Selected Duets for Flute - Himie Voxman 1993-05 (Ensemble Collection). This classic series of duets for like instruments is recognizable to nearly everyone who has ever studied an instrument. The wealth of material supplements musical development and provides a rich experience for growing musicians. Duet playing is often a student's first form of ensemble experience - technique, tone quality, intonation and balance are introduced as students do one of the things they enjoy most - making music with a friend. And duet playing leads easily and naturally to competent

performance in larger ensembles. (Vol. 1 Easy to Medium, Vol. 2 Medium to Advanced)
Duetist Folio for Clarinet - HAL LEONARD CORP. 1989-03 (Ensemble Collection). These arrangements of easy- to medium-level duets by 18th- to 20th-century masters are great for instruction and for fun because the pieces are short and easy to master. With works by Mozart, Bartok, Boismortier, Kabalevsky, Couperin, Glazunov, Schumann, Shostakovitch, Purcell, and Bach, it's a survey of music history for young students.

The Woodwinds: Perform,
Understand, Teach - James Byo
2016-06-17

The Woodwinds: Perform, Understand, Teach provides comprehensive coverage about the woodwind family of musical instruments for prospective instrumental music teachers. What sets this book apart is its focus on how to teach the instruments. Preparing students in the how of teaching is the ultimate goal of the woodwind class and the ultimate goal of this book, which organizes information by its use in teaching beginning instrumentalists. In developing performance and understanding, pre-service teachers are positioned to learn to teach through performance—contrasted with an "old-school" belief that one must first spend much time tediously trying to understand

how things work before playing the instruments. The book is organized in three parts: Preliminaries, Teaching the Instruments, and Foundations. Chapters in Teaching the Instruments are organized by instrument (flute, clarinet, saxophone, oboe, bassoon) and, within each instrument, according to how an effective teacher might organize experiences for novice learners. Basic embouchure and air stream are covered first, followed by instrument assembly, then hands and holding. Embouchure coverage returns in greater depth, then articulation, and finally "the mechanism," which includes sections on the instruments of the family, transposition, range, special fingerings, tuning and intonation, and reeds. In Foundations, topics are situated in big picture contexts, calling attention to the broad applicability of information across instruments.
