Housing for the 21st Century - Carlo Aiello 2009

Housing for the twenty-first century is what we have chosen, and have made it a collaboration between thinkers from diverse fields attempting to understand our current habitation necessities; an exploration of where we are and where are we heading. We start off with the analysis of the economic, social, and architectural causes and consequences of the largest and fastest migration event of human history; the exodus from rural to urban China. Opinion is a collection of essays on the broad topic of housing, reaching broadly, from discussions about the use of new technologies, ecology, and global warming, to the transformation of a house into another member of a family. This section also includes a reflection on the legacy of Frank Lloyd Wright and his architectural sensibility to make house and context one single entity.

The Wal-Mart Way - Don Soderquist 2005-04-19 Since Sam Walton's death in 1992, Wal-Mart has gone from being the largest retailer in the world to holding the top spot on the Fortune 500 list as the largest company in the world. Don Soderquist, who was senior vice chairman during that time, played a crucial role in that

success. Sam Walton said, "I tried for almost twenty years to hire Don Soderquist . . . But when we really needed him later on, he finally joined up and made a great chief operating officer." Responsible for overseeing many of Wal-Mart's key support divisions, including real estate, human resources, information systems, logistics, legal, corporate affairs, and loss prevention, Soderquist stayed true to his Christian values as well as Wal-Mart's distinct management style. "Probably no other Wal-Mart executive since the legendary Sam Walton has come to embody the principles of the company's culture-or to represent them within the industry-as has Don Soderquist," Discount Store News once reported. In *The Wal-Mart Way*, Soderquist shares his story of helping lead a global company from being a \$43 billion company to one that would eventually exceed \$200 billion. Several books have been written about Wal-Mart's success, but none by the ones who were the actual players. It was more than "Everyday Low Prices" and distribution that catapulted the company to the top. The core values based on Judeo-Christian principles-and maintained by leaders such as Soderquist-are the real reason for Wal-Mart's success.

Reporting for the Media - John R. Bender 2012

Now in its tenth edition, *Reporting for the Media* continues to be an essential resource for journalism instructors. A sweeping introduction to newswriting and reporting, this classic text focuses on the basics of reporting--how to become more curious about the world, generate provocative ideas, gather vital information and write incisive stories. The authors emphasize such central topics as grammar basics, and common ethical dilemmas. In addition to its excellent pedagogy and coverage of the converged newsroom, the text also explores a variety of advanced topics including broadcast writing, law, ethics and public relations.

The Birth of the American Horror Film - Gary Don Rhodes 2018

Explains how the American horror movie came into existence. Although early cinema has long been a key area of research in film studies, the origin and development of the horror film has been a neglected subject for what is arguably one of the world's most popular film genres. Using thousands of primary sources and long-unseen illustrations, 'The Birth of the American Horror Film' examines a history that begins in colonial Salem, taking an interdisciplinary approach to explore the influence of horror-themed literature, theatre and visual culture in America, and how that context established an amorphous structural foundation for films produced between 1895 and 1915. Exhaustively researched, bridging scholarship on Horror Studies and Early Cinema, 'The Birth of the American Horror Film' is the first major study dedicated to this vital but often overlooked subject. Suitable for use on courses focusing on Film History, Genre and Horror.

Use-value Assessment of Rural Land in the United States - John Edwin Anderson 2014

State and local governments in this country have adopted a number of policies to regulate the conversion of rural land to developed uses. One of the most significant and least understood is preferential assessment of rural land under the real property tax, often called use-value assessment (UVA) or current-use assessment.

This book explains and analyzes the critical questions raised by this fiscal tool for farmland preservation. Under UVA, the assessments of various parcels of land within a given state may vary tremendously from property to property. A tract that is zoned residential with access to a turnpike might be assessed at \$7,865 per acre. In the very same neighborhood, though, an even larger tract of vacant land might be assessed at a mere \$127 per acre, which is far below the market value. How can there be such dramatic differences in the assessment of land values within the same community or neighborhood? Has the town assessor failed to treat property owners fairly and equally, as required by state law? Not at all. Nearly all states across the country permit, and even require, local assessors to value some parcels of undeveloped land far below their fair market values for the purpose of levying local property taxes. Despite their stated purpose of preserving rural lands from urban development, UVA programs can have unintended negative consequences. One is erosion of the legal and constitutional principle of uniformity of taxation; another is shifting of the local tax burden to other property owners, perhaps in a regressive manner. Occasionally UVA programs generate political controversy and even legislative action concerning "fake farmers" who enjoy low property tax bills, but whose land might only be used to sell firewood or Christmas trees to a few friends and neighbors. This volume explains the origins, key features, impacts, and flaws of use-value assessment programs across the United States. It describes in detail the process and characteristics of UVA programs in 44 states and recommends reforms. This book serves as a road map for public officials, scholars, and journalists concerned with agricultural taxation and land use issues.

Private Sector Innovations and Technological Growth in the MENA Region - Ebrahimi, Maryam 2018-11-09

Technological development is achievable only when a country has the ability to systematically design and introduce its own new technologies. In spite of the variety of studies regarding technology management, there is still a lack of studies concerning the principle concepts of technology management in the Middle Eastern/North African (MENA) region's firms. The generally low level of ICT diffusion in most of the region's countries widens the gap between MENA countries and the modern world. Private Sector Innovations and Technological Growth in the MENA Region provides innovative insights into investments made for the digital transformation of major cities in the region that have the potential to become a significant driver for economic development and job creation. Highlighting topics such as strategic planning, risk analysis, and customer loyalty, this

publication is designed for policymakers, economists, academicians, researchers, business professionals, and students interested in the use of ICT integration for the advancement of the MENA region.

Twelve Years A Slave (Illustrated) - Solomon

Northup 2014-08-22

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Our Hearts Were Young and Gay - Cornelia Otis Skinner 2008-11

OUR HEARTS WERE YOUNG AND GAY by CORNELIA OTIS SKINNER and EMILY KIMBROUGH. CHAPTER 1: WE had been planning the trip for over a year. Pinching, scraping and going without sodas, we had salvaged from our allowances and the small time jobs we each had found the preceding vacation the sum of 80.00, which was the cost of a minimum passage on a Canadian Pacific liner of the cabin class. Our respective families had augmented our finances by letters of credit generous enough to permit us to live for three months abroad if not in the lap of luxury, at least on the knees of comfort. For months we had been exchanging letters brimming over with rapturous plans and lyric anticipation and now June had really rolled around and the happy expectancy of the brides-to-be of that year had nothing on us. It was settled we could meet in

Montreal at whatever hotel it is that isn't the Ritz. I, clutching and occasionally kissing our steamship passage, was arriving from New York, Emily from Buffalo. That is, I hoped Emily was arriving. Emily's notions concerning geography, like some of her other notions, were enthusiastic but lacking in accuracy. Some weeks previous she had sent me a rhapsodic letter which ended with the alarming words, I live for the moment when our boat pushes out from that dock in Winnipeg. I had written back in a panic and block letters stating, somewhat crushingly I thought, that the C.P. O. seldom sent its ships overland, that we were sailing from Montreal, Province of Quebec, that the name of our vessel was the Montcalm and the date June 10th, the year of our Lord I shant say which, because Emily and I have now reached the time in life when not only do we lie about our ages, we forget what we've said they are. Emily wrote back not to worry, darling, she had it all straight now. Moreover she was being motored up from Buffalo by friends who had been abroad often and who wouldn't dream of driving her to the wrong place. They would arrive sometime the afternoon of the 10th. No such traveled and plutocratic friends offered to motor me to Canada, so I purchased an upper on the Montreal sleeper ... a bit of misguided economy because once aboard the train I had to pay for another upper in order to accommodate my collection of luggage. The Skinners have ever, I believe, been respectable, God-fearing folk, but in those days my family made up for the lack of a skeleton in the closet by having extremely disreputable-looking luggage. Mother, the most exquisite of women, was fastidious to a degree when it came to the care of her clothes and mine, but she didn't care what she packed them in as long as the receptacle was clean. Consequently on this, the occasion of my first long trip on my own, she had, with loving care and acres of tissue-paper, stowed my effects in an assortment of containers that ranged from a canvas trunk Father had used when he played at Dalys, to a patent leather thing for hats that looked like a cover for a bass drum. There was a strap-bound straw affair known for some reason as a telescope, and various other oddments. I was made to carry my good coat the one in which I traveled was my every day on a stout hanger in a voluminous

green dress-bag which had a hole at the top and through that emerged the hook for hanging It up. It was a formidable looking contrivance and I used to glance nervously at that hook, half anticipating the sight of a human eye impaled upon it..
