Complete Advanced Student's Book without Answers with CD-ROM - Guy Brook-Hart 2014-03-11

Complete Advanced provides thorough preparation for the revised 2015 Cambridge English: Advanced (CAE) exam. The Student's Book without answers fully prepares students to tackle each part of every exam paper. Unique grammar and vocabulary exercises train students to avoid common mistakes. Exam information and advice boxes explain the requirements of the exam. Vocabulary and Grammar reviews, every two units, track progress. Speaking and Writing references focus on key skills required for the exam. The CD-ROM supports mixed ability classes focusing on students' own particular areas of difficulty. Class Audio CDs, available separately, contain the recordings for the listening exercises. A full practice test is available online for teachers to access.

English for Everyone: English Grammar Guide - DK 2016-12-13

We may all speak the same language, but getting to grips with grammar is the ultimate challenge. You could be puzzled by prepositions, confused by comparatives, or muddled over modals. Thankfully, this complete visual aid to everything in the English language sets you straight with a clear and concise format for easy understanding. The rules of English grammar are beautifully presented with eye-catching illustrations, step-by-step graphics, and straightforward explanations to help you learn. Suitable for English language learners at all levels, including experienced English speakers looking for a recap of key language points, **English for Everyone: English Grammar Guide** covers basic, intermediate, and advanced grammar. There is no stone left unturned when it comes to the English language. All kinds of problems are solved, including tenses, verbs, adverbs, clauses, superlatives, and questions. You are encouraged to spot patterns and sequences in language to see the similarities and develop greater understanding. After an intensive review, test yourself with a range of speaking, reading, and writing exercises to see how far you have come. This essential grammar e-guide is part of DK's English for Everyone series, an exciting and educational self-study course to build up confidence and fluency. Whether you want to improve your grammar for school, study, exams

(including TOEFL and IELTS), work, or travel, this is the perfect reading companion. Series Overview: English for Everyone series teaches all levels of English, from beginner to advanced, to speakers of English as a second language. Innovative visual learning methods introduce key language skills, grammar, and vocabulary, which are reinforced with a variety of speaking, reading, and writing exercises to make the English language easier to understand and learn. Determinants of Grammatical Variation in English - Günter Rohdenburg 2003-01-01

What factors influence the choice between alternative grammatical structures such as the following: a lit / a lighted cigarette, more full / fuller of convincing arguments, the main thesis of the book / the book's main thesis, take hostage a group of 15 holiday makers / take a group of 15 holidaymakers hostage, conceding that the argument is convincing / conceding the argument to be convincing? This is the central issue explored in this volume, which contains a unique selection of innovative in-depth empirical studies written in a broadly functional framework. The factors investigated include the following: phonological influences (such as the principle of rhythmic alternation and optimal syllable structure), frequency, pervasive semantic and pragmatic aspects (including iconicity, markedness, grammaticalization and typological tendencies), information structure, processing complexity and horror aequi (the avoidance of identity effects).

Grammar of the Latin Language - Ethan Allen Andrews 1878

Formulaic language - Aleksandar Trklja

The notion of formulaicity has received increasing attention in disciplines and areas as diverse as linguistics, literary studies, art theory and art history. In recent years, linguistic studies of formulaicity have been flourishing and the very notion of formulaicity has been approached from various methodological and theoretical perspectives and with various purposes in mind. The linguistic approach to formulaicity is still in a state of rapid development and the objective of the current volume is to present the current explorations in the field. Papers collected in the volume make numerous suggestions for further development of the field and they are arranged into three complementary parts. The first part, with three chapters, presents new theoretical and methodological insights as well as their practical application in the development of custom-designed software tools for identification and exploration of formulaic language in texts. Two papers in the second part explore formulaic language in the context of language learning. Finally, the third part, with three chapters, showcases descriptive research on formulaic language conducted primarily from the perspectives of corpus linguistics and translation studies. The volume will be of interest to anyone involved in the study of formulaic language either from a theoretical or a practical perspective.

Concise History of the Language Sciences - E.F.K. Koerner 2014-06-28

This book presents in a single volume a comprehensive history of the language sciences, from ancient times through to the twentieth century. While there has been a concentration on those traditions that have the greatest international relevance, a particular effort has been made to go beyond traditional Eurocentric accounts, and to cover a broad geographical spread. For the twentieth century a section has been devoted to the various trends, schools, and theoretical framework developed in Europe, North America and Australasia over the past seventy years. There has also been a concentration on those approaches in linguistic theory which can be expected to have some direct relevance to work being done at the beginning of the twenty-first century or those of which a knowledge is needed for the full understanding of the history of linguistic sciences through the last half of this century. The last section of this book reviews the applications of some of these findings. Based on the foundation provided by the award winning Encyclopedia of Language and Linguistics this volume provides an excellent focal point of reference for anyone interested in the history of the language sciences.

A Grammar of the Latin Language - Ethan Allen Andrews 1857

Complete IELTS Bands 6.5-7.5 Student's Book Without Answers with CD-ROM - Guy Brook-Hart 2013-02-14

Essentials of English Grammar - For the Use of Schools - William Whitney 2010-05

This rare book contains a detailed guide to the essentials of English grammar to be taught as part of a school

curriculum. The intention of this text is to put before the learner those matters which will best serve them as preparation for further and deeper knowledge of their own language, for the study of other languages, and for that of linguistics in general. A perfect handbook for anyone interested in the grammar of English, this rare text is a must-have for discerning students and constitutes a great addition to any collection of antiquarian linguistic books. Chapters contained within include: Language and Grammar; The Sentence: The Parts of Speech; Inflection; Derivation and Composition; Nouns; Pronouns; Adjectives; Verbs; Adverbs; Prepositions; Syntax: The Simple Sentence; et cetera. This scarce book was originally published in 1879 and is proudly republished here with a new introduction to the subject.

Complexity, Accuracy and Fluency in Learner Corpus Research - Agnieszka Leńko-Szymańska 2022-12-15

This volume illustrates the high potential of learner corpus investigations for research into the CAF triad by presenting eleven original learner corpus-based studies which are set within solid theoretical frameworks, examine learner corpora with state-of-the-art analytical techniques and yield highly interesting findings. The volume's major strength lies in the range of issues it undertakes and in its interdisciplinary thematic novelty. The chapters collectively address all three dimensions of L2 performance related to different linguistic subsystems (i.e. lexical, phraseological and grammatical complexity and accuracy, along with fluency) as well as the interactions among these constructs. The studies are based on data drawn from carefully compiled learner corpora which are analysed with the help of diverse corpus-based methods. The theoretical discussions and the empirical results shall contribute to the advancement of the fields of SLA and writing and speech research and shall inspire further investigations in the area of the CAF triad.

Legal English Communication Skills - Mia B. Ingels 2006

Cambridge Advanced Learner's Dictionary KLETT VERSION - Kate Woodford 2003-02-13

Verbals - NOTES - Verbals

Analysing English as a Lingua Franca - Alessia Cogo 2012-03-08

There have been considerable recent demographic shifts in the use of English worldwide. English is now undoubtedly (and particularly) an international lingua franca, a lingua mundi. The sociolinguistic reality of English language use worldwide, and its implications, continue to be hotly contested. This is one of the first books to provide a detailed and comprehensive account of recent empirical findings in the field of English as a lingua franca (ELF). Cogo and Dewey analyze and interpret their own large corpus of naturally occurring spoken interactions and focus on identifying innovative developments in the pragmatics and lexicogrammar of speakers engaged in ELF talk. Cogo and Dewey's work makes a substantial contribution to the emerging field of empirical ELF studies. As well as this practical focus, this book looks at both pragmatic and lexicogrammatical issues and highlights their interrelationship. In showcasing the underlying processes involved in the emergence of innovative patterns of language use, this book will be of great interest to

advanced students and academics working in applied linguistics, ELF, sociolinguistics, and corpus linguistics.

The popular educator - Popular educator 1860

A Welsh Grammar for Schools, Based on the Principles and Requirements of the Grammatical Society - Edward Anwyl 1914

The TKT Course KAL Module - David Albery 2012-01-19

This is 'the' teacher training course for teachers and trainee teachers preparing for the Cambridge ESOL TKT 'Knowledge About Language' (KAL) Module. The TKT Course KAL Module is a comprehensive self-study course with a complete KAL Practice Test and full answer key, making it perfect for all candidates preparing for TKT KAL on their own or with the support of a tutor. Speech and Computer - Alexey Karpov 2020-10-04

This book constitutes the proceedings of the 22nd International Conference on Speech and Computer, SPECOM 2020, held in St. Petersburg, Russia, in October 2020. The 65 papers presented were carefully reviewed and selected from 160 submissions. The papers present current research in the area of computer speech processing including speech science, speech technology, natural language processing, human-computer interaction, language identification, multimedia processing, human-machine interaction, deep learning for audio processing, computational paralinguistics, affective computing, speech and language resources, speech translation systems, text mining and sentiment analysis, voice assistants, etc. Due to the Corona pandemic SPECOM 2020 was held as a virtual event.

A Grammar of the Latin Language - Ethan Allen Andrews 1861

Language Contact and the Future of English - Ian Mackenzie 2017-12-15

This book reflects on the future of the English language as used by native speakers, speakers of nativized New Englishes, and users of English as a lingua franca (ELF). The volume begins by outlining the current position of English in the world and accounts for the differences among native and nativized varieties and ELF usages. It offers a historical perspective on the impact of language contact on English and discusses whether the lexicogrammatical features of New Englishes and ELF are shaped by imperfect learning or deliberate language change. The book also considers the consequences of writing in a second language and questions the extent to which non-native English-speaking academics and researchers should be required to conform to 'Anglo' patterns of text organization and 'English Academic Discourse.' The book then examines the converse effect of English on other languages through bilingualism and translation. This volume is essential reading for students and scholars in English language, sociolinguistics, language acquisition, and language policy.

Middle Egyptian - James P. Allen 2010-04-15

Middle Egyptian introduces the reader to the writing system of ancient Egypt and the language of hieroglyphic texts. It contains twenty-six lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of twenty-five essays on the most important aspects of ancient Egyptian history, society, religion and literature. The combination of grammar lessons and cultural essays allows users to not only read hieroglyphic texts but also to understand them, providing readers with the foundation to understand

texts on monuments and to read great works of ancient Egyptian literature in the original text. This second edition contains revised exercises and essays, providing an up to date account of current research and discoveries. New illustrations enhance discussions and examples. These additions combine with the previous edition to create a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields.

Functional Semantics - Peter Harder 1996-01-01

TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state-of-the-art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting-edge research based on solid empirical data on language in its various manifestations, including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes, which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing.
