Report on the Working of the Punjab Public Service Commission - Punjab (India). Public Service Commission 1965

Democracy and Education - John Dewey 1916

In this book, Dewey tries to criticize and expand on the educational philosophies of Rousseau and Plato. Dewey's ideas were seldom adopted in America's public schools, although a number of his prescriptions have been continually advocated by those who have had to teach in them.

Power and Influence - John P. Kotter 2010-09-28

In today's complex work world, things no longer get done simply because someone issues an order and someone else follows it. Most of us work in socially intricate organizations where we need the help not only of subordinates but of colleagues, superiors, and outsiders to accomplish our goals. This often leaves us in a "power gap" because we must depend on people over whom we have little or no explicit control. This is a book about how to bridge that gap: how to exercise the power and influence you need to get things done through others when your responsibilities exceed your formal authority. Full of original ideas and expert insights about how organizations—and the people in

them—function, Power and Influence goes further, demonstrating that lower-level personnel also need strong leadership skills and interpersonal know-how to perform well. Kotter shows how you can develop sufficient resources of "unofficial" power and influence to achieve goals, steer clear of conflicts, foster creative team behavior, and gain the cooperation and support you need from subordinates, coworkers, superiors—even people outside your department or organization. He also shows how you can avoid the twin traps of naivete and cynicism when dealing with power relationships, and how to use your power without abusing it. Power and Influence is essential for top managers who need to overcome the infighting, foot-dragging, and politicking that can destroy both morale and profits; for middle managers who don't want their careers sidetracked by unproductive power struggles; for professionals hindered by bureaucratic obstacles and deadline delays; and for staff workers who have to "manage the boss." This is not a book for those who want to "grab" power for their own ends. But if you'd like to create smooth, responsive working relationships and increase your personal effectiveness on the job, Kotter can show you how—and make the dynamics of power work for you instead of against you.

Business Organisation & Management - M. C. Shukla 1952

Principles and Practice of Management
- Dr. L.M. Prasad 2020-10-01
The book in its tenth edition has been thoroughly restructured and revised. All the chapters of the present edition have been re-written not only to incorporate the latest developments in management but also to make presentation of subject-

matter more lucid and crisp. Chapter 3 of the previous edition (Managers and Environment) has been named as Management Challenges and Opportunities in the present edition so that proper focus is put on these issues. Thus, the present edition is ideally suited to management students as well as management practitioners, particularly those who have not gone through formal management education.

Introduction to e-Business - Colin Combe 2012-07-26

An Introduction to e-Business provides the contemporary knowledge of the key issues affecting the modern e-business environment and links theory and practice of management strategies relating to e-business. This book brings together the most cogent themes for an introduction to e-business and constitutes a valuable contribution to formalising common themes for teaching the subject in higher education. It brings together theoretical perspectives based on academic research and the application of e-business strategies. These concepts are further explored in the six case studies that follow the set chapters. This new textbook integrates the main themes to provide a complete picture of the key elements relevant to an introductory text in e-business. To fully appreciate the e-business environment it is necessary to understand the links between the different disciplines that come together to form

Contradictions of Employee Involvement in Organizational Change - George M. Kandathil 2015-07-22

This book explores employee involvement in the transformation of an ailing business as it was taken over by workers and became a sustainable worker cooperative. The focus is on the struggles within the cooperative that create contradictions and mismatches in the expectations around employee involvement in the transformation as the business evolves.

Messengers of Hindu Nationalism - Walter Andersen 2019-06-15

The Rashtriya Swayamsevak Sangh (RSS) is a Hindu nationalist volunteer organization. It is also the parent of India's ruling Bharatiya Janata Party. Prime Minister Modi was himself a career RSS office-holder, or pracharak. This book explores how

the RSS and its affiliates have benefitted from India's economic development and concurrent social dislocation, with rapid modernization creating a sense of rootlessness, disrupting traditional hierarchies, and attracting many upwardly mobile groups to the organization. India seems more willing than ever to accept the RSS's narrative of Hindu nationalism--one that seeks to assimilate Hindus into a common identity representing true 'Indianness'. Yet the RSS has also come to resemble 'the Congress system', with a socially diverse membership containing a distinct left, right and center. The organization's most significant dilemma is how to reconcile the assault from its far right on cultural issues like cow protection with condemnations of globalization from the left flank. Andersen and Damle offer an essential account of the RSS's rapid rise in recent decades, tracing how it has evolved in response to economic liberalization and assessing its long-term impact on Indian politics and society.

Business Vocabulary in Use Advanced with Answers - Bill Mascull
2010-04-29

The Industries (Development and Regulation) Act, 1951 - 2001

Reinventing Organizations - Frederic

Laloux 2014

Every time humanity has shifted to a new stage of consciousness in the past, it has invented a new way to structure and run organizations, each time bringing breakthroughs in collaboration. The organizations researched for this book have already "cracked the code." Their founders have fundamentally questioned every aspect of management and have come up with entirely new organizational methods. This book describes in practical detail how organizations large and small can operate in this new paradigm.

Annual Report on the Working of the Punjab Public Service Commission - Punjab (India). Public Service Commission 1964

The Ride of a Lifetime - Robert Iger
2019-09-23

#1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly

five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- **Optimism.** Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming.
- **Courage.** Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity.
- **Decisiveness.** All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale.
- **Fairness.** Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book

strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives."

Scaling Up - Verne Harnish 2014-10-21
Winner of the International Book Awards for General Business Winner of the Readers' Favorite International Book Award for Non-Fiction Business
It's been over a decade since Verne Harnish's best-selling book *Mastering the Rockefeller Habits* was first released. *Scaling Up (Rockefeller Habits 2.0)* is the first major revision of this business classic which details practical tools and techniques for building an industry-dominating business. This book is written so everyone -- from frontline employees to senior executives -- can get aligned in contributing to the growth of a firm. *Scaling Up* focuses on the four major decision areas every company must get right: People, Strategy, Execution, and Cash. The book includes a series of new one-page tools including the updated One-Page Strategic Plan and the Rockefeller Habits Checklist™, which more than 40,000 firms around the globe have used to scale their companies successfully -- many to \$10 million, \$100 million, and \$1 billion and beyond -- while enjoying the climb!
