**The Language of Flowers** - Beverly Seaton 2012-10-10

The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America. At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures. Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance. The language differs from book to book, country to country. To place the language of flowers in social and literary perspective, the author examines the nineteenth-century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism. She also discusses the sentimental flower book, a genre especially intended for female readers. Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles. This book will appeal not only to scholars in Victorian studies and women's studies but also to art historians, book collectors, museum curators, historians of horticulture, and anyone interested in nineteenth-century popular culture.

In this wonderfully unusual work, Kate Greenaway provides an enchantingly illustrated glossary of 'the language of flowers'. It shares the tradition, sparked by renewed Victorian era interest in botany and exotic plants – of using flowers as a means of covert communication. A fascinating insight into a bygone era, when the gift of a Tamsy was a declaration of war, and a Garden Daisy meant 'I share your sentiments', this text is a real treasure. 'The Language of Flowers' contains eighty-two beautifully illustrated colour pages, and was originally published in 1884. Kate Greenaway (1846 – 1901), was a children's book illustrator and writer, and remains one of the most popular illustrators of all time. **Flowers and Their Meanings** - Karen Azoulay 2015-08

Floriography, the language of flowers, is a form of communication that was popular in Victorian times. Botanical species were assigned sentimental meanings that were collected in exhaustive dictionaries, the blooms' symbolism varying in tone from the sweet (Ivy Geranium conveying the gallant request "Your hand for the next dance?") to the melodramatic (Viburnum declaring "I die if neglected") and the downright combative (a dried white rose indicating "death before dishonor"). A thoughtfully curated bouquet could thus deliver a layered poetic memo, which the recipient would be required to decipher. An added complication, however, was the possibility of mistranslation introduced by widespread inconsistencies between reference works.
