*Dissolution and Rational Choice* - Kenneth Vanko 2016

This article discusses the remedy of judicial dissolution in the context of an Illinois corporation facing management deadlock. The particular focus of this article is on one of the most common corporate structures for small businesses: the equally-held firm where management rights are symmetrical with ownership interests. Although courts long have described dissolution as an extreme and disfavored remedy, they have done so without reference to the particular factual context unique to deadlocked closely-held corporations. Illinois has a unique shareholder-relief statute, which illustrates when dissolution is an appropriate remedy. Based on the statutory text, I suggest dissolution is a default remedy in deadlock cases when a petitioning shareholder does not request a buy-out of her shares in the litigation and when the corporation's shareholders have failed to include deadlock avoidance mechanisms in their advance planning documents. As support, I demonstrate the motivations for why a shareholder in an equally-split firm may eschew a buy-out remedy altogether and prefer dissolution.

**A Companion to Spinoza** - Yitzhak Y. Melamed 2021-07-06

An unparalleled collection of original essays on Benedict de Spinoza's contributions to philosophy and his enduring legacy A Companion to Spinoza presents a panoramic view of contemporary Spinoza studies in Europe and across the Anglo-American world. Designed to stimulate fresh dialogue between the analytic and continental traditions in philosophy, this extraordinary volume brings together 53 original essays that explore Spinoza's contributions to Western philosophy and intellectual history. A diverse team of established and emerging international scholars discuss new themes and classic topics to provide a uniquely comprehensive picture of one of the most influential metaphysicians of all time. Rather than simply summarizing the body of existing scholarship, the Companion develops new ideas, examines cutting-edge scholarship, and suggests directions for future research. The text is structured around six thematically-organized sections, exploring Spinoza's life and background, his contributions to metaphysics and natural philosophy, his epistemology, politics, ethics, and aesthetics, the reception of Spinoza in the work of philosophers such as Kant, Schelling, Schopenhauer, and Hegel, and more. This unparalleled

research collection combines a timely overview of the current state of research with deep coverage of Spinoza's philosophy, legacy, and influence. Part of the celebrated Blackwell Companions to Philosophy series, A Companion to Spinoza is an ideal text for advanced courses in modern philosophy, intellectual history, and the history of metaphysics, and an indispensable reference for researchers and scholars in Spinoza studies.

Dissolution of political party - Sungjin Kim 2017-05-24

The Korean Constitutional Court adopted a two-prong test in its first case on dissolution of political party in determining whether to dissolve the political party. According to Article 8 Section 4 of the Korean Constitution, a political party may be dissolved if the purposes or activities of the political party are contrary to the fundamental democratic order. The Korean Constitutional Court not only used Article 8(4) of the Constitution as a standard of review for dissolution of political party but also adopted the principle of proportionality as another standard of review to be met even though the Constitution does not explicitly say so. The European Court of Human Rights has also used essentially a two-step test where the dissolution of a political party is justified if there is a pressing social need for the dissolution and the dissolution is proportionate to the legitimate aims pursued. In principle, the criteria established by the Korean Constitutional Court is very similar to the ones developed by the European Court of Human Rights even though the outcome of the application seems to be somewhat different.

*Judicial Dissolution of the Limited Liability Company* - Douglas K. Moll 2018

This article, prepared for the Business Law Prof Blog 2017 Symposium, examines the statutory grounds available to members who seek judicial dissolution of an LLC in all fifty states plus the District of Columbia. I also examined the judicial dissolution grounds in five model statutes: the 1992 Prototype LLC Act, the 2011 Revised Prototype LLC Act, the 1996 Uniform LLC Act, the 2006 Revised Uniform LLC Act, and the 2013 Revised Uniform LLC Act. Two charts are provided - one that provides the judicial dissolution grounds for each statute, and one that tabulates the different approaches. Part I summarizes the methodology used and highlights the frequency of various statutory provisions. Part II analyzes two particular provisions--dissolution if it is not reasonably practicable to carry on the LLC's business in conformity with its governing documents, and dissolution as a result of oppressive conduct by those in control. With respect to the "not reasonably practicable" language, the article argues that the impracticability of carrying on the business in conformity with either the certificate or the operating agreement should result in dissolution, but there is confusion over which statutory articulation is consistent with this result. With respect to the oppressive conduct ground, this article provides some possible explanations for why oppression-related dissolution statutes are less common in the LLC setting than in the corporation context.

### **In Local Hands** - Lisa K. Parshall 2023-03-01

In Local Hands examines the contemporary (post-2010) village government dissolution movement and renewed state-level effort to encourage local government restructuring against the backdrop of evolving statutory authority, growing fiscal pressures, and state incentives. Drawing on multiple disciplines, Lisa K. Parshall explores the contemporary village dissolution movement in New York State, the impetus behind these reforms, and the impact of the state-level policies and incentives that are driving a growing number of local communities to consider local government reorganization through the elimination of villages as governing entities. Parshall explores the social, political, and narrative contexts in which these community-level debates occur, providing us with a study of local democracy in action and of the power of local control over the creation and dissolution of local governing entities. With its dual within and cross-case study focus on New York State villages, In Local Hands is both timeless and timely, providing valuable contributions to the study of municipal development and reorganization.

*Foreclosure and Dissolution Rights of a Member's Creditors* - Thomas E. Rutledge 2010

A recent article in this journal raised the spectre that a judgment creditor of a member of a limited liability company (LLC) might apply for and obtain a charging order; then or later persuade the

court to order foreclosure on the membership interest subject to the charging order before the charging order is redeemed; be the successful bidder at the foreclosure sale; thereby become a transferee; thereafter petition for involuntary judicial dissolution of the LLC; and finally persuade the court that involuntary dissolution (with its attendant consequences to a potentially successful business, its other members, employees, and creditors) is warranted. If successful, the judicial dissolution threat would either force a sale of the entity's assets or require the other members to

purchase the interest from the foreclosure and purchasing creditor at an inflated price elevated by the dissolution threat. Either event would be highly disruptive to the successful continuation of the LLC's business and, if realistic, represent a serious impediment to the use of the LLC entity form. Moreover, the eventuality of judicial dissolution would represent a serious threat to "asset protection" goals of using an entity's separate existence to insulate personal assets from the reach of that member's creditors.
