

Americas and Africa. No other book covers such a wide breadth of multicultural coverage coupled with a clear, concise and engaging writing style. Striking images from fine art, cartoons, poetry, movies, current events and popular music illustrate our diverse cultural inheritance and bring the issues of philosophy to life. This edition's theme of personhood is addressed in the Confucian Socially Molded Self, discussions about who is and who is not a citizen in a republic, the construction of a planned city and the question of whether other animals do or should enjoy personhood. Back To The Roots - Luke Coutinho 2021-08-23

What are the benefits of the Indian squat? Why do Indians touch the feet of their elders? These and many such ancient rituals and tradition are a part of our growing up, and in the absence of modern scientific certification, it is convenient to dub them as myths. But observation and deductive reasoning have proved to be the bedrock of these age-old and time-tested practices. In *Back to the Roots*, Luke Coutinho and Tamannaah offer the rationale behind over 100 such practices that go a long way in promoting long-term wellness. Learn about traditional Indian recipes, superfoods and tips that provide solutions to a host of ailments like constipation, acidity and even fever. Join us on this valuable journey to resurrect our ancient knowledge and learn how inexpensive it is to invest in our lifestyles, improve our health, prevent diseases, improve longevity and the quality of our lives.

Roots of Wisdom - Helen B. Mitchell 1995

This text explores the basic questions that concern philosophers from an integrated, multicultural/feminist approach. The author encourages students to think of philosophy as an intellectually challenging and culturally stimulating way of thinking about life.

Ancestral Medicine - Daniel Foor 2017-07-11

A practical guide to connecting with your ancestors for personal, family, and cultural healing • Provides exercises and rituals to help you initiate contact with your ancestors, find ancestral guides, and assist the dead who are not yet at peace • Explains how to safely engage in lineage repair work by connecting with your

more ancient ancestors before relating with the recently deceased • Explores how your ancestors can help you transform intergenerational legacies of pain and abuse and reclaim the positive spirit of the family Everyone has loving and wise ancestors they can learn to invoke for support and healing. Coming into relationship with your ancestors empowers you to transform negative family patterns into blessings and encourages good health, self-esteem, clarity of purpose, and better relationships with your living relatives. Offering a practical guide to understanding and navigating relationships with the spirits of those who have passed, Daniel Foor, Ph.D., details how to relate safely and effectively with your ancestors for personal, family, and cultural healing. He provides exercises and rituals, grounded in ancient wisdom traditions, to help you initiate contact with your ancestors, find supportive ancestral guides, cultivate forgiveness and gratitude, harmonize your bloodlines, and assist the dead who are not yet at peace. He explains how to safely engage in lineage repair work by connecting with your more ancient ancestors before relating with the recently deceased. He shows how, by working with spiritually vibrant ancestors, individuals and families can understand and transform intergenerational patterns of pain and abuse and reclaim the full blessings and gifts of their bloodlines. Ancestral repair work can also catalyze healing breakthroughs among living family members and help children and future generations to live free from ancestral burdens. The author provides detailed instructions for ways to honor the ancestors of a place, address dream visits from the dead, and work with ancestor shrines and altars. The author offers guidance on preparing for death, funeral rites, handling the body after death, and joining the ancestors. He also explains how ancestor work can help us to transform problems such as racism, sexism, homophobia, and religious persecution. By learning the fundamentals of ancestor reverence and ritual, you will discover how to draw on the wisdom of supportive ancestral guides, heal family troubles, maintain connections with beloved family after their death, and better understand the complex and interconnected relationship between the living and the dead.

Hidden Wisdom - Gedaliahu A. Guy Stroumsa 2005

This book investigates the problem of esoteric traditions in early Christianity, their origin and their transformation in Patristic hermeneutics, in the West as well as in the East. It argues that these traditions eventually formed the basis of nascent Christian mysticism in Late Antiquity. These esoteric traditions do not reflect the influence of Greek Mystery religions, as has often been claimed, but rather seem to stem from the Jewish background of Christianity. They were adopted by various Gnostic teachings, a fact which helps explaining their eventual disappearance from Patristic literature. The eleven chapters study each a different aspect of the problem, including the questions of Gnostic and Manichaean esotericism. This book will be of interest to all students of religious history in Late Antiquity. Revised and extended paperback edition. Originally published in 1996. Please click here for details.

The House of Wisdom - Jim Al-Khalili 2011-03-31

A myth-shattering view of the Islamic world's myriad scientific innovations and the role they played in sparking the European Renaissance. Many of the innovations that we think of as hallmarks of Western science had their roots in the Arab world of the middle ages, a period when much of Western Christendom lay in intellectual darkness. Jim al-Khalili, a leading British-Iraqi physicist, resurrects this lost chapter of history, and given current East-West tensions, his book could not be timelier. With transporting detail, al-Khalili places readers in the hothouses of the Arabic Enlightenment, shows how they led to Europe's cultural awakening, and poses the question: Why did the Islamic world enter its own dark age after such a dazzling flowering?

📖 : 📖 - 📖 2017

One of China's top ten poets observes nature, relationships and self in powerful and moving lyrics.

Roots of Wisdom Pkg - Adrian Mitchell 2008-01-01

Vegetable Roots Discourse - Hong Zicheng 2007-04-03

Written 400 years ago by a scholar in the Ming Dynasty, one hundred years after Columbus and around the time

Shakespeare completed Henry VI, accomplished scholar and philosopher Hong Zicheng retired from public life and settled down to write an informal compilation of his thoughts on the essence of life, human nature, and heaven and earth. Though he wrote other books as well, only this one has survived—thanks largely to its continuous popularity, first in China and later in Japan and Korea. Entitled *Caigentan* (Vegetable Roots Discourse), this book has been studied and cherished for four hundred years. Terse, humorous, witty, and, above all, timely, this book offers a provocative and personal mix of Daoist, Buddhist, and Confucian understanding. It contains 360 observations that lead us through paths as complex, absurd, and grotesque as life itself. While it has been translated into many languages, this comprehensive version will immediately become the standard edition for generations of English readers to come.

Roots of World Wisdom - Helen Buss Mitchell 1998

This book collects edited readings from a very wide range of philosophical and cultural perspectives. The readings are purposely selected to be interesting and accessible to all levels of students. While designed to accompany Mitchell's text, *THE ROOTS OF WISDOM*, it can be used with any introductory text.

Roots of Wisdom - Helen Buss Mitchell 2008

ROOTS OF WISDOM invites you to explore many thought-provoking insights of critical philosophical inquiry. No other book offers such breadth of multicultural coverage coupled with the clear, concise, and approachable writing style that Mitchell offers. Women philosophers and non-Western philosophies are integrated throughout as they relate to the canon. Mitchell uses popular culture to illustrate timeless philosophical problems, using extremely accessible examples of cartoons, poetry, movies, and references to popular music that bring the issues of philosophy to life. This new edition further integrates the multicultural themes and non-Western perspectives with greater attention paid to the Peoples

of the Americas thread and a broadened focus on non-Western concepts of reality.

Study Guide for Mitchell's Roots of Wisdom, 4th - Adrian Mitchell 2004

Contains vocabulary and "grammar" sections, study suggestions, and practice questions to help students prepare for quizzes and tests, and to help them in their overall approach to philosophy.

Roots of Wisdom, Branches of Devotion - Fabrizio M. Ferrari 2016

Plant life has figured prominently in Indian culture. Archaeobotanical findings and Vedic texts confirm that plants have been central not only as a commodity (sources of food; materia medica; sacrificial matter; etc.) but also as powerful and enduring symbols. *Roots of Wisdom, Branches of Devotion: Plant Life in South Asian Traditions* explores how herbs, trees, shrubs, flowers and vegetables have been studied, classified, represented and discussed in a variety of Indian traditions such as Vedism, Hinduism, Jainism, Buddhism, indigenous cultures and Islam. Moving from an analysis of the sentience of plants in early Indian philosophies and scientific literature, the various chapters, divided in four thematic sections, explore Indian flora within devotional and mystic literature (bhakti and Sufism), mythological, ritual and sacrificial culture, folklore, medicine, perfumery, botany, floriculture and agriculture. Arboreal and floral motifs are also discussed as an expression of Indian aesthetics since early coinage to figurative arts and literary figures. Finally, the volume reflects current discourses on environmentalism and ecology as well as on the place of indigenous flora as part of an ancient yet still very much alive sacred geography.

Study Guide for Roots of Wisdom - Helen Buss Mitchell 1998-07-10

Contains vocabulary and grammar sections, study suggestions, and practice questions to help students prepare for quizzes and tests, and to help them in their overall approach to philosophy.
