**A History of Caricature and Grotesque in Literature and Art - Thomas Wright 1865**

**The Cambridge History of Travel Writing - Nandini Das 2019-01-24**

Bringing together original contributions from scholars across the world, this volume traces the history of travel writing from antiquity to the Internet age. It examines travel texts of several national or linguistic traditions, introducing readers to the global contexts of the genre. From wilderness to the urban, from Nigeria to the polar regions, from mountains to rivers and the desert,

this book explores some of the key places and physical features represented in travel writing. Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel writing to fiction, science, translation and tourism. Gender-based and ecocritical approaches are among those surveyed. Together, the thirty-seven chapters here underline the richness and complexity of this genre.

**Literature and Architecture in Early Modern England - Anne M. Myers 2013-01-01**

Works by William Camden, Henry Wotton, Ben

Jonson, Andrew Marvell, George Herbert, Anne Clifford, and John Evelyn, when considered as a group, are texts that overturn the engrained critical notion that a Protestant fear of idolatry sentenced the visual arts and architecture in England to a state of suspicion and neglect.

Understanding Fiction - Judith Roof 2005

An intelligent, relevant, and lively new introduction to fiction builds on the success of its parent text, Understanding Literature. With accessible discussions of historical and cultural contexts and critical approaches, biographical information, and a stimulating table of contents, Understanding Fiction offers instructors and students an innovative option in anthologies. Accompanied by the Understanding Literature CD-ROM and Web Site, Understanding Fiction enriches the reading experience, enhances critical thinking, and promotes mastery in writing about fiction. Well-balanced selections juxtapose canonical authors with new voices not often anthologized and focus particular attention on ethnically diverse writers. Complete coverage of formal elements ensures that students understand such basics as character analysis, setting, point of view, plot, and narration. Extensive writing guidance teaches students how to write critically about literature in general and about fiction in particular, and includes instruction on writing a research paper. Unique, integrated, and accessible treatment of critical approaches enriches the course with more

complex tools of literary study to help students develop insights and explore meaning in literature. A wealth of visual texts—including a color insert—enriches the study of literature with related photographs and works of art and provides lively new contexts in which students can view authors, artistic movements, and cultural developments. Chapter 17, "Fiction Across Media: Film," compares how stories are constructed in print and in film and includes a case study analysis of the print and film versions of Julio Cortazar's "Blow Up." Unique Chapter 18, "The Limits of Fiction: Autobiography" discusses how autobiography's combination of fact, memory, and opinion can fall between fiction and nonfiction writing. The chapter highlights such authors as Mark Twain, Jean Rhys, Carl Van Vechten, Chester Himes, Nicole Brossard, and W.S. Penn Chapter 19, "Writing Communities: The Beats," adapted from "The Beats" inter-genre chapter in the parent text, retains a short story by William S. Burroughs and adds selections from Diane di Prima and Jack Kerouac.

Anna Seward and the End of the Eighteenth Century - Claudia T. Kairoff 2011-11-22

Anna Seward and her career defy easy placement into the traditional periods of British literature. Raised to emulate the great poets John Milton and Alexander Pope, maturing in the Age of Sensibility, and publishing during the early Romantic era, Seward exemplifies the eighteenth-century transition from classical to Romantic.

Claudia Thomas Kairoff's excellent critical study offers fresh readings of Anna Seward's most important writings and firmly establishes the poet as a pivotal figure among late-century British writers. Reading Seward's writing alongside recent scholarship on gendered conceptions of the poetic career, patriotism, provincial culture, sensibility, and the sonnet revival, Kairoff carefully reconsiders Seward's poetry and critical prose.

Written as it was in the last decades of the eighteenth century, Seward's work does not comfortably fit into the dominant models of Enlightenment-era verse or the tropes that characterize Romantic poetry. Rather than seeing this as an obstacle for understanding Seward's writing within a particular literary style, Kairoff argues that this allows readers to see in Seward's works the eighteenth-century roots of Romantic-era poetry. Arguably the most prominent woman

poet of her lifetime, Seward's writings disappeared from popular and scholarly view shortly after her death. After nearly two hundred years of critical neglect, Seward is attracting renewed attention, and with this book Kairoff makes a strong and convincing case for including Anna Seward's remarkable literary achievements among the most important of the late eighteenth century. -- Paula R. Feldman, editor of *British Women Poets of the Romantic Era*

*Women's Writing in the British Atlantic World* - Kate Chedgzoy 2007-10-11

In this 2007 book, Kate Chedgzoy explores the ways in which women writers of the early modern British Atlantic world imagined, visited, created and haunted textual sites of memory. Asking how women's writing from all parts of the British Isles and Britain's Atlantic colonies employed the resources of memory to make sense of the changes that were refashioning that world, the book suggests that memory is itself the textual site where the domestic echoes of national crisis can most insistently be heard. Offering readings of the work of poets who contributed to the oral traditions of Wales, Scotland and Ireland, and analysing poetry, fiction and life-writings by well-known and less familiar writers such as Hester Pulter, Lucy Hutchinson and Aphra Behn, this book explores how women's writing of memory gave expression to the everyday, intimate consequences of the major geopolitical changes

that took place in the British Atlantic world in the seventeenth century.

The Myths That Made America - Heike Paul

2014-08-31

This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US-American identities today.

These myths include the myth of »discovery,« the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of the West, and the myth of the self-made man. The chapters provide extended analyses of each of these myths, using examples from popular culture, literature, memorial culture, school books, and every-day life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

**Cognitive-Behavioural Therapy in the Treatment of Addiction** - Christos Kouimtsidis 2007-08-20

Treating individuals with a substance misuse problem can be challenging, especially if clients present with multiple problems related to the main addiction. Clinicians can feel at a loss as to where to begin, or revert to an attempt to treat underlying problems - ignoring damaging aspects

of the substance misuse itself. At times referral to specialists may seem the only responsible way forward. Written by a team of clinical academics in the field of addictions, *Cognitive-Behavioural Therapy in the Treatment of Addictions* is a ready reference for clinicians that offers a brief, evidence-based, collaborative approach that starts here and now. Client and therapist embark together on a journey to tackle the problem in a practical way. The book includes session tools, worksheets and daily thought records.

*The Grid Book* - Hannah B Higgins 2009-01-23

Ten grids that changed the world: the emergence and evolution of the most prominent visual structure in Western culture. Emblematic of modernity, the grid is the underlying form of everything from skyscrapers and office cubicles to paintings by Mondrian and a piece of computer code. And yet, as Hannah Higgins makes clear in this engaging and evocative book, the grid has a history that long predates modernity; it is the most prominent visual structure in Western culture. In *The Grid Book*, Higgins examines the history of ten grids that changed the world: the brick, the tablet, the gridiron city plan, the map, musical notation, the ledger, the screen, moveable type, the manufactured box, and the net. Charting the evolution of each grid, from the Paleolithic brick of ancient Mesopotamia through the virtual connections of the Internet, Higgins demonstrates that once a grid is invented, it may bend,

crumble, or shatter, but its organizing principle never disappears. The appearance of each grid was a watershed event. Brick, tablet, and city gridiron made possible sturdy housing, the standardization of language, and urban development. Maps, musical notation, financial ledgers, and moveable type promoted the organization of space, music, and time, international trade, and mass literacy. The screen of perspective painting heralded the science of the modern period, classical mechanics, and the screen arts, while the standardization of space made possible by the manufactured box suggested the purified box forms of industrial architecture and visual art. The net, the most ancient grid, made its first appearance in Stone Age Finland; today, the loose but clearly articulated networks of the World Wide Web suggest that we are in the middle of an emergent grid that is reshaping the world, as grids do, in its image.

*Architectural Rhetoric in Shakespeare and Spenser* - Jennifer C. Vaught 2019-09-23

Jennifer C. Vaught illustrates how architectural rhetoric in Shakespeare and Spenser provides a bridge between the human body and mind and the nonhuman world of stone and timber. The recurring figure of the body as a besieged castle in Shakespeare's drama and Spenser's allegory reveals that their works are mutually based on medieval architectural allegories exemplified by the morality play *The Castle of Perseverance*. Intertextual and analogous connections between the generically hybrid works of Shakespeare and Spenser demonstrate how they conceived of individuals not in isolation from the physical environment but in profound relation to it. This book approaches the interlacing of identity and place in terms of ecocriticism, posthumanism, cognitive theory, and Cicero's art of memory. *Architectural Rhetoric in Shakespeare and Spenser* examines figures of the permeable body as a fortified, yet vulnerable structure in Shakespeare's comedies, histories, tragedies, romances, and Sonnets and in Spenser's *Faerie Queene* and *Complaints*.

*El Vino Y la Viña* - P. T. H. Unwin 1991

Provides an introduction to the historical geography of viticulture and the wine trade from prehistory to the present, considering wine as a symbol, rich in meaning and a commercial product of great economic importance to specific regions.

**The Emergence of Standard English** - John H.

Fisher 2014-07-11

Language scholars have traditionally agreed that the development of the English language was largely unplanned. John H. Fisher challenges this view, demonstrating that the standardization of writing and pronunciation was, and still is, made under the control of political and intellectual forces. In these essays Fisher chronicles his gradual realization that Standard English was not a popular evolution at all but was the direct result of political decisions made by the Lancastrian administrations of Henry IV and Henry V. To achieve standardization and acceptance of the vernacular, these kings turned to their Chancery scribes, who were responsible for writing and copying legal and royal documents. Chaucer, a relative of the king, began to be labeled by the government as a master of the language, and it was Henry V who inspired the fifteenth-century tradition of citing Chaucer as the "maker" of English. An even more important link between language development and government practice is the fact that Chaucer himself composed in the English of the Chancery scribes. Fisher discusses the development of Chancery practices, royal involvement in promoting use of the vernacular, Chaucer's use of English, Caxton's use of Chancery Standard, and the nineteenth-century phenomenon of a standard, or "received," pronunciation of English. This engaging and clearly written work will change the way scholars

understand the development of English and think about the intentional shaping of our language.

*Cuisine and Culture* - Linda Civitello 2011-03-29

An illuminating account of how history shapes our diets—now in a new revised and updated Third Edition Why did the ancient Romans believe cinnamon grew in swamps guarded by giant killer bats? **the Crisis of the Seventeenth Century** - H.R. Trevor Roper 1968

**Text Types and the History of English** - Manfred Görlach 2004-01-01

The history of modern European languages has been largely determined by the range of functions they have acquired, particularly after 1500. This development necessitated a notable expansion of their syntax and lexis, but is most characteristically reflected in the conventionalization of text types. Starting from the German concept of *Textsorte* as developed from the 1960s onwards, the present account is a first comprehensive attempt at charting the field for the history and present-day situation of the English language. In text types, a designation is linked with a more or less stable form which guides the writer's production as well as the reader's expectation, permitting one to recognize straightforward uses as well as deliberate

misuses. Some two thousand of such designations are here listed with minimal definitions and dates for first occurrences. The discussion then concentrates on selected types, which are seen as especially illustrative for English: book dedications, cooking recipes, advertisements, church hymns, lexical entries, and jokes. Their functions and development over time are treated in correlation with their specific linguistic characteristics and adaptations to different period styles and social changes in the readership. The functional range of text types in traditions outside England and the consequences of the export of English categories are exemplified by the history of Scots/Scottish English and of English in India. The arguments are accompanied by a lavish supply of textual excerpts and more than fifty pages of facsimiles, which are especially relevant for insights derived from typographical features. A full bibliography and indices are provided at the end. The book will prove useful for decisions on the constitution of representative text corpora and stimulate research into a greater number of individual text types as well as contrastive analyses at least among European languages.

*An Account of the Danes and Norwegians in England, Scotland, and Ireland* - Jens Jakob Asmussen Worsaae 1852

"My aim in it has been to convey a juster and less prejudiced notion than prevails at present

respecting the Danish and Norwegian conquests." -Jens Jacob Asmussen Worsaae, *An Account of the Danes and the Norwegians* (1852) An Account of the Danes and the Norwegians in England, Scotland and Ireland (1852) by Jens Warsaae, was based on his research into the Scandinavian invasions of the European mainland. During the 10th century, the European mainland was invaded by Norse settlers from Denmark, Norway, and Sweden, who intermarried with native tribes and came to be known as "Normans." While their influence on the history of France was significant, it was even stronger in England, which the Normans conquered in the 11th century. Warsaae's book, commissioned by the Royal Society of Northern Antiquaries, was his attempt to revise the impressions that the 19th century British had of the effects of the Norman conquests on England. This replica of the original text is accompanied by numerous woodcuts.

**Privacy and Print** - Cecile M. Jagodzinski 1999  
Proposes that the emergence of the concept of privacy as a personal right and the core of individuality is connected in a complex way with the easy availability of printed books and the spread of the ability to read that emerged during the period. Looks at representations of reading and readers, especially women, in devotional books, conversion narratives, personal letters,

drama, and the novel. Also explores how privacy became gendered in the early modern period

**Originality, Imitation, and Plagiarism** - Martha Vicinus 2009-12-18

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" --- Gerald Graff, author of *Clueless in Academe* and 2008 President, Modern Language Association  
This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced teachers of writing will learn from the

contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of *Scientific Authorship: Credit and Intellectual Property in Science* "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of *Singular Texts/Plural Authors: Perspectives on*

Aemilia Lanyer - Marshall Grossman 2021-05-11  
Aemilia Lanyer was a Londoner of Jewish-Italian descent and the mistress of Queen Elizabeth's Lord Chamberlain. But in 1611 she did something extraordinary for a middle-class woman of the seventeenth century: she published a volume of original poems. Using standard genres to address distinctly feminine concerns, Lanyer's work is varied, subtle, provocative, and witty. Her religious poem "Salve Deus Rex Judaeorum" repeatedly projects a female subject for a female reader and casts the Passion in terms of gender

conflict. Lanyer also carried this concern with gender into the very structure of the poem; whereas a work of praise usually held up the superiority of its patrons, the good women in Lanyer's poem exemplify worth women in general. The essays in this volume establish the facts of Lanyer's life and use her poetry to interrogate that of her male contemporaries, Donne, Jonson, and Shakespeare. Lanyer's work sheds light on views of gender and class identities in early modern society. By using Lanyer to look at the larger issues of women writers working within a patriarchal system, the authors go beyond the explication of Lanyer's writing to address the dynamics of canonization and the construction of literary history.

**Classical and Christian Ideas in English Renaissance Poetry** - Isabel Rivers 2003-09-02  
Since publication in 1979 Isabel Rivers' sourcebook has established itself as the essential guide to English Renaissance poetry. It: provides an account of the main classical and Christian ideas, outlining their meaning, their origins and their transmission to the Renaissance; illustrates the ways in which Renaissance poetry drew on classical and Christian ideas; contains extracts from key classical and Christian texts and relates

these to the extracts of the English poems which draw on them; includes suggestions for further reading, and an invaluable bibliographical appendix.

*Inventing Eden* - Zachary McLeod Hutchins 2014  
As Christopher Columbus surveyed lush New World landscapes, he eventually concluded that he had rediscovered the biblical garden from which God expelled Adam and Eve. Reading the paradisiacal rhetoric of Columbus, John Smith, and other explorers, English immigrants sailed for North America full of hope. However, the rocky soil and cold winters of New England quickly persuaded Puritan and Quaker colonists to convert their search for a physical paradise into a quest for Eden's less tangible perfections: temperate physiologies, intellectual enlightenment, linguistic purity, and harmonious social relations. Scholars have long acknowledged explorers' willingness to characterize the North American terrain in edenic terms, but *Inventing Eden* pushes beyond this geographical optimism to uncover the influence of Genesis on the iconic artifacts, traditions, and social movements that shaped seventeenth- and eighteenth-century American culture. Harvard Yard, the Bay Psalm Book, and the Quaker use of antiquated pronouns like thee and thou: these are products of a seventeenth-century desire for Eden. So, too, are the evangelical emphasis of the Great Awakening, the doctrine of natural law

popularized by the Declaration of Independence, and the first United States judicial decision abolishing slavery. From public nudity to Freemasonry, a belief in Eden affected every sphere of public life in colonial New England and, eventually, the new nation. Spanning two centuries and surveying the work of English and colonial thinkers from William Shakespeare and John Milton to Anne Hutchinson and Benjamin Franklin, *Inventing Eden* is the history of an idea that shaped American literature, identity, and culture.

*From Puritanism to Postmodernism* - Richard Ruland 2016-04-14

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

**The Historian's Toolbox** - Robert C. Williams  
2011-12-21

Written in an engaging and entertaining style, this widely-used how-to guide introduces readers to the theory, craft, and methods of history and provides a series of tools to help them research and understand the past. Part I is a stimulating, philosophical introduction to the key elements of history--evidence, narrative, and judgment--that explores how the study and concepts of history have evolved over the centuries. Part II guides readers through the workshop of history.

Unlocking the historian's toolbox, the chapters here describe the tricks of the trade, with concrete examples of how to do history. The tools include documents, primary and secondary sources, maps, arguments, bibliographies, chronologies, and many others. This section also covers professional ethics and controversial issues, such as plagiarism, historical hoaxes, and

conspiracy theories. Part III addresses the relevance of the study of history in today's fast-paced world. The chapters here will resonate with a new generation of readers: on everyday history, oral history, material culture, public history, event analysis, and historical research on the Internet. This Part also includes two new chapters for this edition. GIS and CSI examines the use of geographic information systems and the science of forensics in discovering and seeing the patterns of the past. *Too Much Information* treats the issue of information overload, glut, fatigue, and anxiety, while giving the reader meaningful signals that can benefit the study and craft of history. A new epilogue for this edition argues for the persistence of history as a useful and critically important way to understand the world despite the information deluge.

**Salvator Rosa in French Literature** - James Patty  
2005-01-31

" Salvator Rosa (1615–1673) was a colorful and controversial Italian painter, talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patty analyzes Rosa's tremendous influence on French writers, chiefly those of the nineteenth century, such as Stendhal, Honoré de Balzac,

Victor Hugo, George Sand, and Théophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, *Salvator Rosa in French Literature* forms a narrative account of the reception of Rosa's life and work in the world of French letters. James S. Patty, professor emeritus of French at Vanderbilt University, is the author of *Dürer in French Letters*. He lives in Nashville, Tennessee.

**Keywords in Creative Writing** - Wendy Bishop  
2006-01-15

Wendy Bishop and David Starkey have created a remarkable resource volume for creative writing

students and other writers just getting started. In two- to ten-page discussions, these authors introduce forty-one central concepts in the fields of creative writing and writing instruction, with discussions that are accessible yet grounded in scholarship and years of experience. *Keywords in Creative Writing* provides a brief but comprehensive introduction to the field of creative writing through its landmark terms, exploring concerns as abstract as postmodernism and identity politics alongside very practical interests of beginning writers, like contests, agents, and royalties. This approach makes the book ideal for the college classroom as well as the writer's bookshelf, and unique in the field, combining the pragmatic accessibility of popular writer's handbooks, with a wider, more scholarly vision of theory and research.

[Studio Practice](#) - Arie Wallert 1995-08-24

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the

Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as

historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.
