solving many of our most pressing crises. “Explosive . . . brilliantly formulated.” —The Wall Street Journal

Future Shock is the classic that changed our view of tomorrow. Its startling insights into accelerating change led a president to ask his advisers for a special report, inspired composers to write symphonies and rock music, gave a powerful new concept to social science, and added a phrase to our language. Published in over fifty countries, Future Shock is the most important study of change and adaptation in our time. In many ways, Future Shock is about the present. It is about what is happening today to people and groups who are overwhelmed by change. Change affects our products, communities, organizations—even our patterns of friendship and love. But Future Shock also illuminates the world of tomorrow by exploding countless clichés about today. It vividly describes

the emerging global civilization: the rise of new businesses, subcultures, lifestyles, and human relationships—all of them temporary. Future Shock will intrigue, provoke, frighten, encourage, and, above all, change everyone who reads it.

Yet, coinciding with Nicholas Spencer's disappearance comes news that the FDA is denying approval. Then follows the shocking revelation that Spencer had looted Gen-stone of huge sums of money -- including the lifetime savings of people who had risked every penny they had. Marcia "Carley" DeCarlo, the thirty-two-year-old columnist for the Wall Street Weekly, is assigned to cover the story. Carley is the stepsister of

Spencer's wife, Lynn, an aggressive PR woman and socialite, whom she dislikes and distrusts. The day after news of her husband's disappearance rocks the financial and medical world, Lynn attends a meeting of the stockholders of Gen-stone, flaunting expensive clothing and jewelry. Accused of having participated in the scam, she appears indifferent to the anger and despair of the people attending, among them a man whose child has cancer and who is now about to lose his home. That night, she narrowly escapes death when her mansion in Bedford, New York, is set on fire. She turns to Carley, begging her to use her investigative skills to prove that she was not her husband's accomplice. As Carley proceeds with her investigation, she is confronted by seemingly impenetrable questions: Is Nicholas Spencer dead or in hiding? Was he guilty or set up? Why the sudden

reversal in medical opinion of the vaccine from recognition to condemnation? And as the facts begin to unfold, she becomes the target of a dangerous group involved in a sinister and fraudulent scheme. The Second Time Around is Mary Higgins Clark at her best, telling a story that intertwines fiction with the stuff of real-life headlines in a novel of breathtaking suspense and surprises.

SIDS Sudden Infant and Early Childhood Death -

Roger W. Byard 2018-04

This volume covers aspects of sudden infant and early childhood death, ranging from issues with parental grief, to the most recent theories of brainstem neurotransmitters. It also deals with the changes that have occurred over time with the definitions of SIDS (sudden infant death syndrome), SUDI (sudden unexpected death in infancy) and SUDIC (sudden unexpected death in

childhood). The text will be indispensable for SIDS researchers, SIDS organisations, paediatric pathologists, forensic pathologists, paediatricians and families, in addition to residents in training programs that involve paediatrics. It will also be of use to other physicians, lawyers and law enforcement officials who deal with these cases, and should be a useful addition to all medical examiner/forensic, paediatric and pathology departments, hospital and university libraries on a global scale. Given the marked changes that have occurred in the epidemiology and understanding of SIDS and sudden death in the very young over the past decade, a text such as this is very timely and is also urgently needed.

Echoes in Death - J. D. Robb
2017-02-07

Echoes in Death, the chilling new suspense novel from #1 New York Times bestselling author J.D. Robb is the perfect entry point into the compelling In Death police procedural series featuring Lieutenant Eve Dallas. As NY Lt. Eve Dallas and her billionaire husband Roarke are driving home, a young woman—dazed, naked, and bloody—suddenly stumbles out in front of their car. Roarke slams on the brakes and Eve springs into action. Daphne Strazza is rushed to

the ER, but it's too late for her husband Dr. Anthony Strazza. A brilliant orthopedic surgeon, he now lies dead amid the wreckage of his obsessively organized town house, his three safes opened and emptied. Daphne would be a valuable witness, but in her terror and shock the only description of the perp she can offer is repeatedly calling him "the devil"... While it emerges that Dr. Strazza was cold, controlling, and widely disliked, this is one case where the evidence doesn't point to the spouse. So Eve and her team must get started on the legwork, interviewing everyone from dinner-party guests to professional colleagues to caterers, in a desperate race to answer some crucial questions: What does the devil look like? And where will he show up next?
