Genome - A. G. Riddle 2018-04-23

The X1 pandemic ravaged the world. Billions were infected, 30 million died. It was not an act of nature. X1 was man-made, a deadly plague deliberately released for one reason only: to force people to take the cure. But the cure is worse than the disease, a sophisticated nanotechnology that has the potential to enslave all humanity unless Dr Peyton Shaw can stop it. Dr Shaw's search for the culprits and a countermeasure starts at the ends of the Earth, on a sunken submarine beneath the Arctic ice. It will take her deep into humanity's past, towards an ancient secret encoded in our DNA, and a revelation that will rewrite history... The final thrilling installment of the Extinction Files will change your very understanding of what it means to be human, blending meticulous scientific research with the heart-pounding fiction that has made A.G. RIDDLE a

global phenomenon.

Memoirs of a Gothic Soul - Rebekah Armusik 2011-01-01

Time Shards - Shatter War - Dana Fredsti 2019-09-24

Time shatters into shards of the past, present, and future. A group of survivors dodge threats from across history to locate the source and repair the damage before it's too late. WAR ACROSS THE TIMESCAPE Earth's past, present, and future have shattered in "the Event," yielding a terrifying new world of prehistoric monsters, lost cultures, strange technologies, and displaced armies. Coming from different points throughout history, a desperate band of survivors join "Merlin," a mysterious figure who may be their only hope to save the world--if he can be trusted. When their twenty-third-century ship the Vanuatu is sabotaged by an unknown enemy and thrown far off its course, the team must discover who is responsible, even as they are split apart and fight to survive in the war-torn Shard world...

The Solar War - A. G. Riddle 2020-08-06

Artemis Fowl and the Atlantis Complex - Eoin Colfer 2010 Criminal mastermind Artemis Fowl has summoned an elite group of fairies to Iceland. But when he presents his invention to save the world from global warming, he seems different. Something terrible has happened to him. Artemis Fowl has become nice.

The Atlantis World - A.G. Riddle 2015-08-13

70,000 years ago, the human race almost went extinct. We survived, but no one knows how. Now the next stage of human evolution is beginning. Will we survive this time? Geneticist Kate Warner and counter-terrorism agent David Vale have prevented a fierce plague from wiping out humanity – but the struggle to survive is far from over. The Atlantis World stretches deep into space and time, harbouring an enemy greater than anyone had imagined. Now Kate and David must race through galaxies, past space stations, and into the past of a mysterious culture whose secrets could save humanity in its darkest hour. This is the blockbusting final instalment in the Origin Mysteries.

The Extinction Trials - A. G. Riddle 2022-06-09

The end... is only the beginning. After a mysterious global event known only as 'The Change', six strangers wake up in an underground research facility where they learn that they're part of the Extinction Trials - a scientific experiment to restart the human race. But the Extinction Trials harbours a very big secret. And so does the world outside. From A.G. Riddle, the Amazon and Wall Street Journal bestselling author with nearly five million copies sold worldwide in twenty languages, comes an epic standalone adventure with a surprise ending unlike anything you've ever read before.

Jungle Up - Nick Pirog 2021-04-27

"Please find me, Thomas! Please!" Two years ago, Dr. Gina Brady broke Thomas Prescott's heart, but now her panic-stricken satellite phone call starts it beating again with a fury. Thugs kidnapped the good doctor from the remote jungle village where she was working, and now the retired homicide detective's expert skills are desperately needed to save her. Led by a colorful, but perhaps untrustworthy local guide, Prescott journeys deep into the Bolivian Amazon, plunging into a world where the only thing more dangerous than the gun-toting drug traffickers and the ruthless tribesmen, is the jungle itself. When Gina's trail leads to a chance encounter with an archaeological expedition, the search for the missing doctor takes on even deadlier consequences. But Prescott will not relent in this punishing quest until, once again, he holds Gina in his arms. The books in The Thomas Prescott Series can be enjoyed in any order, so grab *Jungle Up* and get started today.

Ian Fleming's Inspiration - Edward Abel Smith 2020-05-30 James Bond is possibly the most well known fictional character in history. What most people don't know is that almost all of the characters, plots and gadgets come from the real life experiences of Bond's creator - Commander Ian Fleming. In this book, we go through the plots of Fleming's novels explaining the real life experiences that inspired them. The reader is taken on a journey through Fleming's direct involvement in World War II intelligence and how this translated through his typewriter into James Bond's world, as well as the many other factors of Fleming's life which were also taken as inspiration. Most notably, the friends who Fleming kept, among whom were Noel Coward and Randolph Churchill and the influential people he would mingle with, British Prime Ministers and American Presidents. Bond is known for his exotic travel, most notably to the island of Jamaica, where Fleming spent much of his life. The desk in his Caribbean house, Goldeneye, was also where his life experiences would be put onto paper in the guise of James Bond. As the island was highly influential for Fleming, it features heavily in this book, offering an element of escapism to the reader, with tales of a clear blue sea, Caribbean climate and island socialising. Ian Fleming might have died prematurely aged 53, but so much of him lives on to this day through the most famous spy in the world, James Bond.

Gene - Stel Pavlou 2010-03-04

Detective James North is called upon to deal with a young, mentally unstable man holding a child hostage at New York's Metropolitan Museum of Art. When he arrives, he is disturbed to discover that - although the bad guy is a complete stranger - he's been asking for North by name. The hostage situation goes wrong, and North finds himself injected with a substance that causes hallucinatory nightmares and flashes of memory that are not his own. He begins to hunt through New York for his attacker, a man he feels inexplicably compelled to kill - a man called Gene. As he does so, North unlocks the secret of his past, a past that stretches back over 3000

years. GENE is the story of forgotten Greek warrior Cyclades who fought and died in the Trojan Wars, and was fated by the gods to be reincarnated seven times. Locked in a cycle of battle with the Babylonian Magi Athanatos, Cyclades must once again strive to defeat him and thwart his quest to achieve immortality. Cyclades and Athanatos. North and Gene. But in this incarnation, neither man knows which is which, or why each of them has the instinctive need to kill the other.

The Spider Heist - Jason Kasper 2019-11-22

As an FBI agent, she specialized in hunting America's most elite thieves. Now, she's become one of them. "My heart was in my throat until the very end, and once I reached the last word, all I wanted was more." --Lisa Regan, USA Today and WSJ Bestselling Author Blair Morgan's world is in shambles. After being used as a scapegoat by a corrupt former boss, she is unceremoniously fired from the FBI. Now, with her reputation, pride, and years of service stripped away, Blair just wants to start over. But when a chance date turns into a mysterious job offer, her past comes crashing back to haunt her. In a flash, Blair becomes entangled in a high stakes bank heist. Her status as a former FBI-agent-turned-hostage transforms her into an instant media sensation. And the unwanted attention makes her a target for ruthless killers that will stop at nothing to silence her. Caught in the crosshairs, Blair must confront her past before she loses her freedom--or her life. But there is something strange about this team of bank robbers. They aren't who they seem. And as a deadly SWAT raid closes in, Blair discovers that she may not be either...

The *Spider Heist* is the first installment of a heart-stoppingly suspenseful thriller series by international bestselling author Jason Kasper. Perfect for fans of James Patterson, Sandra Brown, Catherine Coulter, David Baldacci, and TR Ragan.

The Atlantis Guard - S.A. Beck 2017-12-03

Book 6 in the thrilling 7-book Atlantis Saga The US government, the US military, and world-renowned scientists are all after one thing--the Atlantis gene, from the descendants of the lost island of Atlantis. Agent Isadore has competition. The Russians also want the Atlantis Allegiance. They seem to be searching for something more than the Atlantis gene that her boss had already injected into ordinary humans--to great success. Jaxon has secrets to protect, but a set of loose lips in the Atlantis Allegiance lands the team in a life-and-death gunfight in Timbuktu. More trouble comes their way in the form of twin assassins that even General Corbin and Agent Isadore fear. The Atlantis Gene - Pierce Roberts 2020-11-18

There was a place once where man, the perfect creation, lived and thrived as a near perfect creature. Blessed by the 'gods' with advanced knowledge of science, engineering, astronomy, mathematics and medicine, this early culture lived an idyllic life on a remote volcanic island in the eastern Atlantic. There they enjoyed centuries long lives and were protected by their isolation from pestilence and were nourished by food raised on rich volcanic soil. These Atlanteans became great seafaring explorers who shared their gifts of knowledge with more primitive cultures, advancing societies that would evolve into the great centers of knowledge, philosophy and science that would become

Egypt, Rome, Persia, Greece and China. Legend has it that the island they called Atlantis was destroyed in a sudden cataclysmic volcanic explosion that totally exterminated all traces of that great culture. The truth be known, the eruption and explosion that wiped the island from history came slowly with seismic warnings and the people evacuated their leaders and knowledge on a great armada of ships which dispersed around the world to settle and mix with other cultures, creating advanced healthier societies. One group traveled West to a previously unexplored continent that one day would be called North America. There for hundreds of years they inbred with native tribes of hunter gatherers which then evolved into the great American Indian tribes. Modern researchers, aware of Biblical stories about patriarchal longevity that spanned multiple centuries to millennia, began researching modern pockets of extreme centurion longevity, seek a possible genetic reason, a longevity gene to create a super human. One group of Chinese scientists begin to pursue that knowledge with malevolent, evil intent. The accidental discovery of a ten thousand year old grave with fossilized human remains, a partial stone tablet with indecipherable writing, and a heavy gold and emerald inscribed ring with an ancient message on the Fort Peck Indian Reservation in Montana, sets in motion events that will uncover the powerful secrets of The Atlantis Gene.

A Sidekick to A.G. Riddle's The Atlantis Gene - 2014

The Gripping Hand - Larry Niven 1994
Science fiction-roman.

Leap to Wholeness - Sky Nelson-Isaacs 2021-03-02

An investigation into the physics of light and our journey toward healing, connection, and wholeness. The reductionism and materialism of our modern world make it easy to imagine everything can be cleanly broken down into smaller and smaller parts. Yet the straightforward example of light in a hologram, which can't be reduced to its parts, points to an underlying interconnected reality--a wholeness. Physicist Sky Nelson-Isaacs uses numerous familiar examples--rainbows, music, photography--to illustrate a fundamental wholeness found in nature. Just as light is filtered as it passes through a filmstrip, Nelson-Isaacs points out that our human experience is filtered through thoughts and feelings. This view provides an explanation as to why, in our daily lived reality, we can feel so broken and not-whole. Nelson-Isaacs weaves together cutting-edge ideas into the nature of space and time and original research, with a compelling message of urgency. The filters we use to make choices everyday hide important information from us, leading us away from experiences of flow. Through synchronicities, we are led to life lessons tailored to our readiness for change. Nelson-Isaacs reconsiders the view of time itself, suggesting that we live not just in this moment but on a timeline of history, part of a wave moving from our past into our future. Every choice we make shifts what is available to us. Can we learn to rethink our lives and reality to remove our filters and realize the wholeness that we have inherent in ourselves and in our world? Yes, says Nelson-Isaacs--and once we do that, we can use the multiverse of possibilities to make choices that help us heal and grow into a greater sense of ourselves.

Winter World - A. G. Riddle 2020-02-06

A new ice age. A mysterious object in space. And a desperate mission to save humanity from extinction.

Echoes of the Well of Souls - Jack L. Chalker 2013-03-29

THE CALL OF THE WELL For uncounted eons, the Well World had regulated and given order to the universe, and throughout the eternity, Nathan Brazil had been the guardian of the Well of Souls, where the universe's master control lay. Forever wandering and alone, returning to the Well in times of Danger, Brazil had destroyed and re-created the cosmos several times over.

But even he wearied of his endless watch, and had enlisted the aid of space pilot and high-tech thief Mavra Chang the last time the universal order required resetting. But now the universe faced a threat more grave than mere destruction. An unnamed and utterly alien entity had somehow been released from its ancient prison and was bent on the corruption of the Well World itself. If successful, it would cause chaos beyond mortal understanding. The Well World needed Brazil and Chang. But when it found them, would they once again answer the call? And though Brazil was immortal, could he even fight the force threatening the Well? For the force was not of this universe - and it had plans for Nathan Brazil...

The Lost Colony - A. G. Riddle 2021-03-04

Against impossible odds, the last survivors of the human race have created a new home on a planet far from Earth. But everything is not as it seems - and they will end up facing their greatest challenge yet. The conclusion to the Long Winter trilogy.

Ethan of Athos - Lois McMaster Bujold 2003-08

Our hero is a quiet, upstanding citizen of Athos, an obstetrician in a world in which reproduction is carried out entirely via uterine replicator, without the aid of living women. He faces a problem: the 200-year-old cultures are not providing eggs the way they used to, and attempts to order replacements by mail have failed catastrophically.

The Atlantis Gene - A.G. Riddle 2015-04-09

THE BATTLE TO SAVE HUMANITY HAS BEGUN. Off the coast of Antarctica, a research vessel discovers a mysterious structure buried deep within an iceberg. Entombed for thousands of years, it can't possibly be man-made. But a secretive and ruthless cabal think they know what it is... and what it means. The Immari have spent millennia preparing for the return of humanity's ancient enemy. Faced with an extinction-level threat, they believe mankind's only chance of survival will mean sacrificing 99.9% of the planet's population. It's a price the Immari are prepared to pay. Geneticist Kate Warner and intelligence agent David Vale may have a chance to avert the looming catastrophe, but only if they can decode the secrets of the Atlantis Gene and unlock the truth about humanity's origins.

The New Atlantis - 2006

The Twin Paradox - Charles Wachter 2020-07-14

"The Twin Paradox is one of the best science thrillers to come along since Andy Weir's The Martian." Chris Weitz, Screenwriter, Rogue One With ten years passing for every three minutes on a remote stretch of Texas coast, planes fall out of the sky, evolved species are on the hunt, and people die inside one of the most vicious ecosystems ever grown--all a result of the government's efforts to slow down time. A lot can happen in ten years. That's the point. Governments are always racing for supremacy, for scientific breakthroughs, for technological advantages--and these things take time. Until something goes wrong. With the grounded yet massive world building of READY PLAYER ONE, thrilling scientific questions of JURASSIC PARK, and the time-bending teen drama of BEFORE I FALL, Wachter's THE TWIN PARADOX is a brilliantly plotted tale that is both intimate and massive, relentless yet deliberate, and explores the themes of self-acceptance, self-confidence, and natural selection in a richly hued and unforgettable world. Ultimately the eternal question of Nature versus Nurture is boiled down into this fast-paced thriller told over the course of five days and culminates in one single question: Do we get to choose who we are?

The Atlantis Trilogy - A. G. Riddle 2015-04-09

THE ATLANTIS GENE: Off the coast of Antarctica, a research vessel discovers a mysterious structure buried deep within an iceberg. Entombed for thousands of years, it can't possibly be man-made... The countdown to

extinction has begun. **THE ATLANTIS PLAGUE: A pandemic** unlike any before it is sweeping the globe. Nearly one billion people are dead - and those the Plague doesn't kill, it transforms at the genetic level. Geneticist Kate Warner's search for answers will take her deep into the past. **THE ATLANTIS WORLD: Time** has almost run out. The human race is shattered and in no state to face the new catastrophe that is even now engulfing the planet. But then, from deep space, a signal. A signal that will lead mankind into a war that has raged for countless millennia, a war that will reveal an enemy beyond imagination and the true nature of the Atlantis Gene.

Brilliance - Marcus Sakey 2013

Federal agent Nick Cooper draws on his supernatural ability to eliminate terrorists to hunt down a dangerous man who committed a horrific massacre on Wall Street that left hundreds dead and injured.

Battlefield Earth - L. Ron Hubbard 2016-06-06

Sadistic Aliens... ..Man is an endangered species. Is it the end of the world or the rebirth of a new one? In the year A.D. 3000, Earth is a dystopian wasteland. The great cities stand crumbling as a brutal reminder of what we once were. When the Psychlos invaded, all the world's armies mustered little resistance against the advanced alien weapons. Now, the man animals serve one purpose. Do the Psychlos' bidding or face extinction. One man, Jonnie Goodboy Tyler, has a plan. They must learn about the Psychlos and their weapons. He needs the other humans to follow him. And that may not be enough. Can he outwit his Psychlo captor, Terl? The fate of the Galaxy lies on the Battlefield of Earth. Get it now.

"Pulse-pounding mile-a-minute sci-fi action-adventure that does not stop. It is a masterpiece of popular adventure science fiction." -Brandon Sanderson

"Battlefield Earth is like a 12-hour 'Indiana Jones' marathon. Non-stop and fast-paced. Every chapter has a big bang-up adventure." -Kevin J. Anderson (co-author of the Dune Sagas) "Over 1,000 pages of thrills, spills, vicious aliens and noble humans. I found Battlefield Earth un-put-downable." -Neil Gaiman

Departure - A. G. Riddle 2015-10-20

From the author of the #1 bestselling *The Atlantis Gene* comes a new novel in which the world's past and future rests in the hands of five unwitting strangers in this definitive edition of A. G. Riddle's time-traveling, mind-bending speculative thriller. En route to London from New York, Flight 305 suddenly loses power and crash-lands in the English countryside, plunging a group of strangers into a mysterious adventure that will have repercussions for all of humankind. Struggling to stay alive, the survivors soon realize that the world they've crashed in is very different from the one they left. But where are they? Why are they here? And how will they get back home? Five passengers seem to hold clues about what's really going on: writer Harper Lane, venture capitalist Nick Stone, German genetic researcher Sabrina Schröder, computer scientist Yul Tan, and Grayson Shaw, the son of a billionaire philanthropist. As more facts about the crash emerge, it becomes clear that some in this group know more than they're letting on—answers that will lead Harper and Nick to uncover a far-reaching conspiracy involving their own lives. As they begin to piece together the truth, they discover they have the power to change the future and the past—to save our world . . . or end it. A wildly inventive and propulsive adventure full of hairpin twists, *Departure* is a thrilling tale that weaves together power, ambition, fate, memory, and love, from a bold and visionary talent.

Book Review - Expert Book Reviews 2014-03-13

WARNING: This is not the actual book *The Atlantis Plague* by A.G. Riddle. Do not buy this Review if you are looking for a full copy of this great book. One of the major strengths of the *The Atlantis Plague* is the in-depth explanation of scientific advances, especially those related to genetics, which are laid out in great detail. This expert review of *The Atlantis Plague* offers the reader a guide for following the thought-provoking science, technology, and history that lays the foundation for the action. Overpopulation and the threat of a pandemic are very real and make the events in this novel plausible. In addition, A.G. Riddle poses (and answers) those age-old questions: Where do we come from? Why are we here? What makes us who we are? Riddle doesn't answer all of the questions completely, however, and he closes *The Atlantis Plague* hinting that there will be more to follow. Because of events set in motion 70,000 years ago, in *The Atlantis Plague*, Kate is the only person able to solve the mystery surrounding *The Atlantis Gene* and salvage the fate of the human race. To do so, she must travel across Europe to northern Africa and Antarctica while tracing the origins of the plague through human history and past events, a journey easier for the reader to trace with this review of *The Atlantis Plague*. After journeying so far for the sake of mankind, Kate discovers shocking secrets about herself and her

own past.

Richard Dawkins - Alan Grafen 2007

Published to coincide with the 30th anniversary of 'The Selfish Gene', this collection explores the impact of Richard Dawkins as scientist, rationalist, and one of the most important thinkers alive today.
