The Marwari Heritage takes the reader on a voyage of discovery of the Marwaris who migrated from Rajputana, Haryana, Malwa and its adjoining regions to other parts of India. They braved trials and tribulations in unchartered territories, supporting others of their community, never losing faith in their ability to succeed, and focused on their goal, they became the uncrowned kings, first of trade and business, and later of industry. They joined the freedom struggle with a true spirit of patriotism, philanthropy and active political involvement. Many courted imprisonment and even achieved martyrdom. Today, the roots of the Marwari community are deeply enmeshed in the social, cultural and economic fabric of India. Their innate psyche of giving back to society has seen them donate generously to education, empowerment of women and vocational training leading to employment. Shedding some traditions and retaining many, they have stepped into the modern age,

achieving an enviable cultural mix. At the helm of most successful entrepreneurial enterprises, their focus on innovation and technological advancement has resulted in governments of several countries seeking their advice on economic growth. Of the many who have left an indelible mark on the history, socio-political and economic foundations of the country, this book is enriched with rich cameos of some of these 'greats' and the reader derives insights into numerous newly discovered and hitherto unrecorded facts. The younger generation of Marwaris continue to dream big and build on the foundations their forefathers planted. They continue to grow from strength to strength, marching towards new horizons. The plethora of welfare schemes and trusts responsible for development of the nation's needy continue to be monitored with precision. Meticulously researched over five years and richly illustrated with over 100 rare, coloured photographs, paintings, and

Alignment and Ergativity in New Indo-Aryan Languages -

The volume investigates the different alignment patterns in Indo-Aryan and shows that the variation of alignment patterns in Indo-Aryan goes beyond the opposition between accusativity and ergativity. The book includes a thorough discussion of the concepts and terminology relating to alignment patterns. The study draws extensively on new language data from Indo-Aryan. It includes discussions of examples taken from Hindi, Sanskrit, Apabhramsa, Asamiya, Bangla, Oriya, the Bihari languages, Nepali, Kashmiri, Sindhi, Siraiki, Poguli, Gujarati, Punjabi, Marwari, Harauti, the Hindi varieties, and Shina. The volume offers a comprehensive overview of various alignment patterns in Indo-Aryan based on a wide range of data. By focusing on lesser known Indo-Aryan languages, the study questions the central position of Hindi-Urdu in the research on ergativity. Each language is treated in its own right, with a focus on language-specific data and analyses, rather than

relying on a notional format that starts with pre-established linguistic concepts. In accordance with this methodology, much attention is paid to "indirect" connections between ergative constructions and other syntactic and semantic patterns in the various languages.

Folk Theatre of Rajasthan - Dr. Cecil Thomas Ault Jr.

2017-02-09

Tom Ault has written a theatre ethnography that brings Rajasthan's folk tradition of khyal to readers in both descriptions and translations of the plays, based on his many periods of research and

hanging out with khyal players and aficionados. A performance genre probably stemming from the soliloquies in poetic Pingal and Dingal of Rajasthan's bards, known as Charans, these khyals offer folk renditions of rule and misrule, contemporary issues and past heroics, and the romance of Rajput desert kingdoms. Ault has been engaged with these shows there, and as an American theatre professor he knows his subject well.

Everyone will find something to enjoy in Ault's compendium of khyal, and will probably be tempted to search out a performance of this disappearing folk art at a Rajasthanian cattle fair or on a moonlight night in a desert village with stars overhead. *Government Gazette* - 1917

International Encyclopedia of Linguistics - William J.

Frawley 2003-05-01

The International Encyclopedia of Linguistics, 2nd Edition encompasses the full range of the contemporary field of linguistics, including historical,

comparative, formal, mathematical, functional, and philosophical linguistics with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines. Areas of intersection with the social and behavioral sciences--ethnolinguistics, sociolinguistics, psycholinguistics, and behavioral linguistics--receive major coverage, along with interdisciplinary work in language and literature, mathematical linguistics, computational linguistics, and applied linguistics. Longer entries in the International Encyclopedia of Linguistics, ranging up to four thousand words, survey the major fields of study--for example, anthropological linguistics, history of linguistics, semantics, and phonetics. Shorter entries treat specific topics within these fields, such as code switching, sound symbolism, and syntactic features. Other short entries define and discuss technical terms used within the

various subfields or provide sketches of the careers of important scholars in the history of linguistics, such as Leonard Bloomfield, Roman Jakobson, and Edward Sapir. A major portion of the work is its extensive coverage of languages and language families. From those as familiar as English, Japanese, and the Romance languages to Hittite, Yoruba, and Nahuatl, all corners of the world receive treatment. Languages that are the subject of independent entries are analyzed in terms of their phonology, grammatical features, syntax, and writing systems. Lists attached to each article on a language group or family enumerate all languages, extinct or still spoken, within that group and provide detailed information on the number of known speakers, geographical range, and degree of intelligibility with other languages in the group. In this way, virtually every known language receives coverage. For ease of reference and to aid research, the articles are alphabetically arranged, each

signed by the contributor, supported by up-to-date bibliographies, line drawings, maps, tables, and diagrams, and readily accessible via a system of cross-references and a detailed index and synoptic outline. Authoritative, comprehensive, and innovative, the 2nd edition of the International Encyclopedia of Linguistics will be an indispensable addition to personal, public, academic, and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study.

Horse Crazy - Sarah Maslin Nir

ONE OF USA TODAY'S "20 SUMMER BOOKS YOU WON'T WANT TO MISS" In the bestselling tradition of works by such authors as Susan Orlean and Mary Roach, a New York Times reporter and Pulitzer Prize finalist explores why so many people—including herself—are obsessed with horses. only means of transportation—and nearly two million horse owners. Acclaimed journalist and avid equestrian Sarah Maslin Nir is one of them; she began riding horses when she was just two years old and hasn't stopped since. *Horse Crazy* is a fascinating, funny, and moving love letter to these graceful animals and the people who—like her—are obsessed with them. It is also a coming-of-age story of Nir growing up an outsider within the world's most elite inner circles, and finding her true north in horses. Nir takes readers into the lesser-known corners of the riding world and profiles some of its most captivating figures. We meet Monty Roberts, the California trainer whose prowess earned him the nickname "the man who listens to horses," and his pet deer; George and Ann Blair, who at their riding academy on a tiny island in Manhattan's Harlem River seek to resurrect the erased legacy of the African American cowboy; and Francesca Kelly, whose love for an Indian nobleman shaped her

life's mission: to protect an endangered Indian breed of horse and bring them to America. Woven into these compelling character studies, Nir shares her own moving personal narrative. She details her father's harrowing tale of surviving the Holocaust, and describes an enchanted but deeply lonely upbringing in Manhattan, where horses became her family. She found them even in the middle of the city, in a stable disguised in an old townhouse and in Central Park, when she chased down truants as an auxiliary mounted patrol officer. And she speaks candidly of how horses have helped her overcome heartbreak and loss. Infused with heart and wit, and with each chapter named after a horse Nir has loved, *Horse Crazy* is an unforgettable blend of beautifully written memoir and first-rate reporting. Out of the generation that grew up in the Great Depression and World War II, thousands of young Christians felt called by God to the ends of the earth. Pauline A. Brown, with her husband Ralph, and two other families, went to the Sindh Province in southern Pakistan in 1954 -- their goal, to share God's message love with Muslim Sindhis. This book is not just about North Americans abroad, but about a fellowship of ordinary people crossing cultural and linguistic barriers to take on the extraordinary challenge of establishing the Church in the Sindh desert. Jars of Clay is a story of laughter and tears, of danger and deliverance, of despair and hope, of victory and defeat. Above all, it is a story of perseverance in the face of great odds. The story of how the Church of Jesus Christ, small and fragile as it is, is taking root in the barren desert soil of Sindh in Pakistan, an Islamic Republic, is relevant more than ever in our post 9/11 world.

Multilingual Education in

South Asia - Lina Adinolfi
2022-04-01

Spanning scholarly contributions from India, Nepal, Bangladesh, Pakistan, and Sri Lanka, this edited volume seeks to capture and elucidate the distinct challenges, approaches and possible solutions associated with interpreting, adapting and applying language-in-education policies in a range of linguistically complex teaching and learning environments across South Asia. Centring on-the-ground perspectives of scholars, practitioners, pupils, parents and the larger community, the volume offers new insights into one of the most complex, populous, and diverse multilingual educational contexts in the world. Language-in-education policies and practices within this setting represent particularly high stakes issues, playing a pivotal role in determining access to literacy, thereby forming a critical pivot in the reproduction of educational inequality. The broad aim of the collection is thus to highlight the

pedagogical, practical, ideological and identity-related implications arising from current language-in-education policies in this region, with the aim of illustrating how systemic inequality is intertwined with such policies and their associated interpretations. Aimed at both academics and practitioners - whether researchers and students in the fields of education, linguistics, sociology, anthropology or South Asian studies, on the one hand, or language policy advisors, curriculum developers, teacher educators, teachers, and members of funding bodies, aid providers or NGOs, on the other - it is anticipated that the accounts in this volume will offer their readership opportunities to consider their wider implications and applications across other rich multilingual settings - be these local, regional, national or global.

Hindu Approach to Indian Economy - Bharat

Jhunjunwala 2005

"This book makes a path-breaking effort to build two bridges. The first bridge is between the Hindu tradition and modern economics. The author holds that the market system is consistent with the Hindu tradition. However, it should be actively controlled by the state in public good. The second bridge is between Hindu tradition and socialist politics. The socialist paradigm does not ensure that the socialist leadership will work in the interests of the people. The only motivation for it to do so would be spiritual growth. The socialist leaders may work for social good only when this spiritual objective is placed before them. The book calls for an end to this schism in the soul of India and builds a new

Hindi Nationalism (Tracts For The Times) - Alok Rai 2001

This tract looks at the politics of language in India through a study of the history of one language Hindi. It traces the tragic metamorphosis of this language over the last century, from a creative, dynamic, popular language to a dead, Sanskritised, dePersianised language manufactured by a self-serving upper caste North Indian elite, nurturing hegemonic ambitions. From being a symbol of collective imagination it became a signifier of narrow sectarianism and regional chauvinism. The tract shows how this transformation of the language was tied up with the politics of communalism and regionalism. Report - Calcutta University Commission 1919

The Female Voice in Sufi Ritual - Shemeem Burney Abbas 2010-06-04

The female voice plays a more central role in Sufi ritual, especially in the singing of devotional poetry, than in almost any other area of Muslim culture. Female singers perform sufiana-kalam, or mystical poetry, at Sufi shrines and in concerts, folk festivals, and domestic life, while male singers assume the female voice when singing the myths of heroines in qawwali and sufiana-kalam. Yet, despite the centrality of the female voice in

Sufi practice throughout South Asia and the Middle East, it has received little scholarly attention and is largely unknown in the West. This book presents the first in-depth study of the female voice in Sufi practice in the subcontinent of Pakistan and India. Shemeem Burney Abbas investigates the rituals at the Sufi shrines and looks at women's participation in them, as well as male performers' use of the female voice. The strengths of the book are her use of interviews with both prominent and grassroots female and male musicians and her transliteration of audio- and videotaped performances. Through them, she draws vital connections between oral culture and the written Sufi poetry that the musicians sing for their audiences. This research clarifies why the female voice is so important in Sufi practice and underscores the many contributions of women to Sufism and its rituals.
