Spiderlight - Adrian Tchaikovsky 2016-08-02

The Church of Armes of the Light has battled the forces of Darkness for as long as anyone can remember. The great prophecy has foretold that a band of misfits, led by a high priestess will defeat the Dark Lord Darvezian, armed with their wits, the blessing of the Light and an artifact stolen from the merciless Spider Queen. Their journey will be long, hard and fraught with danger. Allies will become enemies; enemies will become allies. And the Dark Lord will be waiting, always waiting... Spiderlight is an exhilarating fantasy quest from Adrian Tchaikovsky, the author of Guns at Dawn and the Shadows of the Apt series. Reviews and quotes "Spiderlight is a creepy-crawly treat from the master of non-human heroes, a joy from beginning to end." — Paul Cornell, author of Witches of Lychford and The Severed Streets "[Spiderlight] is a master class in subverting our expectations to surprise, engage, and deliver a fantastic story that works even when it isn't pulling the rug out from under us." — Barnes & Noble Sci-Fi and Fantasy Blog "Tchaikovsky clearly has a great deal of talent, and a real handle on the fantasy genre, with the ability to splice in different influences almost seamlessly." —SciFi Now Magazine "Occasionally a fantasy author comes up with a way to break the mould of traditional genre tropes: M. John Harrison's Viriconium and China Mieville's Perdido Street Station are two examples that immediately spring to mind. Tchaikovsky looks like a new addition to that select hall of fame." —Death

Ray Magazine "Working in a small space, Tchaikovsky gives us sympathetic characters, real moral dilemmas, and emotional depth, all shot through with a sly humor that kept me grinning throughout. If, like me, you're a D&D fan who always wondered about the ethics of Detect Evil or what the orcs eat in Mordor, you will love this one." — Django Wexler, author of the Shadow Campaigns series "Subversive and classic, Spiderlight is a timeless adventure cranked up for the modern era of readers. A warship-rocker of an adventure, Adrian Tchaikovsky has struck another literary goldmine that's perfect for readers to dive into. Gripping and highly recommended." — Jeremy Szal, Starship Sofa "Spiderlight is a rip-roaring, old-fashioned heroic fantasy romp that also messes playfully with some of the genre's more outdated conventions... a breathless rush that never outstays its welcome." — Dirge Mag "Spiderlight will take you on a ride directly through straight fantasy and into the realms of the really fantastic... a brilliantly original novel." — Geek Syndicate "A must-read for all fans of fantasy. Very highly recommended." — Civilian Reader "In a world of large epic fantasy series with mushy pacing and a lack of focus, Spiderlight is as sharp as a spider's fang, as tight as its webbing, and as multifaceted as its gaze." — Skiffy & Fanty "A very fun, creepy quest tale with some quirky and engaging adventurers." — Bull Spec At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

*Eclipse: Living in the Shadow of China's Economic Dominance* - Arvind Subramanian 2011

By most accounts, China has quickly grown into the second largest economy in the world. In this controversial new book, Subramanian argues that China has already become the most economically dominant country in the world in terms of wealth, trade and finance. Its dominance and eclipsing of US global economic power is more imminent, more broad-based and larger in magnitude than anyone has anticipated. Subramanian compares the economic dominance of China with that of the two previous economic superpowers--the United States and the United Kingdom--and highlights similarities and differences. One corollary is that the fundamentals are strong for the Chinese currency to replace the dollar as the world's reserve currency. The final chapter forecasts how the international economic system is likely to evolve as a result of Chinese dominance.

*Abraham Abulafia's Esotericism* - Moshe Idel 2020-10-12

This book focuses on Abraham Abulafia's esoteric thought in relation to Maimonides, Maimonideans, and Islamic thought in the line of Leo Strauss' theory of the history of philosophy. A survey of Abulafia's sources leads into an analysis of the esoteric meaning on the famous parable of the three rings, considering also the possible connection between this parable, which Abulafia inserted into a book dedicated to his student, the 13th century rabbi Nathan the wise, and the Lessing's Play "Nathan the Wise." The book also examines Abulafia's universalistic understanding of the nature of the Bible, the Hebrew language, and the people of Israel (or the Sinaic revelation). The universal aspects of Abulafia's thought have been put in relief against the more widespread Kabbalistic views which are predominantly particularistic. A number of texts have also been identified here for the first time as authored by Abulafia.

*Eccles to English, 1* - Michael Creighton Coles 1980

**Spain, a Global History** - Luis Francisco Martinez Montes 2018-11-12

From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high

peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense-the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system-but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing Don Quixote, Velázquez was painting Las Meninas, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this

book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

#### David Mitchell's Post-Secular World - Rose Harris-Birtill 2019-01-10

Since the publication of *Ghostwritten* (1999), David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century. In this landmark study, Rose Harris-Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing. Covering Mitchell's complete fictions, from bestselling novels such as *Cloud Atlas* (2004), *The Bone Clocks* (2014) and *number9dream* (2001), to his short stories and his libretti for the operas *Sunken Garden* and *Wake*, this book examines how Buddhist influences inform the ethical worldview that permeates his writing. Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world, Harris-Birtill positions Mitchell as central to a new generation of post-secular writers who re-examine the vital role of belief in galvanizing action amidst contemporary ecological, political and humanitarian crises. *David Mitchell's Post-Secular World* features two substantial new interviews with the author, a chronology of his fictions and a selected bibliography of important critical writings on his work.

#### *Achieving Educational Excellence* - Alexander W. Astin 1985-04-30

#### **Gilbert Simondon and the Philosophy of the Transindividual** - Muriel Combes 2012-10-12

An accessible yet rigorous introduction to the influential French philosopher Gilbert Simondon's philosophy of individuation. Gilbert Simondon (1924-1989), one of the most influential contemporary French philosophers, published only three works: *L'individu et sa genèse physico-biologique* (The individual and its physico-biological genesis, 1964) and

L'individuation psychique et collective (Psychic and collective individuation, 1989), both drawn from his doctoral thesis, and Du mode d'existence des objets techniques (On the mode of existence of technical objects, 1958). It is this last work that brought Simondon into the public eye; as a consequence, he has been considered a “thinker of technics” and cited often in pedagogical reports on teaching technology. Yet Simondon was a philosopher whose ambitions lay in an in-depth renewal of ontology as a process of individuation—that is, how individuals come into being, persist, and transform. In this accessible yet rigorous introduction to Simondon's work, Muriel Combes helps to bridge the gap between Simondon's account of technics and his philosophy of individuation. Some thinkers have found inspiration in Simondon's philosophy of individuation, notably Gilles Deleuze and Félix Guattari. Combes's account, first published in French in 1999, is one of the only studies of Simondon to appear in English. Combes breaks new ground, exploring an ethics and politics adequate to Simondon's hypothesis of preindividual being, considering through the lens of transindividual philosophy what form a nonservile relation to technology might take today. Her book is essential reading for anyone who wants to understand Simondon's work.

*La Formación Docente* - Rafael Lucio Gil 2018

**Dykes to Watch Out for** - Alison Bechdel 1986

Grin, giggle, and guffaw your way through this celebrated cartoonist

**Otherness in Hispanic Culture** - Teresa Fernandez Ulloa 2014-06-26

This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th, 20th and 21st centuries, and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America. The majority of the chapters are concerned with ‘otherness’ in its various dimensions; the alien Other – foreign, immigrant, ethnically different, disempowered, female or minor – as well as the Other of different sexual orientation and/or ideology. Following Octavio Paz, otherness is expressed as the attempt to find the lost object of desire, the frustrating endeavour

of the androgynous Plato wishing to embrace the other half of Zeus, who in his wrath, tore off from him. Otherness compels human beings to search for the complement from which they were severed. Thus a male joins a female, his other half, the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection, formerly altered by divine will. As a result of this transformation, one can annul the distance that keeps us away from that which, not being our own, turns into a source of anguish. The clashing diversity of all things requires the human predisposition to accept that which is different. Such a predisposition is an expression of epistemological, ethical and political aperture. The disposition to co-exist with the different is imagined in the de-anthropocentricization of the bonds with all living realms. And otherness is, in some way, the reflection of sameness (mismidad). The other is closely related to the self, because the vision of the other implies a reflection about the self; it implies, consciously or not, a relationship with the self. These topics are addressed in this book from an interdisciplinary perspective, encompassing arts, humanities and social sciences.

**Closing the Cancer Divide** - Felicia Marie Knaul 2012-12-17

Cancer has become a leading cause of death and disability and a serious yet unforeseen challenge to health systems in low- and middle-income countries. A protracted and polarized cancer transition is under way and fuels a concentration of preventable risk, illness, suffering, impoverishment from ill health, and death among poor populations. Closing this cancer divide is an equity imperative. The world faces a huge, unperceived cost of failure to take action that requires an immediate and large-scale global response. Closing the Cancer Divide presents strategies for innovation in delivery, pricing, procurement, finance, knowledge-building, and leadership that can be scaled up by applying a diagonal approach to health system strengthening. The chapters provide evidence-based recommendations for developing programs, local and global policy-making, and prioritizing research. The cases and frameworks provide a guide for developing responses to the challenge of cancer and other chronic illnesses. The book summarizes results of the Global Task Force

on Expanding Access to Cancer Care and Control in Developing Countries, a collaboration among leaders from the global health and cancer care communities worldwide, originally convened by Harvard University. It includes contributions from civil society, global and national policy-makers, patients and practitioners, and academics representing an array of fields.

**Media Multitasking Among American Youth** - Ulla Goette Foehr 2006

*Mooncop* - Tom Gauld 2021-03-03

The Guardian cartoonist relates the daily deadpan adventures of the last policeman living on the moon "Living on the moon...Whatever were we thinking? ...It seems so silly now." The lunar colony is slowly winding down, like a small town circumvented by a new super highway. As our hero, the Mooncop, makes his daily rounds, his beat grows ever smaller, the population dwindles. A young girl runs away, a dog breaks off his leash, an automaton wanders off from the Museum of the Moon. Each day that the Mooncop goes to work, life gets a little quieter and a little lonelier. As in Goliath, Tom Gauld's retelling of the Bible story, the focus in Gauld's science fiction is personal—no big explosions or grand reveals, just the incremental dissolution of an abandoned project and a person's slow awakening to his own uselessness. Depicted in the distinctive, matter-of-fact style of his beloved Guardian strips, Mooncop is equal parts funny and melancholy. Gauld captures essential truths about humanity, making this a story of the past, present, and future, all in one.

**Francisco de Quevedo and the Neostoic Movement** - Henry Ettinghausen 1972

**Poemas de amor / Love Poems** - Idea Vilariño 2020-10-06

Eight years before Sylvia Plath published *Ariel*, the Uruguayan poet Idea Vilariño released *Poemas del Amor*, a collection of confessional, passionate poetry dedicated to the novelist Juan Carlos Onetti. Both of her own merit and as part of the Uruguayan writers group the Generation of '45—which included Onetti, Mario Benedetti, Amanda Berenguer, and Ida Vitale—Vilariño is an essential South American poet, and part of a long

tradition of Uruguayan women poets. Vilariño and Onetti's love affair is one of the most famous in South American literature. *Poemas del Amor* is an intense book, full of poems about sexuality and what it means to be a woman, and stands as a testament to both the necessity and the impossibility of love. This translation brings these highly personal poems to English speaking audiences for the first time side-by-side with the original Spanish language versions. THE WITNESS I don't ask you for anything don't accept anything from you. It's enough that you are in the world that you know I am in the world that you might be To me, you might be witness judge and god. If not what is it for.

**The Hearing Trumpet** - Leonora Carrington 2021-01-05

An old woman enters into a fantastical world of dreams and nightmares in this surrealist classic admired by Björk and Luis Buñuel. Leonora Carrington, painter, playwright, and novelist, was a surrealist trickster par excellence, and *The Hearing Trumpet* is the witty, celebratory key to her anarchic and allusive body of work. The novel begins in the bourgeois comfort of a residential corner of a Mexican city and ends with a man-made apocalypse that promises to usher in the earth's rebirth. In between we are swept off to a most curious old-age home run by a self-improvement cult and drawn several centuries back in time with a cross-dressing Abbess who is on a quest to restore the Holy Grail to its rightful owner, the Goddess Venus. Guiding us is one of the most unexpected heroines in twentieth-century literature, a nonagenarian vegetarian named Marian Leatherby, who, as Olga Tokarczuk writes in her afterword, is "hard of hearing" but "full of life."

Forbidding and proud, Duncan MacKenzie wanted only one thing from his new bride -- to use her special gift to determine if young Robbie was truly his son. He never expected the MacDonnell lass to stubbornly follow her heart, chase away the darkness in his castle with light and laughter, and ignite a raging fire in his blood. How dare she defy him, and tempt a devil like him to feel what he feared most of all --- love!

*What We See When We Read* - Peter Mendelsund 2014-08-05

A San Francisco Chronicle and Kirkus Best Book of the Year A gorgeously unique, fully illustrated exploration into the phenomenology of reading—how we visualize images from reading works of literature, from one of our very best book jacket designers, himself a passionate reader. What do we see when we read? Did Tolstoy really describe Anna Karenina? Did Melville ever really tell us what, exactly, Ishmael looked like? The collection of fragmented images on a page—a graceful ear there, a stray curl, a hat positioned just so—and other clues and signifiers helps us to create an image of a character. But in fact our sense that we know a character intimately has little to do with our ability to concretely picture our beloved—or reviled—literary figures. In this remarkable work of nonfiction, Knopf's Associate Art Director Peter Mendelsund combines his profession, as an award-winning designer; his first career, as a classically trained pianist; and his first love, literature—he considers himself first and foremost as a reader—into what is sure to be one of the most provocative and unusual investigations into how we understand the act of reading.

*Cultures of Anti-racism in Latin America and the Caribbean* - Peter Wade 2019

Latin America's long history of showing how racism can co-exist with racial mixture and conviviality offers useful ammunition for strengthening anti-racist stances. This volume asks whether cultural production has a particular role to play within discourses and practices of anti-racism in Latin America and the Caribbean. The contributors analyse music, performance, education, language, film and art in diverse national contexts across the region. The book also places Latin American and Caribbean racial formations within a broader global context and sets out the premise that the region provides valuable opportunities for thinking about anti-racism when recent political events have made ever more fragile the claims that, at least in Europe and the United States, we exist in a 'post-racial' world.

*Bibliography and the Sociology of Texts* - D. F. McKenzie 1999-09-16  
D.F. McKenzie shows how the material form of texts crucially determine their meanings. He demonstrates that as works are reproduced and reread, they take on different forms and meanings. This is true of all forms of recorded information, McKenzie claims, including sound, graphics, films, landscape and new electronic media. The bibliographical skills first developed for manuscripts and books can, he shows, be applied to a wide range of cultural documents. This book offers a unifying concept of texts that seeks to acknowledge their variety and the complexity of their relationships.
