*Maurice Utrillo* -  
Gustave Coquiot  
2020-10-23  
Maurice Utrillo's chalky white buildings and Parisian cityscapes are

instantly recognizable today, but the artist was still relatively unknown when this text was first published in 1925. After nearly a century, this important primary source has finally been translated into English. In this monograph, the earliest written about the painter, the reader accompanies Gustave Coquiot and Utrillo as they wander the streets of Montmartre and drink in their favourite cafés. The author discusses Utrillo's childhood, influences, and technique, as well as his dealers, counterfeiterers, and his problems with alcohol. He ends with a visit to Utrillo's studio. A friend of Rodin and Toulouse-Lautrec, Coquiot was one of the first art critics to recognize and collect Utrillo's work. Three years after this book

**NarcoLand** - Anabel Hernandez 2013-09-10  
The product of five years' investigative reporting, the subject

of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *NarcoLand* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *NarcoLand* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she

reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making

this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

"I'm doing what I believe I was brought to this world to do: to create music that raises awareness, renews hearts, and generates change. the sun.”—Juanes In Chasing the Sun, the international music icon and humanitarian shares the incredible story of his life and how music and faith guided his path. In his own unadulterated words, and with visually arresting images throughout—some of them never before seen—Juanes imparts his defining moments from childhood to present day, reflecting on his spiritual and musical journey and the personal and professional experiences that shaped the man he is today. Born and raised in Colombia, Juanes developed his deep love of music from his family and learned to play guitar at an early age. By age sixteen, he became a founding member, lead guitarist, vocalist, and songwriter for Ekhyosis, which went on to become Colombia’s leading hard-

rock band. However, it was his career as a solo artist that propelled him toward international superstardom. With great honesty, Juanes reveals how his times of glory were often intersected by times of doubt and soul-searching and how remaining true to his beliefs and passionate about his art gave him the strength and foresight to reinvent himself and his career. While his role as a recording artist is well documented, the very private Juanes has never opened up in his own words—until now.

**The Honey Jar** - Rigoberta Menchú 2020-09-01

In this book, Nobel Peace Prize winner and Maya activist Rigoberta Menchú Tum returns to the world of her childhood. The Honey Jar brings us the ancient stories her grandparents told her when she was a little girl, and we can imagine her listening to them by the fire at night. These Maya tales include creation myths,

a classic story about the magic twins (which can also be found in the Popol Vuh), explanations of how and why certain natural phenomena came to exist, and animal tales. The underworld, the sky, the sun and moon, plants, people, animals, gods and demi-gods are all present in these stories, and through them we come to know more about the elements that shaped the Mayas' understanding of the world. Rich and vibrant illustrations by noted Mazatec-Mexican artist Domi perfectly complement these magical Maya tales. Hunting LeRoux - Elaine Shannon 2019-02-19  
With a foreword by four-

time Oscar nominated filmmaker Michael Mann. The story of Paul LeRoux, the twisted-genius entrepreneur and cold-blooded killer who brought revolutionary innovation to international crime, and the exclusive inside story of how the DEA's elite, secretive 960 Group brought him down. Paul LeRoux was born in Zimbabwe and raised in South Africa. After a first career as a pioneering cybersecurity entrepreneur, he plunged hellbent into the dark side, using his extraordinary talents to develop a disruptive new business model for transnational organized crime. Along the way he created a mercenary force of ex-U.S. and NATO sharpshooters to carry out contract murders for his own pleasure and profit. The criminal empire he built was Cartel 4.0,

utilizing the gig economy and the tools of the Digital Age: encrypted mobile devices, cloud sharing and novel money-laundering techniques. LeRoux's businesses, cyber-linked by his own dark worldwide web, stretched from Southeast Asia across the Middle East and Africa to Brazil; they generated hundreds of millions of dollars in sales of arms, drugs, chemicals, bombs, missile technology and murder. He dealt with rogue nations—Iran and North Korea—as well as the Chinese Triads, Somali pirates, Serb mafia, outlaw bikers, militants, corrupt African and Asian officials and coup-plotters. Initially, LeRoux appeared as a ghost image on law enforcement and intelligence radar, an inexplicable presence in

the middle of a variety of criminal endeavors. He was Netflix to Blockbuster, Spotify to Tower Records. A bold disruptor, his methods brought international crime into the age of innovation, making his operations barely detectable and LeRoux nearly invisible. But he gained the attention of a small band of bold, unorthodox DEA agents, whose brief was tracking down drugs-and-arms trafficking kingpins who contributed to war and global instability. The 960 Group, an element of the DEA's Special Operations Division, had launched some of the most complex, coordinated and dangerous operations in the agency's history. They used unorthodox methods and undercover informants to penetrate LeRoux's inner circle and bring him down. For five years Elaine

Shannon immersed herself in LeRoux's shadowy world. She gained exclusive access to the agents and players, including undercover operatives who looked LeRoux in the eye on a daily basis. Shannon takes us on a shocking tour of this dark frontier, going deep into the operations and the mind of a singularly visionary and frightening figure—Escobar and Victor Bout along with the innovative vision of Steve Jobs rolled into one. She puts you in the room with these people and their moment-to-moment encounters, jeopardy, frustration, anger and small victories, creating a narrative with a breath-taking edge, immediacy and a stranger-than-fiction reality. Remarkable, disturbing, and utterly engrossing, *Hunting LeRoux*

introduces a new breed of criminal spawned by the savage, greed-exalting underside of the Age of Innovation—and a new kind of true crime story. It is a look into the future—a future that is dark.

**Coquito Clasico (2014 Edition)** - Everardo  
Zapata-Santillana  
2014-07

Coquito is an educational and scientific instructional book through which more than 38 million Spanish-speaking children have learned to read, write and think. Coquito is conceived and structured in 54 sequential lessons, with which the child is able to start reading and writing, opening a future of intellectual and emotional potential that raises their awareness and self-esteem. This provides great satisfaction to teachers and parents because the students reading comprehension is high. The Reading by Words

Method, created with the book Coquito Clasico, is built on the children's vocabulary and on the unique feature of the Spanish language that is read as it is written and written as it is spoken, unlike other languages, whose phonetic complexity is remarkable. It is therefore not advisable to teach how to read in Spanish using methods from other languages such as English and French because it will extend the learning process up to fifteen months for what can be accomplished in three months using our method. The constant interest of the author and his team of specialists is to restructure and update the book according to the improvements and suggestions from teachers who use Coquito with remarkable success, exceeding expectations in most Spanish-speaking

countries. Coquito Clasico brings graphic colored themes, illustrated with captivating visuals that engage and develop the child's imagination. This initiates the process of oral expression and reading as well as writing and mathematics. We thank the teachers and parents for using our materials, and we guarantee that they have chosen a method of proven quality and excellence that develops mental processes, taking into account the linguistic features of the Spanish language."

#### Mariguana a la Mexicana

- Nacho Lozano 2018  
¿Qué hace más daño: la mota o la guerra contra la mota? Una nube de mitos, miedo e ignorancia rodea a la mariguana. ¿Pero en realidad qué tanto daño causa? ¿En verdad es ilegal consumirla? ¿Los

beneficios que conlleva "compensan" los daños que provoca? Nacho Lozano, con un estilo ágil y riguroso, disecciona en esta obra qué es la mota y cuáles son sus efectos, no sólo en las personas, sino también en la sociedad. De este modo nos recuerda que nadie nunca ha muerto por sobredosis de yerba, que su afectación social es mucho menor que la del tabaco, y cómo es que, hoy en día, sólo cinco mexicanos pueden sembrar, cosechar, transportar y fumar mois... Así, a lo largo de estas páginas, una cuestión va emergiendo: ¿qué implicaría legalizar la mariguana? Y tal vez más importante: ¿cuál es el costo de no hacerlo?

Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly

recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.

In the months leading up to his death, Bruce Lee was working on this definitive study of the Chinese martial arts—collectively known as Kung Fu or Gung Fu. This book has now been edited and is published here for the first time in its entirety. Bruce Lee totally revolutionized the practice of martial arts and brought them into the modern world—by promoting the idea that students have the right to pick and choose those techniques and training regimens which suit their own personal needs and fighting styles. He developed a new style of his own called Jeet Kune Do—combining many elements from different masters and different traditions. This was considered heretical at the time within martial arts circles, where one was expected to study

with only a single master—and Lee was the first martial artist to attempt this. Today he is revered as the "father" of martial arts practice around the world—including Mixed Martial Arts. In addition to presenting the fundamental techniques, mindset and training methods of traditional Chinese martial arts, this martial art treatise explores such esoteric topics as Taoism and Zen as applied to Gung Fu, Eastern and Western fitness regimens and self-defense techniques. Also included is a Gung Fu "scrapbook" of Bruce Lee's own personal anecdotes regarding the history and traditions of the martial arts of China. After Lee's death, his manuscript was completed and edited by martial arts expert John Little in cooperation with the

The Age of Catastrophe -

Heinrich August Winkler

One of Germany's leading historians presents an ambitious and masterful account of the years encompassing the two world wars. Characterized by global war, political revolution and national crises, the period between 1914 and 1945 was one of the most horrifying eras in the history of the West. A noted scholar of modern German history, Heinrich August Winkler examines how and why Germany so radically broke with the normative project of the West and unleashed devastation across the world. In this total history of the thirty years between the start of World War One and the dropping of atomic bombs on Hiroshima and Nagasaki, Winkler blends historical narrative with political analysis and encompasses military strategy, national

identity, class conflict, economic development and cultural change. The book includes astutely observed chapters on the United States, Japan, Russia, Britain, and the other European powers, and Winkler's distinctly European perspective offers insights beyond the accounts written by his British and American counterparts. As Germany takes its place at the helm of a unified Europe, Winkler's fascinating account will be widely read and debated for years to come.
