Land Grabbing - Stefano Liberti 2013-11-19

To the governments and corporations buying up vast tracts of the Third World, it is 'land leasing'; to its critics, it is nothing better than 'land grabbing' - the engine powering a new era of colonialism. In this arresting account of how millions of hectares of fertile soil are stolen to feed wealthy westerners thousands of miles away, journalist Stefano Liberti takes readers on a tour of contemporary exploitation. It is a journey encompassing a Dutch-owned model farm in Ethiopia; a conference in Riyadh, where representatives of Third World governments compete to attract Saudi investors; meetings in Rome where the fate of nations is decided; and the headquarters of the Movement of Landless Workers in São Paulo. Since the food crisis of 2007-8, when the cost of staples such as rice and corn went through the roof, the race to acquire land in the southern hemisphere has become more intense than ever. Land Grabbing is the shocking story of how one half of the world is starved to feed the other.

Against all odds, the family begins anew despite the looming Napoleonic wars and devastating plagues. But when Vincenzo is spurned by his aristocratic lover, he vows to avenge his honor by becoming the wealthiest man in Italy. Sacrificing love and family, he strives to buy what cannot be his by birth. Not to be outdone by the men, the Florio women unapologetically demand their place outside the restraints of caring mothers, alluring lovers, or wounded wives. Giulia, though only a mistress, is fiercely intelligent and runs the empire from the shadows. Angelina, born a bastard, charts her own future against the wishes of her father. In this epic yet intimate tale of power, passion, and revenge, the rise and fall of a family taps into the universal desire to become more than who we are born as.

The Girl with the Leica - Helena Janeczek 2019-10-08

The life of a female war photographer killed in action is told by three of her friends in this biographical novel by the author of *Bloody Cow*. Gerda Taro was a German-Jewish war photographer, anti-fascist activist, artist, and innovator who, together with her partner, the Hungarian Endre Friedmann, was one half of the alias Robert Capa, widely considered to be the twentieth century's greatest war and political photographer. She was killed while documenting the Spanish Civil War and tragically became the first female photojournalist to be killed on a battlefield. August 1, 1937, Paris. Taro's twenty-seventh birthday, and her funeral. Friedmann leads the procession. He is devastated, but there are others, equally bereft, with him: Ruth Cerf, Taro's old friend from Leipzig with whom she fled to Paris; Willy Chardack, ex-lover; Georg Kuritzkes, another lover and a key figure in the International Brigades. They have all known a different Gerda, and one who is at times radically at odds with the heroic anti-fascist figure being mourned by the multitudes. . . . Another character in the novel is the era itself, the 1930s, with economic depression, the rise of Nazism, hostility towards refugees in France, the century's ideological warfare, the cultural ferment, and the ascendancy of photography as the age's quintessential art form. Winner of the

Strega Prize, *The Girl with the Leica* is a must-read for fans of historical fiction centered on extraordinary women's lives. "A biography, a feminist parable, a declaration of love for photography, and a tableau of the 1930s: *The Girl with the Leica* is all this at once." -Il Sole 24 Ore (Italy) "Janeczek creatively and seamlessly spotlights war photographer Gerda Pohorylle." -Publishers Weekly

Cities And The Rise Of States In Europe, A.d. 1000 To 1800 - Charles Tilly 1994-11-17

The rise of large, powerful states in Europe after 1000 a.d. transformed life across the Continent and eventually through the whole world. The new European states disposed of unprecedented stores of capital and vast military capacities. In recent decades, scholars have often drawn general models of state formation from the European experience after 1700, then applied them with only partial success to other parts of the world. Although such studies of modern Europe improved on early theories of modernization and development, they failed to accommodate the varied ways in which city-states, empires, federations, centralized states, and other forms of government evolved and the pivotal role that cities played in the multiple paths to state formation. In a sweeping, original work detailing eight centuries of city-state relations, Charles Tilly, Wim P. Blockmans, and their contributors document differences in political trajectories from one part of Europe to another and provide authoritative surveys of urbanization in nine major regions; they also suggest many correctives to previous analyses of state formation. They show that the variable distribution of cities significantly and independently constrained state formation and that states grew differently according to the character of urban networks in a given region. Their systematic study shows that unilinear models of state transformation underestimate the contingency and variability of popular and elite compliance with state-building activities. The book's findings offer important implications for the nature of economy, sovereignty, warfare, state power, and social change throughout the world.

A History of Western Astrology - S. J. Tester 1990
'Superb general account.' Times Literary Supplement
The story of the history of Western astrology begins with the philosophers of Greece in the 5th century BC. To the magic and stargazing of Egypt the Greeks added numerology, geometry and rational thought. The philosophy of Plato and later of the Stoics made astrology respectable, and by the time Ptolemy wrote his textbook the *Tetrabiblos*, in the second century AD, the main lines of astrological practice as it is known today had already been laid down. In future centuries astrology shifted to Islam only to return to the West in medieval times where it flourished until the shift of ideas during the Renaissance.

Integrating Immigrants in Europe - Peter Scholten 2015-06-02

This open access book explores how research and policymaking in the field of migrant integration have developed historically and how this interrelationship plays out in the strongly politicised climate of opinions on migration in Europe. It features interdisciplinary theoretical contributions as well as original empirical studies on research-policy dialogues at both the EU and country level. The chapters study not only how the dialogue between research and policy is structured (such as advisory bodies, research agencies, and ad-hoc committees), but also how these dialogues affect policymaking and the development of migrant integration research itself as well. The analysis reveals profound changes in the dialogue structures associated with the research-policy nexus in the domain of migrant integration. On the one hand, dialogue structures have become more ad-hoc, often established in response to distinct political events or to specific problems. On the other, politicisation has not thwarted all efforts to develop more institutionalised dialogue structures between producers and users of knowledge. In addition, research has contributed to policymaking in very different ways in various European countries. This edited volume is unique in this effort to reflect on the impact of research-policy dialogues both on the development of migrant integration policies as well as on migrant integration research. It will be of importance to scholars in this field as well as to policymakers and other stakeholders involved in migrant integration policymaking.

Make It New - Barry M. Katz 2015-09-04

The role of design in the formation of the Silicon Valley ecosystem of innovation. California's Silicon Valley is home to the greatest concentration of designers in the world: corporate design offices at flagship technology companies and volunteers at nonprofit NGOs; global design consultancies and boutique studios; research laboratories and academic design programs. Together they form the interconnected network

that is Silicon Valley. Apple products are famously "Designed in California," but, as Barry Katz shows in this first-ever, extensively illustrated history, the role of design in Silicon Valley began decades before Steve Jobs and Steve Wozniak dreamed up Apple in a garage. Offering a thoroughly original view of the subject, Katz tells how design helped transform Silicon Valley into the most powerful engine of innovation in the world. From Hewlett-Packard and Ampex in the 1950s to Google and Facebook today, design has provided the bridge between research and development, art and engineering, technical performance and human behavior. Katz traces the origins of all of the leading consultancies—including IDEO, frog, and Lunar—and shows the process by which some of the world's most influential companies came to place design at the center of their business strategies. At the same time, universities, foundations, and even governments have learned to apply "design thinking" to their missions. Drawing on unprecedented access to a vast array of primary sources and interviews with nearly every influential design leader—including Douglas Engelbart, Steve Jobs, and Don Norman—Katz reveals design to be the missing link in Silicon Valley's ecosystem of innovation.

Pilgrims in Their Own Land - Martin E. Marty 1985-08-06
Pilgrims in Their Own Land is Martin E. Marty's vivid chronological account of the people and events that carved the spiritual landscape of America. It is in one sense a study of migration, with each wave of immigrants bringing a set of religious beliefs to a new world. The narrative unfolds through sharply detailed biographical vignettes—stories of religious "pathfinders," including William Penn, Mary Baker Eddy, Henry David Thoreau, and many other leaders of movements, both marginal and mainstream. In addition, Marty considers the impact of religion on social issues such as racism, feminism, and utopianism. And engrossing, highly readable, and comprehensive history, *Pilgrims in Their Own Land* is written with respect, appreciation, and insight into the multitude of religious groups that represent expressions of spirituality in America.

The Complete Poetry of Giacomo da Lentini - Giacomo da Lentini 2018-05-04

This volume presents the first translation in English of the complete poetry of Giacomo da Lentini, the first major lyric poet of the Italian vernacular. He was the leading exponent of the Sicilian School (c.1220-1270) as well as the inventor of the sonnet. Featuring illustrations and new English translations of some forty lyrics, Richard Lansing revives the work of a pioneer of Italian literature, a poet who helped pave the way for later writers such as Dante and Petrarch. Giacomo da

Lentini is hailed as the earliest poet to import the Occitan tradition of love poetry into the Italian vernacular. This edition of Giacomo fills a gap in the

canon of translations of Italian literature in English and serves as a vital reference source for students as well as scholars and teachers interested in the literature of the romance languages.
