**The Veiled Web** - Catherine Asaro 2022-09-27

"A near-future layering of East and West, of religion and technology . . . and of love and its loss--all woven into an intriguing tapestry." --Diana Gabaldon, bestselling author of the Outlander series Winner of the Homer Award for Best Science Fiction Novel A renowned prima ballerina, Lucia del Mar is far more comfortable expressing herself through dance than with words. Shy and introverted, she spends most of her spare time on her laptop. Still, Lucia's job forces her out of her comfort zone, which is how she winds up at a White House reception where she meets Rashid al-Jazari, the wealthy CEO of a multinational corporation. Although attracted to him, Lucia can't help but feel awkward and shrugs off their encounter as a one-time event. Not realizing he feels a similar attraction, she never imagines Rashid will seek out her performances; he is the last person she expects to see when her dance company travels to Italy. Their reunion takes an even more unexpected turn when they're both drugged and kidnapped. Although they overcome their abductors, it leaves them stranded in North Africa. For her own safety, Lucia agrees to marry Rashid, at least for the time being. As she recovers at his family compound in Morocco, reeling from their brush with danger, she struggles to fit into a culture she knows nothing about--and to deal with her growing feelings for Rashid. At the same time, at his secret office there, Rashid is developing a dramatic leap forward in artificial intelligence combined with virtual reality. He finds himself plunged into a fight for control of his work against powerful international forces, and caught in the middle, Lucia is swept into that battle . . . "A terrific novel, ripping a path from today's headlines to tomorrow's realities." --Robert J. Sawyer, Nebula Award-winning author

Dirt - Barbara Richardson 2015-08-22

Community farms. Mud spas. Mineral paints. Nematodes. The world is waking up to the beauty and mystery of dirt. This anthology celebrates the Earth's generous crust, bringing together essays by award-winning scientists, authors, artists, and dirt lovers to tell dirt's exuberant tales. Geographically broad and topically diverse, these essays reveal life as lived by dirt fanatics - admiring the first worm of spring, taking a childhood twirl across a dusty Kansas farm, calculating how soil breathes, or baking mud pies. Essayists build a dirt house, center a marriage around dirt, sink down into marshy heaven, and learn to read dirt's own language. Scientists usher us deep underground with the worms and mycorrhizae to explore the vast and largely ignored natural processes occurring beneath our feet. Whether taking a trek to Venezuela to touch the oldest dirt in the world or reveling in the blessings of our own native soils, these muscular essays answer the important question: How do you get down with dirt? A literary homage to dirt and its significance in our lives, this book will interest hikers, gardeners, teachers, urbanites, farmers, environmentalists, ecologists, and others intrigued by our planet's alluring skin. Essayists include Vandana Shiva, Peter Heller, Janisse Ray, Bernd Heinrich, Linda Hogan, Wes Jackson, BK Loren, David Montgomery, Laura Pritchett, and Deborah Koons Garcia.
