Business Law - Jamie Darin Prekert 2021-03

"This is the 18th Edition (and the 24th overall edition) of a business law text that first appeared in 1935. Throughout its more than 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the "legal environment" approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and the law of an increasingly digital world. The 18th Edition continues to emphasize change by integrating these four areas into its pedagogy"--

*Business for the Glory of God* - Wayne Grudem 2003-11-06

Can business activity in itself be morally good and pleasing to God? Sometimes business can seem so shady--manipulating the "bottom line," deceiving the consumer, or gaining promotions because of whom you know. But Wayne Grudem introduces a novel concept: business itself glorifies God when it is conducted in a way that imitates God's character and creation. He shows that all aspects of business, including ownership, profit, money, competition, and borrowing and lending, glorify God because they are reflective of God's

nature. Though Grudem isn't naïve about the easy ways these activities can be perverted and used as a means to sin, he knows that Christians can be about the business of business. This biblically based book is a thoughtful guide to imitating God during interactions with customers, coworkers, employees, and other businesses. See how your business, and your life in business, can be dedicated to God's glory.

**It's Legal but It Ain't Right** - Nikos Passas 2010-02-22

Many U.S. corporations and the goods they produce negatively impact our society without breaking any laws. We are all too familiar with the tobacco industry's effect on public health and health care costs for smokers and nonsmokers, as well as the role of profit in the pharmaceutical industry's research priorities. It's Legal but It Ain't Right tackles these issues, plus the ethical ambiguities of legalized gambling, the firearms trade, the fast food industry, the pesticide industry, private security companies, and more. Aiming to identify industries and goods that undermine our societal values and to hold them accountable for their actions, this collection makes a valuable contribution to the ongoing discussion of ethics in our time. This accessible exploration of corporate legitimacy and crime will be important reading for advocates, journalists, students, and anyone interested in the dichotomy between law and legitimacy. Nikos Passas is Professor in the College of Criminal Justice at Northeastern University. Neva Goodwin is Co-director of the Global Development and Environment Institute at Tufts University.

**The Global Environment of Business** -  
David W. Conklin 2010-05-06  
This text provides upper-level

undergraduate students with an  
international managerial perspective  
that concisely integrates both market  
(i.e., industry structure) and  
nonmarket (i.e., political forces)  
analysis. Conklin teaches students  
how to understand the impact of  
environmental forces on the firm's  
profitability, how to prioritize both  
risks and opportunities, how to  
analyze the relationships among them,  
and how to recommend firm responses  
to them to maximize MNE  
profitability. Key Features  
Environmental forces and their  
interrelationships are clearly  
organized and analyzed under four  
broad themes: social, technological,  
economic, and political forces. Each  
issue is clearly correlated to real  
management decision-making in chapter  
introductions, which discuss the  
strategies and management practices  
required to respond effectively to  
various environmental forces.  
Students learn to assess the changes  
in environmental forces over time and  
to ascertain the relative  
attractiveness of various nations as  
alternative sites for conducting  
business. Chapter-opening lists of  
critical skills and capabilities  
provide a focus and guide for the  
material in the chapter, relating  
theories to practical applications.  
Chapter-ending case excerpts with  
discussion questions provide  
illustrative real-world situations  
related to issues presented in that  
chapter and challenge students to  
come up with their own recommended  
solutions.
