Assignment in Utopia - Eugene Lyons 1937

This is a story of belief, disillusionment and atonement. Long identified with leftist causes, the journalist Eugene Lyons was by background and sentiment predisposed to early support of the Russian Revolution. A "friendly correspondent," he was one of a coterie of foreign journalists permitted into the

Soviet Union during the Stalinist era because their desire to serve the revolution was thought to outweigh their desire to serve the truth. Lyons first went to the Soviet Union in 1927, and spent six years there. He was there as Stalin consolidated his power, through collectivization and its consequences, as the cultural and technical intelligentsia succumbed to the secret police, and as the mechanisms of terror were honed. As Ellen Frankel Paul notes in her major new introduction to this edition, "It was this murderous reality that Stalin's censors worked so assiduously to camouflage, corralling foreign correspondents as their often willing allies." Lyons was one of those allies. Assignment in "Utopia" describes why he refused to see the obvious, the forces that kept him from writing the truth, and the tortuous path he traveled in liberating himself. His story helps us understand how so many who were in a position to know were so silent for so long. In addition, it is a document, by an on-the-scene journalist, of major events in the critical period of the first Five-Year Plan. As Ellen Frankel Paul notes in her major new introduction to this new edition, Assignment in "Utopia" is particularly timely. The system it dissects in such devastating detail is in the process of being rejected throughout Eastern Europe and is under challenge in the Soviet Union itself. The book lends insight into the "political pilgrim" phenomenon described by Paul Hollander, in which visitors celebrate terrorist regimes, seemingly oblivious to their destructive force. The book is valuable for those interested in the Stalinist era in the Soviet Union, those interested in radical regimes and political change, as well as those interested in better understanding current events in Europe. It will also be useful for the tough questions it poses about journalistic ethics.

Managing Major Hazards - ANDREW. HOPKINS 2021-03-31

Many organisations live with hazards that have the potential to cause disaster. This was the case at Moura underground coal mine in Central Queensland, where 11 men died in an explosion in 1994. Andrew Hopkins shows that the explosion was the result of organisational failure, and uses it to draw lessons about managing major hazards. He argues that there are always tell-tale signs of impending disaster, and that organisations need to find ways of gathering this information and reacting to it appropriately. The Moura story also demonstrates the need to move responsibility for risk management up the corporate hierarchy to ensure that it is not overshadowed by production pressures. Otherwise disasters will repeat themselves in horrifyingly similar ways. *Managing Major Hazards* is a gripping story and essential reading for occupational health and safety professionals, executives working in hazardous industries, policy makers, and readers interested in risk management and disaster studies.

Plain Roots - Becki Willis 2018-11

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Sit back, relax and get ready to savour a slice of some delectably fantastical cake! Netgalley reviews: "Delightful light confection that goes around the globe with short fantasy stories. From Argentina to somewhere in the air Hitting Germany, France, Egypt, Korea, China, India in-between. Little quick tastes of a dot of sweet, sour, spicy, hot & cold tidbits to make you smile or think. Most poignant I thought was the German & the rabbit but they were all tasty fare." "One of the reasons I love Gabriel Garcia Marquez is because of the magic realism. These 8 short stories take place in different countries and while

dealing with very serious subjects(disability,addiction,loss, loneliness...)each of them has a touch of magic realism that make it very easy to get immersed in them." "This was such a magical book I thoroughly enjoyed every second of reading it. It was well written with such brilliant imagery. A great read." "I'll be honest straight away and say I have a hate/hate relationship with short stories and all my previous reviews will attest to that. No matter how many I read, I just don't enjoy them. They're not for me and never seem to grab me or keep me interested. But I think I've finally found the one collection that has shown me what a good short story can be. They're whimsical and magical and almost fairytale like but steeped in realism with an important life lesson at the end, but by approaching it in this way, they don't become corny or preachy or over the top."

Hidden Agenda - Anna Porter 2018-01-01

In this series opener by the author of *The Appraisal*, a Toronto journalist and

amateur sleuth tackles a case involving murder and a missing manuscript. So here's the question: You're about to kill yourself. How vital is it that you get your teeth cleaned? That's the question that keeps bugging Judith Hayes, though admittedly, she keeps returning to it: It's so much easier to deal with than the real question of why her friend George Harris would have killed himself at all. But the cops don't care about the questions. Harris's company was drowning in debt, they point out. And several people saw him jump, right in front of the moving train. It was suicide, they insist, awfully sad, onto the next. There's a devious plot here, and a delicious swirl of romance, but the real joy is Judith—feisty, funny, tough as a bulldog, and everything you want in a mystery-novel heroine. Praise for *Hidden Agenda* "Lively . . . mysterious deaths and plenty of insider publishing stuff along the way." —The New York Times "Superior fiction. Crisp prose, inventive plot, convincing characters . . . A major new talent." —San Diego Union "Suspenseful . . . Offbeat . . . Believable and entertaining."
