetry* presents a critical history of the evolution of Persian poetry in modern Iran. Iran's contact with Europe in the nineteenth century produced largely imaginary ideas about European culture and literature. In a series of textual manoeuvres and cultural contestations, successive generations of Iranian intellectuals sought to recast the classical tradition in a mold at once modern and relevant to their concerns. In particular, Karimi proposes a revision of the view that sets the Modernist poet Nima Yushij as the single-handed inventor of 'New Poetry'. This view, he argues, has resulted in an exaggerated sense of the aesthetic gulf between the modernist poetry of Iran and classical Persian poetry. Through a number of close readings of works by Nima's predecessors, Karimi makes visible a century-old Persian poetic tradition with Nima as its culmination.

A History of Literary Criticism in Iran, 1866-1951 - Iraj Parsinejad
2003

Cultural writing. Literary criticism. Middle-Eastern Studies. Sexual Politics in Modern Iran - Janet Afary 2009-04-09

Janet Afary is a native of Iran and a leading historian. Her work focuses on gender and sexuality and draws on her experience of growing up in Iran and her involvement with Iranian women of different ages and social strata. These observations, and a wealth of historical documents, form the kernel of this book, which charts the history of the nation's sexual revolution from the nineteenth century to today. What comes across is the extraordinary resilience of the Iranian people, who have drawn on a rich social and cultural heritage to defy the repression and hardship of the Islamist state and its predecessors. It is this resilience, the author concludes, which forms the basis of a sexual revolution taking place in Iran today, one that is promoting reforms in marriage and family laws, and demanding more egalitarian gender and sexual relations.
