The Competition Car Data Logging Manual -

Graham Templeman 2008

At last. A practical handbook on how to choose and operate datalogging equipment and get the full benefit from what it tells you. Aimed at the amateur competitor, it covers hardware and software and takes over where the manufacturers instructions run out. It shows how to understand what the data is telling you and how to use it to go faster. It covers standard information screens and shows you how to create your own charts and tables that will illuminate the performance of both the car, the driver and the team. On the

way, it deals with systems management issues, how to get the quick and easy payoffs, and how to benefit in the long term. It explains how sensors work, how to fit them so they survive and to calibrate them. The final chapter is a Field Guide designed to help you run the system, trouble-shoot hardware and software problems and quickly interpret the output of the graphs under pressure during an event.

BRM V16 - Karl Ludvigsen 2007-02

There was a vast difference between the BRM and any other car I'd yet driven. When I opened the throttle, even at high speeds in top gear, the whole thing shuddered with a frightening surge of

power. It could spin its wheels effortlessly at speeds equal to many other cars' maximum. It was doing 187 on the straight at Monza, which was too quick for a car that didn't handle. If you let the revs drop much below 9000 the car just wouldn't go at all." Sir Stirling Moss.

Subaru Impreza - Brian Long 2006

Perceived as a replacement for the long running Leone, the Impreza quickly gained a great reputation through Subaru's successful WRC program. This book covers the full story of the Impreza, from concept through to the current production car, looking at the rally machines

along the way, and illustrated throughout with contemporary material. Now with over 400 mainly color pictures and significant additional text, this is a fantastic warts and all account of an amazing car.

[Hot Rod and Stock Car Racing](#) - Richard John Neil 2008-08-15

Covers the continued development of short oval motor racing in the UK. At the top level of the sport, cars became more sophisticated and expensive, which led to the introduction of new

classes to cater to drivers who no longer had the budget to compete at this level. Promoters continued to work with each other and there was a regular interchange of drivers across the country – not only at major championship events but also in one-off team meetings. Over ninety never-before-published photos and championship listings complement the evocative text. Complete with 100 nostalgic pictures from racing throughout the decade, and a comprehensive listing of major championship dates, venues and winners.

Ford Escort RS Cosworth & World Rally Car -

Graham Robson 2008-12-15

The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car

took over in 1997, and also enjoyed years of success.

Parker's Cars - Aaron Gold 2015-08-06

'Ello, there. It will come as no surprise that yours truly is a big fan of cars. Over the years I've got together facts and figures on all the greatest motors and stuck them in this 'ere scrapbook - one car for every year since they made FAB1, the greatest car of all time. Course I would say

that, bein' its driver an' all, but it's not every car that can shoot criminals and swim 'appily along in the Mediterranean. They made FAB1 in 1965, and since then there 'ave been some real beauties, like the Lamborghini Countach, Ford Thunderbird Turbo Coupe and Bugatti Veyron Super Sport. You gotta love 'em - specially when I tell you all the history and technical stuff what's gone into 'em.
