Suicide by Cop - Mark Lindsay 2004

Examines what we know about the phenomenon of suicide by cop and places this behavior in a broader context. This work also discusses the process of hostage negotiation, the need to provide counseling for police officers involved in suicide-by-cop incidents, and how we might reduce the incidence of this behavior.

Police for the Future - David H. Bayley 1996-03-07

Police do not and cannot prevent crime. This alarming thesis is explored by David Bayley, one of the most prolific and internationally renowned authorities on criminal justice and policing, in *Police for the Future*. Providing a systematic assessment of the performance of the police institution as a whole in preventing crime, the study is based on exhaustive research, interviews, and first hand observation in five countries-- Australia, Canada, Great Britain, Japan, and the United States. It analyzes what police are accomplishing in modern democratic societies, and asks whether police organizations are using their resources effectively to prevent crime. Bayley assesses the impediments to effective crime prevention, describes the most promising reforms currently being tested by the police, and analyzes the choices that modern societies have with respect to creating truly effective police forces. He concludes with a blueprint for the creation of police forces that can live up to their promise to reduce crime and enhance public safety. Written for both the general public and the specialist in criminal justice, *Police for the Future* offers a unique multinational perspective on one of society's most basic institutions.

The Encyclopedia of Police Science - Jack R. Greene 2007

First published in 1996, this work covers all the major sectors of policing in the United States. Political events such as the terrorist attacks of September 11, 2001, have created new policing needs while affecting public opinion about law enforcement. This third edition of the "Encyclopedia" examines the theoretical and practical aspects of law enforcement, discussing past and present practices.

The Case Against Paramilitary Policing - Tony Jefferson 2023-03-31

The argument of this book, originally published in 1990, demonstrates that paramilitarism, thought to deal quickly and effectively with outbreaks of public disorder, far from being maximally effective, substantially contributed to the very problem it claimed to minimize.

The Elements of Police Hostage and Crisis Negotiations - James L Greenstone 2013-05-13

Run a safe and successful crisis negotiation—from start to finish! *The Elements of Police Hostage and Crisis Negotiations: Critical Incidents and How to Respond to Them* reduces the negotiation procedures for hostage, barricaded, and suicide incidents to their basic elements, providing quick and easy access to the information you need—from the initial call-out to the final debriefing. Based on field-tested principles proven to work, the book also includes newly developed and highly specialized techniques for more experienced negotiators.

Author James L. Greenstone provides a user-friendly, step-by-step guide to the intervention and negotiation process that will help you get the job done—right. Designed for day-to-day, on-the-scene use, *The Elements of Police Hostage and Crisis Negotiations* is a practical handbook for experienced professionals and novices that can also be used as a supplementary textbook for criminal justice, crisis intervention, and psychology coursework. Each chapter contains useful checklists, procedural notes, tables, strategy worksheets, and forms, and the book includes special indices for quick reference in addition to a traditional index. Dr. Greenstone, a police mental health consultant and psychologist who served as Director of the Psychological Services Unit of the Fort Worth Police Department in Texas, uses a simple and direct format that emphasizes procedures, action and results, leaving theoretical discussions for another time and place. The book examines the negotiation process from start to finish, including preincident preparations, first response responsibilities, responding to the call-out, arriving at the scene, preparing to negotiate, making contact, preparing for the surrender, post-incident tasks, preparing equipment, and more. Topics covered in *The Elements of Police Hostage and Crisis Negotiations* include: legal considerations telephone surveillance guidelines the Stockholm Syndrome working with S.W.A.T. and Tactical Emergency Medical Support dealing with the media recognizing “red flags” the issues of suicide debriefing the hostage team the 150 laws of hostage and crisis negotiation and the 10 most serious errors a negotiator can make *The Elements of Police Hostage and Crisis Negotiations: Critical Incidents and How to Respond to Them* is a practical guide that’s equally effective in the field, in training, and in the office.

- rewarding accomplishment

The Futures of Criminology - David Nelken 1994-11-11

In *The Futures of Criminology*, a distinguished set of international criminologists present a critical survey of the theoretical accomplishments of the field, and their viability for the future. With proposals to change ways of analyzing current developments in crime and crime control, the discussions are both wide-ranging in scope and fundamental to the reexamination of criminology. The authors discuss the limits of criminology's ability to be reflexive, the reasons for criminology's fragmentation, the encounter between criminology and postmodernism, the emergence of actuarial justice, and the insights to be gained from comparative

criminology. This ground-breaking book will be compulsive reading for students, teachers and researchers in criminology, sociology of law, and sociology, as well as for all those concerned with the intellectual respectability of criminology.

Routledge Handbook of Critical Criminology - Walter S. DeKeseredy 2011-10-27

The Routledge Handbook of Critical Criminology is a collection of original essays specifically designed to offer students, faculty, policy makers, and others an in-depth overview of the most up-to-date empirical, theoretical, and political contributions made by critical criminologists around the world. Special attention is devoted to new theoretical directions in the field, such as cultural criminology, masculinities studies, and feminist criminologies. Its diverse essays not only cover the history of critical criminology and cutting edge theories, but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work. In addition, some of the chapters suggest innovative and realistic short- and long-term policy proposals that are typically ignored by mainstream criminology. These progressive strategies address some of the most pressing social problems facing contemporary society today, and that generate much pain and suffering for socially and economically disenfranchised people. The Handbook explores up-to-date empirical, theoretical, and political contributions, and is specifically designed to be a comprehensive resource for undergraduate and post-graduate students, researchers, and policy makers.

Police, Military, and Ethnicity - Cynthia H. Enloe 1980

This collection of essays describes and analyzes the ways in which government policymakers go about designing police forces and militaries. The author includes both wide-ranging comparative investigations of the dimensions of the state security phenomenon and specific case studies. Dr. Enloe uses the sociological concept of ethnicity to demonstrate how the armed forces in several nations have capitalized on racial and ethnic diversity to foster their own goals and those of the government and power elites. She examines this idea by focusing on the ethnic factors involved in the evolution of the South African military, the military-ethnic connection in Malaysia, and the role of the armed forces in the conflict in Ulster. The author illustrates convincingly that not only individual citizens desire security, but that nation-states themselves are engaged in the same pursuit. What often passes for or is justified in the name of citizen protection is in fact done to strengthen the state itself. Militaries are recruited in ethnically skewed ways, and increasing numbers of police forces throughout the world have military capacities not to enhance the security of private individuals, but to protect the status quo of the central government and the nation's "establishment." Dr. Enloe covers an assortment of countries within the framework of her central argument, which is practically as well as theoretically significant. Each chapter can be read on its own, and all deal with currently salient political conditions.

Critical Incidents in Policing - James T. Reese 1991

Leadership by the Book - Kenneth H. Blanchard 2001

Told in the parable format of *The One Minute Manager*, this work draws on the model and messages of Jesus as a source of practical lessons in effective leadership. Recounting the story of a teacher, a minister and a marketplace leader who support one another in their leadership challenges, this book offers unexpected and exceptional answers to tough leadership issues. The authors offer simple strategies for bringing vision - and values - to the workplace by examining messages and examples from the Bible.

Police and Communities - George L. Kelling 1988

Punishment and Social Control - Thomas G. Blomberg 2003

While crime, law, and punishment are subjects that have everyday meanings not very far from their academic representations, "social control" is one of those terms that appear in the sociological discourse without any corresponding everyday usage. This concept has a rather mixed lineage. "After September 11" has become a slogan that conveys all things to all people but carries some very specific implications on interrogation and civil liberties for the future of punishment and social control. The editors hold that the already pliable boundaries between ordinary and political crime will become more unstable; national and global considerations will come closer together; domestic crime control policies will be more influenced by interests of national security; measures to prevent and control international terrorism will cast their reach wider (to financial structures and ideological support); the movements of immigrants, refugees, and asylum seekers will be curtailed and criminalized; taken-for-granted human rights and civil liberties will be restricted. In the midst of these dramatic social changes, hardly anyone will notice the academic field of "punishment and social control" being drawn closer to political matters. Criminology is neither a "pure" academic discipline nor a profession that offers an applied body of knowledge to solve the crime problem. Its historical lineage has left an insistent tension between the drive to understand and the drive to be relevant. While the scope and orientation of this new second edition remain the same, in recognition of the continued growth and diversity of interest in punishment and social control, new chapters have been added and several original chapters have been updated and revised.

Forthcoming Books - Rose Army 1998-04

Crime Control As Industry - Nils Christie 2016-10-04

Crime Control As Industry, translated into many languages, is a modern classic of criminology and sociology. Nils Christie, one of the leading criminologists of his era, argues that crime control, rather than crime itself is the real danger for our future. Prison populations, especially in Russia and America, have grown at an increasingly rapid rate and show no signs of slowing. Christie argues that this vast and growing population is the equivalent of a modern gulag, run by a rapacious industry, both public and private, with vested interests in incarceration. Pain and confinement are products, like any other, with a potentially limitless supply of resources. Widely hailed as a classic account of crime and restorative justice Crime Control As Industry's prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system. This Routledge Classics edition includes a new foreword by David Garland.
The Iron Fist and the Velvet Glove - 1982

Leadership - Charles R. Swindoll 1985

The Adaptive Corporation - Alvin Toffler 1985

The Idea of Police - Carl B. Klockars 1985

What is the best way to define the police? Why do we have police at all? In modern democracies like the United States and Great Britain, why is most policing done by employees of the state? What is the relationship between police and the law? What makes a good police officer? In addressing these questions, Klockars makes the reader look at the idea of police from a new perspective. First he explains how any definition of police must include the reality of coercive force--the fact that police officers everywhere have the right to "forcibly compel other people to do something." Next he describes the evolution of the police in the United States vis-a-vis the police in Great Britain. After exploring the role of the detective, he highlights the moral conflicts and issues of discretion that police officers face daily. Finally, Klockars examines what makes a good police officer. "An informative introductory resource. . . may prove valuable even to graduate students." --The Social Science Journal
