Killing Patton - Bill O'Reilly 2014-09-23

Readers around the world have thrilled to Killing Lincoln, Killing Kennedy, and Killing Jesus--riveting works of nonfiction that journey into the heart of the most famous murders in history. Now from Bill O'Reilly, iconic anchor of The O'Reilly Factor, comes the most epic book of all in this multimillion-selling series: Killing Patton. General George S. Patton, Jr. died under mysterious circumstances in the months following the end of World War II. For almost seventy years, there has been suspicion that his death was not an accident--and may very well have been an act of assassination. Killing Patton takes readers inside the final year of the war and recounts the events surrounding Patton's tragic demise, naming names of the many powerful individuals who wanted him silenced.

Aphrodisias in Late Antiquity - Charlotte Roueché 1989

Radical Light - Steve Anker 2010

"A superb collection, as exciting, in many ways, as the works it chronicles."--Akira Mizuta Lippit, author of Atomic Light (Shadow Optics) [The People's Car](#) - Bernhard Rieger 2013-04-09

Bernhard Rieger reveals how a car commissioned by Hitler and designed by Ferdinand Porsche became a global commodity on a par with Coca-Cola. The Beetle's success hinged on its uncanny ability to capture the imaginations of executives, engineers, advertisers, car collectors, suburbanites, hippies, and everyday drivers across nations and cultures.

Korean - Jaehoon Yeon 2019-06-25

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

Songs in the Key of Z - Irwin Chusid 2000

Irwin Chusid profiles a number of "outsider" musicians - those who started as "outside" and eventually came "in" when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

Atlas of CT Angiography - Gratian Dragoslav Miclaus 2014-06-26

This atlas presents normal and pathologic findings observed on CT angiography with 3D reconstruction in a diverse range of clinical applications, including the imaging of cerebral, carotid, thoracic, coronary, abdominal and peripheral vessels. The superb illustrations display the excellent anatomic detail obtained with CT angiography and depict the precise location of affected structures and lesion severity. Careful comparisons between normal imaging features and pathologic appearances will assist the reader in image interpretation and treatment planning and the described cases include some very rare pathologies. In addition, the technical principles of the modality are clearly explained and guidance provided on imaging protocols. This atlas will be of value both to those in training and to more experienced practitioners within not only radiology but also cardiovascular surgery, neurosurgery, cardiology and neurology.

International Law Challenges - Thomas McK. Sparks 2006

[Twelve Years A Slave \(Illustrated\)](#) - Solomon Northup 2014-08-22

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man

who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Grand Illusion - Karen Fiss 2009

Franco-German cultural exchange reached its height at the 1937 Paris World's Fair, where the Third Reich worked to promote an illusion of friendship between the two countries. Through the prism of this decisive event, Grand Illusion examines the overlooked relationships among Nazi elites and French intellectuals. Their interaction, Karen Fiss argues, profoundly influenced cultural production and normalized aspects of fascist ideology in 1930s France, laying the groundwork for the country's eventual collaboration with its German occupiers. Tracing related developments across fine arts, film, architecture, and mass pageantry, Fiss illuminates the role of National Socialist propaganda in the French decision to ignore Hitler's war preparations and pursue an untenable policy of appeasement. France's receptiveness toward Nazi culture, Fiss contends, was rooted in its troubled identity and deep-seated insecurities. With their government in crisis, French intellectuals from both the left and the right demanded a new national culture that could rival those of the totalitarian states. By examining how this cultural exchange shifted toward political collaboration, Grand Illusion casts new light on the power of art to influence history.

Law Against Unfair Competition - Reto Hilty 2007-07-28

What Every Driver Must Know (Michigan, June 2021) - State of Michigan 2021-09-26

Driving is a privilege and not a right. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey.

Discusses the life and many specific achievements of forensic anthropologist Diane France.

Disciple IV - Abingdon Press 2005-05

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or

the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Jagdgeschwader 400 - Stephen Ransom 2010-12-21

The Jagdgeschwader 400 group was formed for the sole purpose of flying one of the world's most revolutionary aircraft - the rocket-powered Me 163. Although the Me 163 scored relatively few kills, giving it a success rate much lower than the Me 262, it still had a massive psychological impact upon the Allies, and the technology and experiences gained in the Me 163 went on to influence the jet fighters of modern times. The introduction of jet-powered aircraft demanded massive changes in training, equipment, servicing and tactics, all of which are described and examined in this essential analysis of the story of the Me 163 in frontline service with Erprobungskommando 16 and Jagdgeschwader 400.

Special Relativity for Beginners - Jürgen Freund 2008

This book, first appearing in German in 2004 under the title *Spezielle Relativitätstheorie für Studienanfänger*, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to

demonstrate that it is self-contained and without contradictions. Author's website: www.relativity.ch.

Accordingly, physical chemistry, inorganic chemistry and organic chemistry questions are included. - This book represents the most comprehensive and authoritative EmSAT Chemistry Achieve guide currently available. - This book is a companion text to our EmSAT English Achieve book and is the second book in our EmSAT preparation series. These books promote our goal to facilitate the successful entry of students into UAE universities and colleges.

Ornament and Figure in Graeco-Roman Art - Nikolaus Dietrich 2018-03-19

How does 'decoration' work? What are the relations between 'figurative' and 'ornamental' modes? And how do such modern western distinctions relate to other critical traditions? While these questions have been much debated among art historians, our book offers an ancient visual cultural perspective. On the one hand, we argue, Greek and Roman materials have proved instrumental in shaping modern assumptions. On the other hand, those ideologies are fundamentally removed from ancient ideas: an ancient perspective can therefore shed light on larger aesthetic debates about what images are - or indeed what they should be. This anthology of specially commissioned essays explores a variety of case studies (both literary and art historical alike): it discusses materials from across the ancient Mediterranean, and from Geometric art all the way through to late antiquity; the book also tackles questions of 'figure' and 'ornament' in relation to different media - including painting, free-standing statues, relief sculpture, mosaics and architecture. A particular feature of the volume lies in bringing together different national academic traditions, building a bridge between formalist approaches and broader cultural historical perspectives.

Hitler's Table Talk 1941-1944 - Adolf Hitler 2013-10-18

This is a new edition of a major document from World War II with additional, previously unavailable texts assembled from the stenographic record of Hitler's informal conversations ordered by Martin Bormann. These texts remain the classic collection of Hitler's nighttime monologues with his entourage, covering mostly nonmilitary subjects and long-range plans. Hitler lets his thoughts wander, never failing to provide an opinion on every subject. Additional documents from various archives make this the most complete English-language edition in print.

Designing One Nation - Katrin Schreiter 2020

"Designing One Nation explores how East and West Germans negotiated their country's postwar division at the juncture of economic and cultural politics. It is especially concerned with historical interconnections between the two Germanies in industrial design, economic structures, corporate ethos, trade, economic foreign policy and consumer culture, all of which are subsumed under the term "economic culture." It shows that

post-war reconstruction, as envisioned and realized by a network of politicians, entrepreneurs, and cultural brokers, did more than to modernize the respective parts of Germany. Rather, through the national re-inscription of their material culture, here explored in the realm of interior design and furniture production, the two German states pursued an unprecedented effort to regain economic stability and political influence in post-war Europe's order. Significantly, what started as a Cold War competition for ideological superiority quickly turned into a shared, politically legitimizing quest for an untainted post-fascist modernity. Following products from the drawing board into the homes of ordinary Germans, this book thus offers unique insights into how converging visions of German industrial modernity created shared expectations about economic progress and living standards. The resulting economic culture linked the two Germanies together and acted internationally in a pan-German interest"--

The Persistence of Technology - Stefan Krebs 2021-09-30

Repair, reuse and disposal are closely interlinked phenomena related to the service lives and persistence of technologies. When technical artefacts become old and worn out, decisions have to be taken: is it necessary, worthwhile or even possible to maintain and repair, reuse or dismantle them - or must they be discarded? These decisions depend on factors such as the availability of second-hand markets, repair infrastructures and dismantling or disposal facilities. In telling the stories of China's power grid, Canadian telephones, German automobiles and India's shipbreaking business, among others, the contributions in this volume highlight the persistence of technologies and show that maintenance and repair are not obsolete in modern industries and consumer societies.

Against Capital in the Twenty-First Century - John Asimakopulos 2018-02-23

The problems of capitalism have been studied from Karl Marx to Thomas Piketty. The latter has recently confirmed that the system of capital is deeply bound up in ever-growing inequality without challenging the continuance of that system. *Against Capital in the Twenty-First Century* presents a diversity of analyses and visions opposed to the idea that capital should have yet another century to govern human and non-human resources in the interest of profit and accumulation. The editors and contributors to this timely volume present alternatives to the whole liberal litany of administered economies, tax policy recommendations, and half-measures. They undermine and reject the logic of capital, and the foregone conclusion that the twenty-first century should be given over to capital just as the previous two centuries were. Providing a deep critique of capitalism, based on assessment from a wide range of cultural, social, political, and ecological thinking, *Against Capital in the Twenty-First Century* insists that transformative, revolutionary, and abolitionist responses to capital are even more necessary in the twenty-first century than they ever were.

Speaking Respect, Respecting Speech - Richard L. Abel 1998-05-06

The feminist campaign against pornography, the furor over a racial epithet in the O. J. Simpson trial, and Iran's continuing threat to kill Salman Rushdie exemplify the intense passions aroused by hurtful speech. Richard Abel offers an original framework for understanding and attempting to resolve these pervasive and intractable conflicts. Drawing on sociological theories of symbolic politics, he views such confrontations as struggles for respect among status categories defined by nationality, religion, race, gender, sexual orientation, and physical difference. Abel convincingly exposes the inadequacies of the conventional responses to speech: absolutist civil libertarianism and enthusiastic state regulation. Instead, he argues, only apologies exchanged within the communities that construct collective identities can readjust social standing damaged by hurtful words and images. In recasting the problem in terms of equalizing cultural capital, Abel opens a new pathway through the wrongs and rights of speech.

International Recognition - Warren Pez  2021-12

International recognition, which lies at the heart of many contemporary political conflicts (Nagorno-Karabakh, Ukraine, ISIS, Palestine, Libya to name a few), has generally been discussed from the point of view of international law and only as concerning modern history. This volume adopts a much broader perspective by tracing the history of recognition back to the ancient world. It approaches the issue of recognition as a political process where law features as only one of several resources at the disposal of the decision makers. The contributors explore the pivotal moments in the history of recognition on both a European and a world scale: the making of the Roman and Carolingian empires, the Peace of Westphalia, Latin American independence, decolonization, and the Cold War. The comparison brings to light the continuities and discontinuities of recognition within and beyond the historical limits of the modern state.
