Hoover's Handbook of American Business - Hoovers Inc 2006-12

Cable Cowboy - Mark Robichaux 2002-10-31

An inside look at a cable titan and his industry John Malone, hailed as one of the great unsung heroes of our age by some and reviled by others as a ruthless robber baron, is revealed as a bit of both in *Cable Cowboy*. For more than twenty-five years, Malone has dominated the cable television industry, shaping the world of entertainment and communications, first with his cable company TCI and later with Liberty Media. Written with Malone's unprecedented cooperation, the engaging narrative brings this controversial capitalist and businessman to life. *Cable Cowboy* is at once a penetrating portrait of Malone's complex persona, and a captivating history of the cable TV industry. Told in a lively style with exclusive details, the book shows how an unassuming copper strand started as a backwoods antenna service and became the digital nervous system of the U.S., an evolution that gave U.S. consumers the fastest route to the Internet. *Cable Cowboy* reveals the forces that propelled this pioneer to such great heights, and captures the immovable conviction and quicksilver mind that have defined John Malone throughout his career.

Hoover's Handbook of American Business 2008 - Hoovers Inc 2007-12

Financial Restatements - Orice Williams 2007-12

In 2002, it was reported that the number of restatement announcements due to financial reporting fraud &/or accounting errors grew significantly between Jan. 1997 & June 2002, negatively impacting the restating companies' market capitalization by billions of dollars. The author was asked to update key aspects of the 2002 report. This report discusses: (1) the number of, reasons for, & other trends in restatements; (2) the impact of restatement announcements on the restating companies' stock costs & what is known about investors' confidence in U.S. capital markets; & (3) regulatory enforcement actions involving accounting- & audit-related issues. Includes recommendations. Charts & tables.

Teach Yourself the Internet in 24 Hours - Ned Snell 2002

The quick, easy, and fun way to learn how to use the Internet for work, home, or school.

Olympic Television - Andrew C. Billings 2017-07-31

As the Olympic spectacle grows, broadcast coverage becomes bigger, more complex, and more sophisticated. Part sporting event, part reality show, and part global festival, the Olympics can be seen as both intensely nationalistic and a celebration of a shared sense of international community. This book sheds new light on how the Olympic experience has been shaped by television and expanded across multiple platforms and formats. Combining a multitude of approaches ranging from interviews to content analyses to audience surveys, the book explores the production, influence, and significance of Olympic media in contemporary society. Built on a central case study of NBC's coverage of the Rio Games in 2016, which is then placed within 20 years of content analyses, the book focuses on the entire Olympic television process from production to content to effects. Touching on key themes such as race, gender, history, consumerism, identity, nationalism, and storytelling, *Olympic Television: Broadcasting the Biggest Show on Earth* is fascinating reading for any student or scholar with an interest in sport, media, and the global impact of mega-events.

My TV for Seniors - Michael Miller 2019-03-28

Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key data.

Emergency! - Richard Yokley 2007-05

The hit television show that helped revolutionize emergency medical care in the streets is still a favorite with fans all over the world. When the show premiered in 1972 fire department paramedic services were being piloted in just a handful of cities. By 1977 over 50% of the US population was within 10 minutes of a paramedic unit. The paramedics of Fire Station 51 showed viewers critical techniques such as CPR that saved lives both on screen and off. *Emergency! Behind the Scene* contains real life tales from the production crew - from medical and fire technical advisors, cast members and writer, to paramedics and fire fighters. Learn more about Johnny Gage, Roy DeSoto, Dixie McCall and the rest of the Station 51 Rampart General Hospital staff. If you are a fire fighter, paramedic or simply a fan you will enjoy this in depth look behind the scenes.

This book, first published in 1992, is a unique repository of language use from 1941-91.

Wealth Creation in the World's Largest Mergers and Acquisitions - B. Rajesh Kumar 2018-11-29

This book highlights research-based case studies in order to analyze the wealth created in the world's largest mergers and acquisitions (M&A). This book encourages cross fertilization in theory building and applied research by examining the links between M&A and wealth creation. Each chapter covers a specific case and offers a focused clinical examination of the entire lifecycle of M&A for each mega deal, exploring all aspects of the process. The success of M&A are analyzed through two main research approaches: event studies and financial performance analyses. The event studies examine the abnormal returns to the

shareholders in the period surrounding the merger announcement. The financial performance studies examine the reported financial results of acquirers before and after the acquisition to see whether financial performance has improved after merger. The relation between method of payment, premium paid and stock returns are examined. The chapters also discuss synergies of the deal-cost and revenue synergies. Mergers and acquisitions represent a major force in modern financial and economic environment. Whether in times of boom or bust, M&As have emerged as a compelling strategy for growth. The biggest companies of modern day have all taken form through a series of restructuring activities like multiple mergers. Acquisitions continue to remain as the quickest route companies take to operate in new markets and to add new capabilities and resources. The cases covered in this book highlights high profile M&As and focuses on the wealth creation for shareholders of acquirer and target firms as a financial assessment of the merger's success. The book should be useful for finance professionals, corporate planners, strategists, and managers.

European Competition Law - Lennart Ritter 2005-01-01

No branch of European law has been as subject to expansion and change as competition law. Between the enormous forces of globalisation, technology, and EU enlargement, the Commission and national competition authorities have been compelled to keep rethinking their practices and procedures and issuing new regulations. Now, in the wake of its highly acclaimed predecessors, the new Third Edition of *European*

Competition Law offers the practitioner everything required to act in accordance with the latest developments in the field. Along with the thorough guide to continuing practice that its readers have come to expect, European Competition Law in its Third Edition fully covers such areas as the following: the Commission's new assessment of distribution practices and vertical restraints, in particular the block exemptions granted by Regulations 2790/1999 and 1400/2002; procedure before national competition authorities and national courts for enforcement of European rules under Regulation 1/2003; the new Merger Control Regulation in force as of 1 May 2004; the new Transfer of Technology Regulation; and, the increased fines for hard-core cartel practices or abuse of dominant market position. The Third Edition is remarkable in that it actually previews the substantive and procedural rules that will be coming into effect during 2004 and subsequent years. And, like prior editions, the work has no peer in its coverage of past administrative practice and the case law of the Court of Justice. All in all, European Competition Law, Third Edition, will be of immeasurable value to practitioners who need to keep informed about how EC competition laws are applied, so they can continue to render practical, meaningful advice to firms whose agreements, transactions and conduct in the marketplace are governed by competition rules.

STERN'S GUIDE TO EUROPEAN RIVERBOATS AND HOTEL BARGES - Steven B. Stern 2013-04-09
"Steven Stern has an encyclopedic knowledge of the cruise world in general and riverboat-and barge-cruising in particular, with a great understanding of the different lines and their products. This guide is a must for both new and veteran riverboat and barge travelers." -World of Cruising Magazine "Finally someone has written a definitive travel guide covering an ever growing and popular, yet seldom covered, segment of the cruise industry. This is compulsory reading for anyone interested in a riverboat or barge cruise." -Official Steamship Guide International Steven B. Stern is the ultimate authority on all forms of cruising. Having written 24 annual editions of the universally acclaimed "Stern's Guide to the Cruise Vacation" he has now produced a guide devoted exclusively to the riverboat and barge experience. The popularity of riverboat explorations throughout Europe has grown expeditiously over the past few years and has become the newest "hot" segment of the cruise market. Leisurely sojourns on hotel barges on the waterways of France and other European countries also are becoming popular among seasoned cruisers seeking a more intimate and tranquil vacation. This comprehensive guide lists descriptive information for every European riverboat and hotel barge, including vital statistics, stateroom size, descriptions of public areas, dining and shipboard facilities, and itineraries. Each vessel is evaluated as to comfort and luxury. Hundreds of photos of the vessels exterior and interiors are included, as well as sample menus and daily programs. Several chapters are devoted to descriptions of the cities and villages visited by riverboats, and the regions and villages visited by hotel barges, along with descriptive photographs.

Personalization Techniques and Recommender Systems - Matthew Y. Ma 2008

The phenomenal growth of the Internet has resulted in huge amounts of online information, a situation that is overwhelming to the end users. To overcome this problem, personalization technologies have been extensively employed. The book is the first of its kind, representing research efforts in the diversity of personalization and recommendation techniques. These include user modeling, content, collaborative, hybrid and knowledge-based recommender systems. It presents theoretic research in the context of various applications from mobile information access, marketing and sales and web services, to library and personalized TV recommendation systems. This volume will serve as a basis to researchers who wish to learn more in the field of recommender systems, and also to those intending to deploy advanced personalization techniques in their systems. Sample Chapter(s). Personalization-Privacy Tradeoffs in Adaptive Information Access (865 KB). Contents: User Modeling and Profiling: Personalization-Privacy Tradeoffs in Adaptive Information Access (B Smyth); A Deep Evaluation of Two Cognitive User Models for Personalized Search (F Gaspiretti & A Micarelli); Unobtrusive User Modeling for Adaptive Hypermedia (H J Holz et al.); User Modelling Sharing for Adaptive e-Learning and Intelligent Help (K Kabassi et al.); Collaborative Filtering: Experimental Analysis of Multiattribute Utility Collaborative Filtering on a Synthetic Data Set (N Manouselis & C Costopoulou); Efficient Collaborative Filtering in Content-Addressable Spaces (S Berkovsky et al.); Identifying and Analyzing User Model Information from Collaborative Filtering Datasets (J Griffith et al.); Content-Based Systems, Hybrid Systems and Machine Learning Methods: Personalization Strategies and Semantic Reasoning: Working in Tandem in Advanced Recommender Systems (Y Blanco-Fernandez et al.); Content Classification and Recommendation Techniques for Viewing Electronic Programming Guide on a Portable Device (J Zhu et al.); User Acceptance of Knowledge-Based Recommenders (A Felfernig et al.); Using Restricted Random Walks for Library Recommendations and Knowledge Space Exploration (M Franke & A Geyer-Schulz); An Experimental Study of Feature Selection Methods for Text Classification (G Uchyigit & K Clark). Readership: Researchers and graduate students in machine learning and databases/information science.

The Trouble with Nowadays - Cleveland Amory 1981-05-12

A Crusty Curmudgeon and Charter Member of The Society to Put Things Back The Way They Were, bestselling author Cleveland Amory offers the last word on everything that has made a shambles out of modern life. Servants: "I have often wondered where all the good, old-fashioned servants have gone. They must be somewhere, they couldn't have all died." The Government: "The only difference between the Republicans and the Democrats is that the Republicans are socialists and the Democrats are communists." Women: "The day I put 'Ms.' on a letter of mine, it'll be either to someone else's mistress or the Bureau of Msing Persons." Children: "Remember, children are, no matter how much we detest them, the you and me of tomorrow." Foreign Affairs: "Every damn president since I can remember has been so in love with foreign policy that they're just like a schoolboy with a new girl." Religion: "Nowadays Sunday is just one more excuse to do whatever you damn please."

Sports on Television - Alvin H. Marill 2008-12-30

Television has always augmented its dramatic and variety programming with sports. After covering wrestling and boxing matches for several years, ABC added the hugely popular Roller Derby between 1949 and 1951, and later, college and pro football. Today, there is a multitude of pay and cable networks devoted exclusively to baseball, football, golf, hockey, tennis, ice-skating, and auto racing. Rather than focusing on live sports broadcasts, however, this book chronicles the history of sports-themed comedies and dramas, to see how our national fictions have affected our authentic sports experiences, and vice versa. Sports dominate the television landscape today, and still the demand for more is so great that pay and cable networks continue to find funding and success, even when devoted exclusively to a single sport. But this is really nothing new: television has always augmented its dramatic and variety programming with sports. Live sports have had a tremendous impact on what we see on television, and on how we see it. Rather than

focusing on live sports broadcasts, however, this book takes a critical look at sports-themed comedies and dramas, to see how our authentic sports affect our national fictions as well. From the character studies that supplement Olympic coverage, to nightly highlight reels, to reality programming on ESPN, sports both echo and help shape the myths that pervade our culture. *Sports on Television* covers the changing relationship between live sports broadcasts and television dramas, as well as the important technological developments and cultural shifts that have changed the way we view the reality of sports. In 1949, after covering wrestling and boxing matches for several years, ABC added the hugely popular Roller Derby, and later moved on to college and pro football, where humble beginnings have since developed into a national obsession. In the early sixties Jimmy Stewart played a disgraced baseball player in *Flashing Spikes*-which was also one of the rare ventures into television for veteran director John Ford. On HBO the Yankees have been the subject of both *61** - about Roger Maris's quest to top Babe Ruth's home run record - and *The*

Bronx Is Burning, about the 1977 Yankees team. And there have been sports-themed TV sitcoms as well, such as *Sports Night*, Aaron Sorkin's critically lauded but commercially unsuccessful project, which preceded his work on *The West Wing*. Meanwhile *American Gladiators*—a strange blend of canned programming and authentic athletic endeavor that in effect puts television audiences in an arena with what amounts to professional athletes—is quickly becoming one of the most popular shows on primetime. Here, Marill gives due time to all of these unique projects.

The Official Price Guide to Movie/TV Soundtracks and Original Cast Albums - Jerry Osborne 1991
In this first-of-a-kind reference, more than 8,000 Broadway and film soundtracks are listed alphabetically, with complete current pricing for each. Also includes a composer/conductor index, cast index, and valuable tips on how to grade records, sell collections, find rare records, and much more. 8-page color insert.

The Hollywood Reporter - 2006
