*Words Are My Matter* - Ursula K. Le Guin 2019  
A collection of essays on life and literature, from one of the most iconic authors and astute critics in contemporary letters. *Words Are My Matter* is essential reading: a collection of talks, essays, and criticism by Ursula K. Le Guin, a literary legend and unparalleled voice of our social conscience. Here she investigates the depth and breadth of contemporary fiction-- and, through the lens of literature, gives us a way of exploring the world around us. In "Freedom," Le Guin notes: "Hard times are coming, when we'll be wanting the voices of writers who can see alternatives to how we

live now ... to other ways of being, and even imagine real grounds for hope. We'll need writers who can remember freedom--poets, visionaries--realists of a larger reality." Le Guin was one of those authors and in *Words Are My Matter* she gives us just that: a vision of a better reality, fueled by the power and might and hope of language and literature.

the Galactic Commons, as humans, artificial intelligence, aliens, and some beings yet undiscovered explore what it means to be a community in this exciting third adventure in the acclaimed and multi-award-nominated science fiction Wayfarers series, brimming with heartwarming characters and dazzling space adventure. Hundreds of years ago, the last humans on Earth boarded the Exodus Fleet in search of a new home among the stars. After centuries spent wandering empty space, their descendants were eventually accepted by the well-established species that govern the Milky Way. But that was long ago. Today, the Exodus Fleet is a living relic, the birthplace of many, yet a place few outsiders have ever visited. While the

Exodans take great pride in their original community and traditions, their culture has been influenced by others beyond their bulkheads. As many Exodans leave for alien cities or terrestrial colonies, those who remain are left to ponder their own lives and futures: What is the purpose of a ship that has reached its destination? Why remain in space when there are habitable worlds available to live? What is the price of sustaining their carefully balanced way of life—and is it worth saving at all? A young apprentice, a lifelong spacer with young children, a planet-raised traveler, an alien academic, a caretaker for the dead, and an Archivist whose mission is to ensure no one's story is forgotten, wrestle with

these profound universal questions. The answers may seem small on the galactic scale, but to these individuals, it could mean everything.

*Postmodern Anarchism* - Lewis Call 2002

Delving into the anarchist writings of Nietzsche, Foucault, and Baudrillard, and exploring the cyberpunk fiction of William Gibson and Bruce Sterling, theorist Lewis Call examines the new philosophical current where anarchism meets postmodernism. This theoretical stream moves beyond anarchism's conventional attacks on capital and the state to

criticize those forms of rationality, consciousness, and language that implicitly underwrite all economic and political power.

Call argues that postmodernism's timely influence updates anarchism, making it relevant to the political culture of the new millennium.

He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their

arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

Five Ways to Forgiveness focuses on the twin planets Werel and Yeowe, two worlds whose peoples, long known as "owners" and "assets," together face an uncertain future after civil war and revolution. In "Betrayals" a retired science teacher must make peace with her new neighbor, a disgraced revolutionary leader. In "Forgiveness Day," a female official from the Ekumen arrives to survey the situation on Werel and struggles against its rigidly patriarchal culture. Embedded within "A Man of the People," which describes the coming of age of Havzhiva, an Ekumen ambassador to Yeowe, is Le Guin's most sustained description of the Ur-planet Hain. "A Woman's Liberation" is the remarkable narrative of Rakam, born an asset on Werel, who must twice

escape from slavery to freedom. Joined to them is "Old Music and the Slave Women," in which the charismatic Hainish embassy worker, who appears in two of the four original stories, returns for a tale of his own. Of this capstone tale Le Guin has written, "the character called Old Music began to tell me a fifth tale about the latter days of the civil war . . . I'm glad to see it joined to the others at last."

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four"

centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who

employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

paper will go into certain aspects of feminist criticisms of Ursula K. Le Guin's 1969 science fiction novel "The Left Hand of Darkness", discuss their justification question, and further examine the consistency of Le Guin's description of the genderless society of Gethen. *The Left Hand of Darkness* tells the story of Genly Ai, an envoy from Earth ("Terra"), sent by the "Ekumen", a union of inhabited planets, to planet Gethen in order to convince the planet's inhabitants to join an interstellar alliance. Throughout the novel Le Guin explores Genly Ai's difficulties to understand and become part of society on Gethen, which are mainly due to the fact that all the inhabitants are ambisexual; they only take on a biological gender once a month, in

a short period of sexual activity. Each individual has the capacity to become either a man or a woman, and their sex can differ from one month to the other. The Left Hand of Darkness has played an essential role in the history of science fiction. Since Science Fiction was a largely male dominated field of literature in the 1960s, both in its authors and its protagonists, Le Guin's novel was pathbreaking in many ways. It has attracted a lot of attention for its unusual focus on social science and human relationships as opposed to natural science and technology and for its attempt to show a

society of complete equals. However, Le Guin's thought-experiment about a genderless or gender-ambiguous society has frequently been subject to harsh criticism by feminist critics, who hold that she has not succeeded to create a credible picture of this society. They claim the gender situation throughout the book to be inconsistent. According to these critics, instead of depicting a society without any gender roles, Le Guin describes a purely male world, and fails to make the reader see the Gethenians as women as well as men. This paper discusses the validity of these criticisms.
