[A Thousand Years of Good Prayers](#) - Yiyun Li 2007-12-18

Brilliant and original, *A Thousand Years of Good Prayers* introduces a remarkable new writer whose breathtaking stories are set in China and among Chinese Americans in the United States. In this rich, astonishing collection, Yiyun Li illuminates how mythology, politics, history, and culture intersect with personality to create fate. From the bustling heart of Beijing, to a fast-food restaurant in Chicago, to the barren expanse of Inner Mongolia, *A Thousand Years of Good Prayers* reveals worlds both foreign and familiar, with heartbreaking honesty and in beautiful prose.

"Immortality," winner of The Paris Review's Plimpton Prize for new writers, tells the story of a young man who bears a striking resemblance to a dictator and so finds a calling to immortality. In "The Princess of Nebraska," a man and a woman who were both in love with a young actor in China meet again in America and try to reconcile the lost love with their new lives. "After a Life" illuminates the vagaries of marriage, parenthood, and gender, unfolding the story of a couple who keep a daughter hidden from the world. And in "A Thousand Years of Good Prayers," in which a man visits America for the first time to see his recently

divorced daughter, only to discover that all is not as it seems, Li boldly explores the effects of communism on language, faith, and an entire people, underlining transformation in its many meanings and incarnations. These and other daring stories form a mesmerizing tapestry of revelatory fiction by an unforgettable writer.

The Spot - David Means 2010-05-25

The Spot is an old blacksmith shed in which three men tweeze apart the intricacies of a botched bank robbery. The Spot is a park on the Hudson River, where two lovers sense their affair is about to come to an end. The Spot is at the bottom of Niagara Falls, where the body of a young girl floats as if caught in the currents of her own tragic story. The Spot is in the ear of a Manhattan madman plagued by a noisy upstairs neighbor. The Spot is a suburban hospital room in which a young father confronts his son's potentially devastating diagnosis. The Spot is a dusty encampment in Nebraska where a gang of inept radicals plot a revolution. The Spot draws thirteen new stories together into a masterful collection that shows David Means at his finest: at once comically detached and wrenchingly affecting, expansive and concise, wildly inventive and firmly rooted in tradition. Means's work has earned him comparisons to Flannery O'Connor (London Review of Books), Alice Munro, Bob Dylan,

Jack Kerouac (Newsday), Hemingway, Sherwood Anderson (Chicago Tribune/NPR), Denis Johnson (Entertainment Weekly), Poe, Chekhov, and Carver (Milwaukee Journal Sentinel), but the spot he has staked out in the American literary landscape is fully and originally his own.

Rain Dragon - Jon Raymond 2012-04-24
Damon and his girlfriend Amy have had enough of Los Angeles. Fitful and tired and dreaming of a simpler life, they leave the city to go work on a community farm. But they've scarcely arrived when their vague hopes start to come unraveled: What are they really doing here? Who are their friends? Are they truly testing themselves, or are they just chasing a fantasy that will never be fulfilled? By degrees, they realize that their dreams are not the same. For Damon, a career in the field of branding unfolds almost effortlessly, while for Amy, the menial labor of the farm leads to a satisfying but difficult new path. As the rift deepens, they are forced to evaluate fundamental questions of identity and fate, ambition and betrayal, compromise and lust. This novel is a fresh, searching story about the love of work and the work of love, and the life destinies that we sadly only recognize in retrospect.

a last hurrah before graduation and the pressures of postcollege life. Then late one night, something unspeakable happens, searing through the framework of their friendship and tearing them apart. Many years later, Megan publicly comes forward about what happened that fateful night, revealing a horrible truth and threatening to expose long-buried secrets. A few years later, working as a speed-popping video editor in New York, Slater is cursed with watching his past unfold on the screens in his editing suite. He watches the story of his fellow stowaway Harp Maitland and how the two of them outrun drug dealers, crooked cops, and small-town creeps without ever being particularly sympathetic: as Slater concludes, "the doomed... have no need for guilt."

Denial - Jon Raymond 2022-07-26
A futuristic thriller about climate change by the acclaimed screenwriter of *First Cow*, *Meek's Cutoff*, and HBO's *Mildred Pierce*. The year is 2052. Climate change has had a predictably devastating effect: Venice submerged, cyclones in Oklahoma, megafires in South America. Yet it could be much worse. Two decades earlier, the global protest movement known as the Upheavals helped break the planet's fossil fuel dependency, and the subsequent Nuremberg-like Toronto Trials convicted the most powerful oil executives and lobbyists for crimes against the environment. Not all of them. A few executives escaped arrest and went into hiding, including pipeline mastermind Robert Cave. Now, a Pacific Northwest journalist named Jack Henry who works for a struggling media company has received a tip that Cave is living in Mexico. Hoping the story will save his job, he travels

south and, using a fake identity, makes contact with the fugitive. The two men strike up an unexpected friendship, leaving Jack torn about exposing Cave—an uncertainty further compounded by the diagnosis of a life-threatening illness and a new romance with an old acquaintance. Who will really benefit from the unmasking? What is the nature of justice and punishment? How does one contend with mortality when the planet itself is dying? Denial is both a page-turning speculative suspense novel and a powerful existential inquisition about the perilous moment in which we currently live.

Digital Objects, Digital Subjects - David Chandler 2019-01-29

This volume explores activism, research and critique in the age of digital subjects and objects and Big Data capitalism after a digital turn said to have radically transformed our political futures. Optimists assert that the 'digital' promises: new forms of community and ways of knowing and sensing, innovation, participatory culture, networked activism, and distributed democracy. Pessimists argue that digital technologies have extended domination via new forms of control, networked authoritarianism and exploitation, dehumanization and the surveillance society. Leading international scholars present varied interdisciplinary assessments of such claims - in theory and via dialogue - and of the digital's impact on society and the potentials, pitfalls, limits and ideologies, of digital activism. They reflect on whether computational social science, digital humanities and ubiquitous datafication lead to digital positivism that threatens critical research or lead to new horizons in theory and society. An electronic version of this book is freely available, thanks to the support of libraries working with Knowledge Unlatched. KU is a collaborative initiative designed to make high quality books Open

Access for the public good. More information about the initiative and details about KU's Open Access programme can be found at www.knowledgeunlatched.org.

You Don't Love This Man - Dan DeWeese
2011-03-01

"You Don't Love This Man is an exquisite puzzle....Which is more gorgeous, more satisfying here, the story itself, or the language DeWeese uses to tell it?" —Mary Rechner, author of *Nine Simple Patterns for Complicated Women Set in the Pacific Northwest*, Dan Deweese's debut novel delivers a witty, heartfelt, and keenly observed day-in-the-life of one father of the bride, casting luminous insight into marriage, fatherhood, and bank robbery. Readers of Benjamin Kunkel, Joshua Ferris, and Kevin Wilson, as well as fans of contemporary American masters like Philip Roth and Tobias Wolff, will be enthralled by Deweese's evocative, literary exploration of an everyman protagonist's quiet struggles and tender joys on one of the most monumental days in his life.

Salad Days - Frances Badalamenti
2021-10-26

The nineties have just come to a close when newly married twenty-somethings Ana and Paul abandon their deep-set roots in Jersey and move out west to Portland, Oregon. Soon after they settle into the sleepy, new city, Ana starts hanging out with Drew, her new boss, a mellow, long-haired skateboarder from So-Cal and the complete opposite in temperament to feisty Paul. Drew and Ana become fast friends. And it's not long before everything that Ana thought she was building from scratch in a sluggish but thriving new city washes away with the relentless Northwest rains. As she begins to settle in her new surroundings, Ana presses rewind and begins to come to terms with what she left behind on the East Coast. She zeros in on the time before she met Paul, back when she bartended through the heart of the nineties at Uncle Joe's Tavern, a famous indie rock venue on the Jersey side of the Hudson in close-knit and not-quite gentrified Milltown. Even though she fumbled her way through many an

obsessive intimate relationship and struggled way too hard to make rent on barely habitable apartment shares, Ana remained held together by an epic music scene and a ragtag yet endearing crew from Uncle Joe's. *Salad Days* vacillates between mid-nineties era Jersey and early aughts Portland, as we witness Ana trying desperately to be an adult, all the while attempting to repair a broken moral compass without an owner's manual.

Livability - Jon Raymond 2009-07-01

A tired man, struggling to overcome the loss of his wife in a car accident. Two old friends, hoping to rediscover their connection on a trip to the woods. A screenwriter hoping to hear news about the future of his film. In Jon Raymond's deft, nuanced stories, these and other characters contend with the frustrations, longings, and mood swings we face every day. Artfully conveying the feeling of lived experience, these stories brim with gratifying sensory detail: the sound of a tree root snapping underfoot, the smell of a roast, the stillness of the air after music has stopped. And, with careful observations and a humane spirit, *Livability* gives us a portrait of America full of characters finding ways to survive their own choices. Published to coincide with the national release of *Wendy and Lucy*, these refined, elegiac stories are the work of a writer with a long and promising career ahead of him.

Inequity in the Technopolis - Joseph Straubhaar 2012-03-15

Over the past few decades, Austin, Texas, has made a concerted effort to develop into a "technopolis," becoming home to companies such as Dell and numerous start-ups in the 1990s. It has been a model for other cities across the nation that wish to become high-tech centers while still retaining the livability to attract residents. Nevertheless, this expansion and boom left poorer residents behind, many of them African American or Latino, despite local and federal efforts to increase lower-income and minority access to technology. This book was born of a ten-year longitudinal study of the digital divide in Austin—a study that

gradually evolved into a broader inquiry into Austin's history as a segregated city, its turn toward becoming a technopolis, what the city and various groups did to address the digital divide, and how the most disadvantaged groups and individuals were affected by those programs. The editors examine the impact of national and statewide digital inclusion programs created in the 1990s, as well as what happened when those programs were gradually cut back by conservative administrations after 2000. They also examine how the city of Austin persisted in its own efforts for digital inclusion by working with its public libraries and a number of local nonprofits, and the positive impact those programs had.

Urban Morphology - Vítor Oliveira
2016-03-30

This is a book about cities or, more precisely, about the physical form of cities. It starts presenting the main elements of urban form - streets, urban blocks, plots and buildings - structuring our cities and the fundamental actors and processes of transformation shaping these elements. It then applies this analytical framework to describe the evolution of cities over history as well as to explain the functioning of contemporary cities. After the initial focus on the 'object' (cities) the book describes how different researchers and different schools of thought have been dealing with this object since the emergence of Urban Morphology, as the science of urban form, in the turning to the twentieth century. Finally, the book tries to identify what are the most important (and specific) contributions that Urban Morphology has to offer to contemporary cities, societies and economies.

Ice Bear - Michael Engelhard 2017-01-26
Prime Arctic predator and nomad of the sea ice and tundra, the polar bear endures as a source of wonder, terror, and fascination. Humans have seen it as spirit guide and fanged enemy, as trade good and moral metaphor, as food source and symbol of ecological crisis. Eight thousand years of artifacts attest to its charisma, and to the fraught relationships between our two species. In the *White Bear*, we acknowledge the magic of wildness: it is both genuinely itself and a screen for our imagination. *Ice Bear* traces and illuminates this intertwined history. From Inuit shamans to Jean Harlow lounging on a bearskin rug, from the cubs trained to pull sleds toward the North Pole to cuddly superstar Knut, it all comes to life in these pages. With meticulous research and more than 160 illustrations, the author brings into focus this powerful and elusive animal. Doing so, he delves into the stories we tell about Nature and about ourselves, hoping for a future in which such tales still matter.

Preservation, Sustainability, and Equity -

Erica Avrami 2021-11

Heritage occupies a privileged position within the built environment. Most

municipalities in the United States, and nearly all countries around the world, have laws and policies to preserve heritage in situ, seeking to protect places from physical loss and the forces of change. That privilege, however, is increasingly being unsettled by the legacies of racial, economic, and social injustice in both the built environment and historic preservation policy, and by the compounding climate crisis. Though many heritage projects and practitioners are confronting injustice and climate in innovative ways, systemic change requires looking beyond the formal and material dimensions of place and to the processes and outcomes of preservation policy--operationalized through laws and guidelines, regulatory processes, and institutions--across time and socio-geographic scales, and in relation to the publics they are intended to serve. This third volume in the Issues in Preservation Policy series examines historic preservation as an enterprise of ideas, methods, institutions, and practices that must reorient toward a new horizon, one in which equity and sustainability become critical guideposts for policy evolution.

[The Deeper the Roots](#) - Michael Tubbs 2021-11-16

"Insightful, emotional, and enraging. By sharing his story in gripping detail, Michael Tubbs embodies an old feminist tradition whereby the personal is political. He empowers us to fight for equal opportunities for our communities, and encourages us to amass the courage to overcome loss and injustice." —Ibram X. Kendi, National Book Award-winning author of *Stamped from the Beginning* and *How to Be an Antiracist* The making of a visionary political leader—and a blueprint for a more equitable country "Don't tell nobody our business," Michael Tubbs's mother often told him growing up. For Michael, that meant a lot of things: don't tell anyone about the day-to-day struggle of being Black and broke in Stockton, CA. Don't tell anyone the pain of having a father incarcerated for 25 years to life. Don't tell anyone about living two lives, the brainy bookworm and the kid with the newest Jordans. And also don't tell anyone about the particular joys of growing up with three "moms"—a Nana who never let him miss church, an Auntie who'd take him to the library any time, and a mother, "She-Daddy", who schooled him in the wisdom of hip-hop and taught him never to take no for an answer. So for a long time Michael didn't tell anyone his story, but as he went on to a scholarship at Stanford and an internship in the Obama White House, he began to realize the power of his experience, the need for his perspective in the halls of power. By the time he returned to Stockton to become, in 2016 at age 26, its first Black mayor and the youngest-ever mayor of a major American city, he knew his story meant something. *The Deeper the Roots* is a memoir astonishing in its candor, voice, and clarity of vision. Tubbs shares with us the city that raised him, his family of badass women, his life-changing encounters with Oprah Winfrey and Barack Obama, the challenges of governing in the 21st century and everything in between—en route to unveiling his compelling vision for America rooted in his experiences in his hometown. *The Art of Subtext* - Charles Baxter 2013-07-16
Charles Baxter inaugurates *The Art of*, a

new series on the craft of writing, with the wit and intelligence he brought to his celebrated book *Burning Down the House: Essays on Fiction*. Fiction writer and essayist Charles Baxter's *The Art of Subtext: Beyond Plot* discusses and illustrates the hidden subtextual overtones and undertones in fictional works haunted by the unspoken, the suppressed, and the secreted. Using an array of examples from Melville and Dostoyevsky to contemporary writers Paula Fox, Edward P. Jones, and Lorrie Moore, Baxter explains how fiction writers create those visible and invisible details, how what is displayed evokes what is not displayed. *The Art of Subtext* is part of *The Art of* series, a new line of books by important authors on the craft of writing, edited by Charles Baxter. Each book examines a singular, but often assumed or neglected, issue facing the contemporary writer of fiction, nonfiction, or poetry. *The Art of* series means to restore the art of criticism while illuminating the art of writing.

The Monfort Plan - Jaime Pozuelo-Monfort
2010-03-18

The Monfort Plan is a five-year, forward looking plan to eradicate extreme poverty from the developing world, and details how microfinance has made a difference to developing countries. This book proposes a new institution based in the developing world with the potential to provide a basic, free, and universal service in the areas of water, sanitation, healthcare, and education to the extreme poor worldwide. The provision will be subject to a certain degree of conditionality in areas ranging from corruption to legal environment. The new institution will be established in a new international territory based within a specific country in Sub-Saharan Africa and will emerge in 2015. In *The Monfort Plan* author Jaime Pozuelo-Monfort engineers and designs a solution to lessen the burden of poverty. In order to do so he relies on the social sciences to bring about innovation and forward looking economic policies and financial instruments in the context of a paradigm shift. This book presents a multidisciplinary approach to policymaking

that combines a range of fields in the social sciences, looking at the history behind the Marshall Plan, the formation of the European Union, and the Bretton Woods Institutions, in order to determine how a Marshall Plan for Africa-and the creation of New Institutions in the developing world-could work. Walks you through the technicalities of the new architecture of capitalism in a straightforward manner Provides a holistic view of how microfinance combined with the right economic policies and financial instruments could help change the world for the poor Contains sweeping and detailed recommendations on how to build a new capitalist paradigm that helps elevate the poor and improve the human condition Incorporating commentary from some of the top minds in the field of microfinance, this book puts the method of microfinance in perspective.

24-Hour Cities - Hugh F. Kelly 2016-07-15
Winner of the Gold Award in the Tenth Annual Robert Bruss Real Estate Book Competition 24 Hour Cities is the very first full length book about America's cities that never sleep. Over the last fifty years, the nation's top live-work-play cities have proven themselves more than just vibrant urban environments for the elite. They are attracting a cross-section of the population from across the U.S. and are preferred destinations for immigrants of all income strata. This is creating a virtuous circle wherein economic growth enhances property values, stronger real estate markets sustain more reliable tax bases, and solid municipal revenues pay for better services that further attract businesses and talented individuals. Yet, just a generation ago, cities like New York, Boston, Washington, San Francisco, and Miami were broke (financially and physically), scarred by violence, and prime examples of urban dysfunction. How did the turnaround happen? And why are other cities still stuck with the hollow downtowns and sprawling

suburbs that make for a 9-to-5 urban configuration? Hugh Kelly's cross-disciplinary research identifies the ingredients of success, and the recipe that puts them together.

Landscape Urbanism and Green

Infrastructure - Thomas Panagopoulos 2019-08-19

This volume examines the applicability of landscape urbanism theory in contemporary landscape architecture practice by bringing together ecology and architecture in the built environment. Using participatory planning of green infrastructure and application of nature-based solutions to address urban challenges, landscape

urbanism seeks to reintroduce critical connections between natural and urban systems. In light of ongoing developments in landscape architecture, the goal is a paradigm shift towards a landscape that restores and rehabilitates urban ecosystems. Nine contributions examine a wide range of successful cases of designing livable and resilient cities in different geographical contexts, from the United States of America to Australia and Japan, and through several European cities in Italy, Portugal, Estonia, and Greece. While some chapters attempt to conceptualize the interconnections between cities and nature, others clearly have an empirical focus. Efforts such as the use of ornamental helophyte plants in bioretention ponds to reduce and treat stormwater runoff, the recovery of a poorly constructed urban waterway or participatory approaches for optimizing the location of green stormwater infrastructure and examining the environmental justice issue of equitable availability and accessibility to public open spaces make these innovations explicit. Thus, this volume contributes to the sustainable cities goal of the United Nations.

[Analysing the Screenplay](#) - Jill Nelmes
2010-10-04

Most producers and directors acknowledge the crucial role of the screenplay, yet the film script has received little academic attention until recently, even though the screenplay has been in existence since the end of the 19th century. *Analysing the Screenplay* highlights the screenplay as an important form in itself, as opposed to merely being the first stage of the production process. It explores a number of possible approaches to studying the screenplay, considering the depth and breadth of the subject area, including: the history and early development of the screenplay in the United States, France and Britain the process of screenplay writing and its peculiar relationship to film production the assumption that the screenplay is standardised in form and certain stories or styles are universal the range of writing outside the mainstream, from independent

film to story ideas in Bhutanese film production to animation possible critical approaches to analysing the screenplay. *Analysing the Screenplay* is a comprehensive anthology, offering a global selection of contributions from internationally renowned, specialist authors. Together they provide readers with an insight into this fascinating yet complex written form. This anthology will be of interest to undergraduate and postgraduate students on a range of Film Studies courses, particularly those on scriptwriting.

Faith and Spirituality in Masters of World Cinema, Volume III - Kenneth R. Morefield
2015-02-05

Faith and Spirituality in Masters of World Cinema, Volume III continues the work presented in the first two volumes of this title, published by Cambridge Scholars Publishing in 2008 and 2011. It provides informed yet accessible articles that will provide readers with an introduction to masters of world cinema whose works explore the themes of human spirituality and religious faith. Volume III contains essays dealing with canonical directors notably absent from the first two entries of the series, such as De Sica and Hitchcock, while also including examinations of contemporary auteurs who are still actively working, like Asghar Farhadi and Apichatpong Weerasethakul. While retaining an international emphasis similar to the first two volumes, it also includes a focused look at a few American auteurs not yet considered in the series. Volume III also acts as an important contribution to canon formation, illustrating the complexity and variety in the films of those who are truly the masters of world cinema. Built solidly around close, formal readings of selective

films, the essays in Volume III also demonstrate familiarity with film history and bring insight from varied disciplines. Framed by the question "What makes movies material?", Volume III continues the series' endeavour to have faith and spirituality provide a context for considering what makes cinema significant.

Freebird - Jon Raymond 2017-01-03

A page-turning new novel from the author of *Livability*, winner of the Oregon Book Award *The Singers*, an all-American family in the

California style, are about to lose everything. Anne is a bureaucrat in the Los Angeles Office of Sustainability whose ideals are compromised by a proposal from a venture capitalist seeking to privatize the city's wastewater. Her brother, Ben, a former Navy SEAL, returns from Afghanistan disillusioned and struggling with PTSD, and starts down a path toward a radical act of violence. And Anne's teenage son, Aaron, can't decide if he should go to college or pitch it all and hit the road. They all live inside the long shadow of the Singer patriarch Grandpa Sam, whose untold experience of the Holocaust shapes his family's moral character to the core. Jon Raymond, screenwriter of the acclaimed films *Meek's Cutoff* and *Night Moves*, combines these narrative threads into a hard-driving story of one family's moral crisis. In *Freebird*, Raymond delivers a brilliant, searching novel about death and politics in America today, revealing how the fates of our families are irrevocably tied to the currents of history.

Truth Like the Sun - Jim Lynch 2012-04-02

It is 1962, and the city of Seattle is about to be famous. Roger Morgan, an audacious young promoter, wants to pull off the ultimate coup de théâtre: the World's Fair, rising out of the downtown fog to show the whole nation that the future has arrived. In the run-up to the Fair's grand opening, Roger is everywhere at once - entertaining Elvis Presley and Lyndon Johnson, dipping in and out of secret card games and smooth-talking his way out of awkward financial questions - all under the haze of many a whiskey and the shadow of a looming crisis in Cuba. Roger dazzles everyone he meets, and is still a backstage power forty years later when, at the age of seventy, he makes a surprise bid for mayor. Helen Gulanos, a journalist new in town and keen to make her mark, sees her retrospectives on the 1962 Fair become front-page news as Roger's candidacy ignites the public imagination. She resolves to uncover the real Roger from behind the warm handshakes and glossy receptions - because even Seattle's golden boy must have something to hide. Woven

into in this city of dreams is a cat-and-mouse-tale of back-room deals, idealism and pragmatism, the best and worst ambitions, and the aspirations that shape

our communities and our lives. Hard-nosed yet profoundly humane, Truth Like the Sun is the most ambitious novel yet from the beloved author of The Highest Tide.
