World in the Making - Bonnie G. Smith 2019

"A World in the Making is a kind of anthropological journey taken by four historians that assumes all societies are "hot," and all people make history and always have. We argue in our emphasis on lives and livelihoods for a world constructed, altered, renovated, remade by ordinary people even as we acknowledge the genius of individual innovators, disruptors who broke the mold or struck out in some new direction."--Provided by publisher.

Cultural, Theoretical, and Innovative Approaches to Contemporary Interior Design - Crespi, Luciano 2020-02-07

Interior design can be considered a discipline that ranks among the worlds of art, design, and architecture and provides the cognitive tools to operate innovatively within the spaces of the contemporary city that require regeneration. Emerging trends in design combine disciplines such as new aesthetic in the world of art, design in all its ramifications, interior design as a response to more than functional needs, and as the demand for qualitative and symbolic values to be added to contemporary environments. Cultural, Theoretical, and Innovative Approaches to Contemporary Interior Design is an essential reference source that approaches contemporary project development through a cultural and theoretical lens and aims to demonstrate that designing spaces, interiors, and the urban habitat are activities that have independent cultural foundations. Featuring research on topics such as contemporary space, mass housing, and flexible design, this book is ideally designed for interior designers, architects, academics, researchers, industry professionals, and students.

English Vocabulary Elements - Keith Denning 2007-02-17

This unique text draws on the tools of modern linguistics to help the student acquire an effective understanding of learned, specialized, and scientific vocabulary. English Vocabulary Elements (EVE) helps develop familiarity with over 350 Latin and Greek word elements in English, and shows how these roots are the building blocks within thousands of different words. Along the way the authors introduce and illustrate many of the fundamental concepts of linguistics. Offering

a thorough approach to the expansion of vocabulary, EVE is an invaluable resource that provides students a deeper understanding of the language. This book will be useful to upper level high school students, undergraduates in English, Linguistics, and Classics departments, ESL students, and anyone interested in building vocabulary skills. This edition is refined and thoroughly updated. It includes updated cultural references, and the authors have revised and improved the pedagogy based on classroom experience. In particular they account for variations in pronunciation among students; clarify when historical details are important or peripheral; and improve the many examples and exercises that form the core of the book.

Preface to Plato - Eric A. HAVELOCK 2009-06-30

Plato's frontal attack on poetry has always been a problem for sympathetic students, who have often minimized or avoided it. Beginning with the premise that the attack must be taken seriously, Mr. Havelock shows that Plato's hostility is explained by the continued domination of the poetic tradition in contemporary Greek thought. The reason for the dominance of this tradition was technological. In a nonliterate culture, stored experience necessary to cultural stability had to be preserved as poetry in order to be memorized. Plato attacks poets, particularly Homer, as the sole source of Greek moral and technical instruction--Mr. Havelock shows how the Illiad acted as an oral encyclopedia. Under the label of mimesis, Plato condemns the poetic process of emotional identification and the necessity of presenting content as a series of specific images in a continued narrative. The second part of the book discusses the Platonic Forms as an aspect of an increasingly rational culture. Literate Greece demanded, instead of poetic discourse, a vocabulary and a sentence structure both abstract and explicit in which experience could be described normatively and analytically: in short a language of ethics and science.

Prince, Pen, and Sword: Eurasian Perspectives - Maaik van Berkel 2018-02

A synoptic interpretation of the rulers and elites in Eurasia from the fourteenth to the eighteenth century.

Guns, Germs, and Steel: The Fates of Human Societies - Jared Diamond 1999-04-17

"Fascinating.... Lays a foundation for understanding human history."--Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our

understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

Communication Between Cultures - Larry A. Samovar 2016-01-01

Packed with current research and examples, bestselling COMMUNICATION BETWEEN CULTURES, 9E equips readers with a deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases--so they can understand the subtle and profound ways culture affects communication. The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. Shahnameh - Abolqasem Ferdowsi 2016-03-08

The definitive translation by Dick Davis of the great national epic of Iran--now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis--"our pre-eminent translator from the Persian" (The Washington Post)--has revised and expanded his acclaimed translation of Ferdowsi's masterpiece, adding more than 100 pages of newly translated text. Davis's elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Sumerians - Samuel Noah Kramer 2010-09-17

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."--American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."--Library Journal

Unmasking Ideology in Imperial and Colonial Archaeology - Bonnie Effros 2018-12-31

This volume addresses the entanglement between archaeology, imperialism, colonialism, capitalism, and war. Popular sentiment in the West has tended to embrace the adventure rather than ponder the legacy of archaeological explorers; allegations by imperial powers of "discovering" archaeological sites or "saving" world heritage from neglect or destruction have often provided the pretext for expanding political influence. Consequently, citizens have often fallen victim to the imperial war machine, seeing their lands confiscated, their artifacts looted, and the ancient remains in their midst commercialized. Spanning the globe with case studies from East Asia, Siberia, Australia, North and South America, Europe, and Africa, sixteen contributions written by archaeologists, art historians, and historians from four continents offer unusual breadth and depth in the assessment of various claims to patrimonial heritage, contextualized by the imperial and colonial ventures of the last two centuries and their postcolonial legacy.

Indigenous African Institutions - George Ayittey 2006-09-01

George Ayittey's *Indigenous African Institutions* presents a detailed and convincing picture of pre-colonial and post-colonial Africa - its cultures, traditions, and indigenous institutions, including participatory democracy.

Candide - Voltaire 2014-05-25T00:00:00Z

Candide is the picaresque tale of the titular character's fantastical journey from an insular, idealized life in a picturesque castle through the difficulties and evils of the real world. Satirical, comical, witty, and cutting, *Candide* was widely banned in its day for containing blasphemous and seditious concepts.

Despite that, it survived controversy to become an important book in the Western literary heritage. Today *Candide* remains a breezy and darkly funny read. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Archaeology, Anthropology, and Interstellar Communication - National Aeronautics Administration 2014-09-06

Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Prentice Hall World History - Elisabeth Gaynor Ellis 2003

The Mis-education of the Negro - Carter Godwin Woodson 1933

Woodson's classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community.

Culturally Responsive Teaching - Geneva Gay 2010

The achievement of students of color continues to be disproportionately low at all levels of education. More than ever, Geneva Gay's foundational book on culturally responsive teaching is essential reading in addressing the needs of today's diverse student population. Combining insights from multicultural education theory and research with real-life classroom stories, Gay demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through their own cultural experiences. This bestselling text has been extensively revised to include expanded coverage of student ethnic groups: African and Latino Americans as well as Asian and Native Americans as well as new material on culturally diverse communication, addressing common myths about language diversity and the effects of "English Plus" instruction.

Introduction to Controlled Vocabularies - Patricia Harpring 2010-04-13

This detailed book is a "how-to" guide to building controlled vocabulary tools, cataloging and indexing cultural materials with terms and names from controlled vocabularies, and using vocabularies in search engines and databases to enhance discovery and retrieval online. Also covered are the following: What are controlled vocabularies and why are they useful? Which vocabularies exist for cataloging art and cultural objects? How should they be integrated in a cataloging system? How should they be used for indexing and for retrieval? How should an institution construct a local authority file? The links in a controlled vocabulary ensure that relationships are defined and maintained for both cataloging and retrieval, clarifying whether a rose window and a Catherine wheel are the same thing, or how pot-metal glass is related to the more general term stained glass. The book provides organizations and individuals with a practical tool for creating and implementing vocabularies as reference tools, sources of documentation, and powerful enhancements for online searching.

The Great Inka Road - Ramiro Matos Mendieta 2015-07-21

This compelling collection of essays explores the Qhapaq nan (or Great Inca Road), an extensive network of trails reaching modern-day Colombia, Ecuador, Peru, Bolivia, Chile, and Argentina. These roads and the accompanying agricultural terraces and structures that have survived for more than six centuries are a testament to the advanced engineering and construction skills of the Inca people. The Qhapaq nan also spurred an important process of ecological and community integration across the Andean region. This book, the companion volume to a

National Museum of the American Indian exhibition of the same name, features essays on six main themes: the ancestors of the Inca, Cusco as the center of the empire, road engineering, road transportation and integration, the road in the Colonial era, and the road today. Beautifully designed and featuring more than 225 full-color illustrations, *The Great Inka Road* is a fascinating look at this enduring symbol of the Andean peoples' strength and adaptability.

Dao De Jing - Laozi 2019-05-07

The *Dao De Jing* exists on the border between poetry and philosophy, embracing both mythos and logos. Its poetic form can stand alone, but it is enriched when its timeless ideas are analyzed and explained through careful scholarship. For example: He who knows others is knowledgeable. He who knows himself is wise. These words resemble Socrates' account of his own quest in Plato's *Apology*. Ancient philosophy, both in China and in Greece, places self-knowledge at the center of the search for wisdom. Contemporary philosophers are often misled about this way of thinking, because the self has been detached from external things and separated from nature and society. The wisdom of China and of Europe unites human existence and nature. © Agora Publications ©2015 Agora, New Internet Technologies (P)2015 Agora, New Internet Technologies

Empire of the Vampire - Jay Kristoff 2021-09-14

THE INSTANT NEW YORK TIMES, USA TODAY, AND WALL STREET JOURNAL BESTSELLER From New York Times bestselling author Jay Kristoff comes *Empire of the Vampire*, the first illustrated volume of an astonishing new dark fantasy saga. From holy cup comes holy light; The faithful hand sets world aright. And in the Seven Martyrs' sight, Mere man shall end this endless night. It has been twenty-seven long years since the last sunrise. For nearly three decades, vampires have waged war against humanity; building their eternal empire even as they tear down our own. Now, only a few tiny sparks of light endure in a sea of darkness. Gabriel de León is a silversaint: a member of a holy brotherhood dedicated to defending realm and church from the creatures of the night. But even the Silver Order could not stem the tide once daylight failed us, and now, only Gabriel remains. Imprisoned by the very monsters he vowed to destroy, the last silversaint is forced to tell his story. A story of legendary battles and forbidden love, of faith lost and friendships won, of the Wars of the Blood and the Forever King and the quest for humanity's last remaining hope: The Holy Grail.

Tao Te Ching - Lao Tzu 2014-01-08

A fundamental book of the Taoist, the *Tao Te Ching* is regarded as a revelation in its own right. It provides a wealth of wisdom and insights for those seeking a better understanding of themselves. Over time, many changes have been made to the original Chinese text. Researcher Patrick M. Byrne has produced a translation that is accurate and easy to understand, while capturing the pattern and harmony of the original.
