*A Social History of Economic Decline* - John T. Cumbler 1989

Nineteenth-century Trenton, New Jersey, was a booming commercial and manufacturing center for iron, rubber, steel cables, machine tools, and pottery. Trenton's golden age lasted until the 1920s, when many local industries were bought out by national companies. The story of the subsequent social, political, and economic decline of Trenton is also the story of twentieth-century urban America. John Cumbler analyzes the decline of Trenton in terms of the transition from civic capitalism to national capitalism.

**Monte Carmelo** - Anthony L. LaRuffa 2021-12-17

First Published in 1988. There are somewhat fewer than 12,000,000 Italian-

Americans of both single ancestry and multiple ancestry living in the United States. They comprise 5.3 percent of the total population. This is a study of one particular segment of the larger metropolitan region. Located in the central part of the Bronx, Monte Carmelo's beginning as an Italian-American community dates back to the last decade of the nineteenth century when immigrants from southern Italy and Italian-Americans from neighborhoods in New York City began moving in. **Contemporary Racial and Ethnic Relations** - Charles Jaret 1995

This text takes an in-depth look at today's most important racial and ethnic relations issues, especially inequality and cultural pluralism. Topics and discussions reflect the progression of ideas and understandings about racial and ethnic relations. This progressive approach allows for coverage of the important "classic" research and views and for an emphasis on new and emerging perspectives.

Aldeanos urbanos - Herbert J., Gans 2015

Aldeanos urbanos describe la vida de los italoamericanos en el West End de Boston a comienzos de los años sesenta, en un periodo de transición en el que empiezan a manifestarse procesos de movilidad social desde la clase baja hacia la clase media. Mediante un trabajo de campo basado en la observación participante y con gran material proveniente de entrevistas a informadores privilegiados, especialmente a responsables de las instituciones del barrio y a políticos y gestores del ayuntamiento, Herbert J. Gans realiza un exhaustivo estudio de comunidad en el que se describen valores y comportamientos que permiten comprender la relación de la clase baja con las otras clases sociales y en especial la dificultad para defender los intereses de aquella frente a los poderes públicos dominados por la clase media. Según la tesis defendida por Gans, las propias características culturales suponen un cierto retraso en esa movilidad social en relación con otros inmigrantes como serían los irlandeses o los judíos, considerados como un grupo. Para los habitantes del barrio analizado, al igual que para muchos estadounidenses, la comunidad es básicamente un conjunto de personas e instituciones cuyo fin es servir y proteger a la familia y al grupo de iguales. Precisamente el presente título trata sobre esa gran parte de la clase trabajadora que está más volcada en la familia y la comunidad que en el trabajo. Considerada como un clásico en las universidades estadounidenses, Aldeanos urbanos produjo un fuerte impacto sobre los movimientos renovadores del planeamiento urbano, al demostrar la incongruencia de algunas políticas urbanísticas capaces de destruir un barrio en el que existía una comunidad de clase trabajadora cohesionada.
