The Art of Being Human -

Michael Wesch 2018-08-07

Anthropology is the study of all
humans in all times in all
places. But it is so much more
than that. "Anthropology
requires strength, valor, and
courage," Nancy Scheper-
Hughes noted. "Pierre
Bourdieu called anthropology a
combat sport, an extreme sport
as well as a tough and rigorous
discipline. ... It teaches
students not to be afraid of
getting one's hands dirty, to
get down in the dirt, and to
commit yourself, body and
mind. Susan Sontag called
anthropology a "heroic"
profession." What is the payoff
for this heroic journey? You
will find ideas that can carry
you across rivers of doubt and
over mountains of fear to find

on by @guest

the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters. [Social Entrepreneurship](#) - Alex Nicholls 2008-04-03 'Social Entrepreneurship' is a term that has come to be applied to the activities of grass-roots activists, NGOs, policy makers, international institutions, and corporations, amongst others, which address a range of social issues in

innovative and creative ways. Themed around the emerging agendas for developing new, sustainable models of social sector excellence and systemic impact, [Social Entrepreneurship](#) offers, for the first time, a wide-ranging, internationally-focused selection of cutting-edge work from leading academics, policy makers, and practitioners. Together they seek to clarify some of the ambiguity around this term, describe a range of social entrepreneurship projects, and establish a clear set of frameworks with which to understand it. Included in the volume are contributions from Muhammad Yunus, winner of the 2006 Nobel Peace Prize and the father of microfinance, Geoff Mulgan, former head of the British prime minister's policy unit, and Bill Drayton, founder of the Ashoka network of social entrepreneurs. Jeff Skoll, founder of the Skoll Foundation, and first president of eBay, provides a preface. Alex Nicholls provides a substantial new preface to this

paperback edition, reflecting on the latest developments in the study and practice of social entrepreneurship.

Inventing the Cloud Century

- Marcus Oppitz 2017-08-03

This book combines the three dimensions of technology, society and economy to explore the advent of today's cloud ecosystems as successors to older service ecosystems based on networks. Further, it describes the shifting of services to the cloud as a long-term trend that is still progressing rapidly. The book adopts a comprehensive perspective on the key success factors for the technology - compelling business models and ecosystems including private, public and national organizations. The authors explore the evolution of service ecosystems, describe the similarities and differences, and analyze the way they have created and changed industries. Lastly, based on the current status of cloud computing and related technologies like virtualization, the internet of things, fog

computing, big data and analytics, cognitive computing and blockchain, the authors provide a revealing outlook on the possibilities of future technologies, the future of the internet, and the potential impacts on business and society.

Amnesty International Report 2015/2016 - Amnesty

International 2016-07-26

Challenging Chains to Change - Anna Laven 2012

Very often, efforts to improve value chains miss out half of the population - the female half. It is men who sell the products and who keep the money from those sales. The women, who do much of the work but are not recognized for it, often have to work even harder to meet ever-increasing quality requirements. But they see few of the benefits. How to change this? This book explains how development organizations and private entrepreneurs have found ways to improve the position of women in value chains - especially small scale women farmers and primary

Downloaded from
sixideasapps.pomona.edu

on by @guest

processors. It outlines five broad strategies for doing this: (1) working with women on typical "women's products" such as shea, poultry and dairy; (2) opening up opportunities for women to work on what are traditionally "men's commodities" or in men's domains; (3) supporting women and men in organizing for change by building capacity, organization, sensitization and access to finance; (4) using standards and certification to promote gender equity, and (5) promoting gender-responsible business. The book draws on dozens of cases from all over the world, covering a wide range of crops and livestock products. These include traditional subsistence products (such as rice), small-scale cash items (honey, vegetables) as well as export commodities (artichokes, coffee) and biofuels (jatropha). The book includes a range of tools and methodologies for analyzing and developing value chains with gender in mind. By bringing together the two

fields of gender and value chains, this book offers a set of compelling arguments for addressing gender in value chain development.

RRB Non-Technical / Clerical Cadre - V.V.K. Subburaj 2006

India's Maritime Strategy - SHISHIR. UPADHYAYA 2021-07-02

The first book by a former Indian naval intelligence officer on Sino-India relations, India's Maritime Strategy provides a unique insight into the Indian Navy, tracing its post-independence growth and discussing its transformation and future in the 21st century. In the context of the rise of China's maritime power in the Indian Ocean, this book provides a nuanced view of the extent and scope of India's maritime reach and the effect of this on Sino-Indian competition. Challenging the view that by developing a favourable environment alone, India could seek to maintain its balance of power with China, it is argued that despite durable

Downloaded from
sixideasapps.pomona.edu
on by @guest

bilateral security ties with most regional states, India's maritime aspirations to be the primary net security provider for the region are unsustainable in the long term. This book presents a comprehensive coverage of India's bilateral maritime security engagements with all the Indian Ocean regional states, as well as the US, France, UK and Russia. As such, it will be useful to students and scholars of Indian and South Asian politics, international relations and maritime security.

Plastics Waste Management

- Nabil Mustafa 1993-04-28
This volume discusses the structure and growth of the plastics industry, comprehensively displaying the complete cycle of plastics from raw materials to waste and solutions related to this waste - presenting practical cost scenarios for the collection and disposal of waste.;Examining the issue of plastics waste in a broad social and environmental context, *Plastics Waste Management*: considers the

regulations imposed on waste disposal and aspects of pollution control acts; provides a technical overview of polymers, classifications, and properties as well as the plastics industry, polymer production, and consumption; addresses extrusion basics and polymers' compatibility in a mixture of plastic waste; describes the recycling of mixed plastics waste; and explores design considerations and product life cycles with respect to environmentally friendly products in packaging applications.;Furnishing more than 400 bibliographic citations, *Plastics Waste Management* is a reference for pollution control, plastics, environmental, polymer and chemical engineers; recycling facility operators; plastics designers; and upper-level undergraduate and graduate students in these disciplines.

Unintended Consequences -

Edward Conard 2013-04-30
Was our country's economic success before the Crash of '08 built on false pretenses? Did we simply borrow and spend

Downloaded from
sixideasapps.pomona.edu
on by @guest

too much, or was something else really going on? The conventional wisdom now accuses Wall Street and the mortgage industry of using predatory tactics to seduce homeowners. Meanwhile, average Americans are blamed for increasing consumption to unsustainable levels by borrowing recklessly. And the tax policies of the Reagan and Bush administrations are blamed for encouraging reckless risk-taking. Edward Conard disagrees. In an attempt to set the record straight he presents a fascinating new case for how the economy really works, why the U.S. has outperformed other countries, what caused the financial crisis, and what improvements might better protect our economy without damaging growth.

Faith, Unity, Discipline - Hein Kiessling 2016-11-15

Established in the wake of the Indo-Pakistani War of 1947-8 by the Australian army officer Major-General Walter Cawthorne, then Deputy Chief of Staff in the Pakistan Army,

Pakistan's Inter-Services Intelligence (ISI) for years remained an under-developed and obscure agency. In 1979, the organisation's growing importance was felt during the Soviet war in Afghanistan, as it worked hand in glove with the CIA to support the mujahideen resistance, but its activities received little coverage in news media. Since that time, the ISI has projected its influence across the region in 1988 its involvement in Indian Kashmir came under increasing scrutiny, and by 1995 its mentoring of what became the Afghan Taliban was well attested. But it was the organisation's alleged links with Al Qaeda and the discovery of Osama bin Laden in Abbottabad, at the heart of Pakistan's military zone, that really threw it under the spotlight. These controversies and many more have dogged the ISI, including its role in Pakistan's testing of a nuclear weapon in 1998 and its links with A.Q. Khan. Offering fresh insights into the ISI as a domestic and international

actor based on intimate knowledge of its inner workings and key individuals, this startlingly original book uncovers the hitherto shady world of Pakistan's secret service.

Building Community Resilience to Disasters - Anita Chandra 2011

Community resilience, or the sustained ability of a community to withstand and recover from adversity has become a key policy issue at federal, state, and local levels, including in the National Health Security Strategy. Because resources are limited in the wake of an emergency, it is increasingly recognized that resilience is critical to a community's ability to reduce long recovery periods after an emergency. This report provides a roadmap for federal, state, and local leaders who are developing plans to enhance community resilience for health security threats and describes options for building community resilience in key areas. Based on findings from a literature review and a series

of community and regional focus groups, the authors provide a definition of community resilience in the context of national health security and a set of eight levers and five core components for building resilience. They then describe suggested activities that communities are pursuing and may want to strengthen for community resilience, and they identify challenges to implementation.

Quantitative Aptitude for Competitive Examinations - Abhijit Guha 1996

Refugees and Rights - Mary Crock 2017-05-15

Forced migration is both as ancient as human life on earth and a relatively new subject of interest for human rights scholars. This volume continues the discussion from *Migrants and Rights* to focus attention on refugees, victims of trafficking and others who cross borders seeking protection from anthropogenic or natural disasters. The opening essays provide

Downloaded from
sixideasapps.pomona.edu
on by @guest

historical and conceptual overviews of rights to freedom of movement and asylum; and links between human rights and refugee law. Articles on the principle of non-refoulement in international law explore the occasional disjuncture between the individual's right to protection and the State's rights to protect its national interests. The refugee's rights to due process and the substance of entitlements at law are explored in essays that range across administrative processes; social and cultural rights, including family reunion; detention; and the right of return. There follow four essays that address sexual orientation and refugee rights; refugees and disability rights; human rights and persons displaced by climate change disasters; and the rights of victims of human trafficking. The volume concludes with work reflecting on the rights discourse outside of traditional 'Western' theatres. These cover Africa (Kenya), India, South America (Brazil) and the Asia-

Pacific (Indonesia and Papua New Guinea).

Integrated Pest Management (IPM) for Cultural Heritage - Riksantikvarieämbetet Myndigheten 2020

The Cambridge Handbook of Corporate Law, Corporate Governance and Sustainability - Beate Sjøfjell 2019-12-12

The emerging field of corporate law, corporate governance and sustainability is one of the most dynamic and significant areas of law and policy in light of the convergence of environmental, social and economic crises that we face as a global society. Understanding the impact of the corporation on society and realizing its potential for contributing to sustainability is vital for the future of humanity. This Handbook comprehensively assesses the state-of-the-art in this field through in-depth discussion of sustainability-related problems, numerous case studies on regulatory responses implemented by jurisdictions around the world, and analyses

Downloaded from
sixideasapps.pomona.edu

on by @guest

of predominant strategies and potential drivers of change. This Handbook will be an essential reference for scholars, students, practitioners, policymakers, and general readers interested in how corporate law and governance have exacerbated global society's most pressing challenges, and how reforms to these fields can help us resolve those challenges and achieve sustainability.

Contemporary Logistics, Global Edition - Paul Regis Murphy
2017-12-20

For undergraduate and graduate courses in Logistics A dynamic foundation to the global study of contemporary logistics A market-leading text, *Contemporary Logistics* explores modern logistics from a managerial perspective. These are characterized by geopolitical tensions in parts of the world, steadily increasing trade, supply chain vulnerabilities caused by severe natural disasters, and an unabated pace of technological advancement. In it, readers see theory come to

life through timely, practical, and exciting coverage of logistics fundamentals, and challenges and opportunities for logistics managers in today's dynamic global landscape. The 12th Edition provides the most up-to-date insights and perspectives sourced from reviewers, adopters, and other stakeholders.

World Report 2020 - Human Rights Watch 2020-01-28

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

Mutiny and Leadership - Keith Grint 2021-04-15

Whenever leadership emerges within a group, there will be resistance to that leadership. Discontent may manifest in a number of ways, and action will always be determined by factors such as resource, numbers, time, space, and the legitimacy of the resistance. What, then, turns discontent into mutiny? Mutiny is often associated with the occasional mis-leadership of the masses by politically inspired hotheads, or a spontaneous and unusually romantic gesture of defiance against a uniquely overbearing military superior. In reality it is seldom either and usually has far more mundane origins, not in the absolute poverty of the subordinates but in the relative poverty of the relationships between leaders and the led in a military situation. The roots of mutiny lie in the leadership skills of a small number of leaders, and what transforms that into a constructive dialogue, or a catastrophic disaster, depends on how the

leaders of both sides mobilise their supporters and their networks. Using contemporary leadership theory to cast a critical light on an array of mutinies throughout history, this book suggests we consider mutiny as a permanent possibility that is further encouraged or discouraged in some contexts. From mutinies in ancient Roman and Greek armies to those that toppled the German and Russian states and forced governments to face their own disastrous policies and changed them forever, this book covers an array of cases across land, sea, and air that still pose a threat to military establishments today. The critical theoretical line also puts into sharp relief the assumption that oftentimes people have little choice in how they respond to circumstances not of their own making. If mutineers could choose to resist what they saw as tyranny, then so can we. *Competitive Cities in the 21st Century* - KyeongAe Choe 2011

International Management: Culture, Strategy and Behavior W/ OLC Card MP - Richard M.

Hodgetts 2005-02-16

As a discipline of academy inquiry, International Management applies management concepts and techniques to their contexts in firms working in multinational, multicultural environments.

Hodgetts' Luthans:

International Management was the first mainstream

International Management text in the market. Its 6th edition continues to set the standard for International Management texts with its research-based content and its balance

between culture, strategy, and

behavior. International

Management stresses the

balanced approach and the synergy/connection between

the text's four parts:

Environment (3 chapters):

Culture (4 chapters), Strategy

and Functions (4 chapters) and

Organizational Behavior

/Human Resource Management (4 chapters).

The Democratic Developmental State - Chris Tapscott 2018

The concept of a democratic developmental state is part of the current development discourse advocated by international aid agencies, deliberated on by academics, and embraced by policymakers in many emerging economies in the global South. This volume investigates these attempts to establish a new and more inclusive conceptualization of the state.

Trafficking in Persons - South African Law Reform Commission 2004

Global Study on Smuggling of Migrants 2018 - United Nations 2019-02

This study shows that migrant smuggling routes affect every part of the world. It is based on an extensive review of existing data and literature. The study presents detailed information about key smuggling routes, such as the magnitude, the profiles of smugglers and smuggled migrants, the modus operandi of smugglers and the risks that smuggled migrants

Downloaded from
sixideasapps.pomona.edu
on by @guest

face. It shows that smugglers use land, air and sea routes - and combinations of those - in their quest to profit from people's desire to improve their lives. Smugglers also expose migrants to a range of risks; violence, theft, exploitation, sexual violence, kidnapping and even death along many routes.

**Council of Europe
Convention Against
Trafficking in Human
Organs and Explanatory
Report** - Council of Europe
2016

Trafficking in human organs is an emerging criminal activity which presents a clear danger to both individual and public health, while breaching human rights and fundamental freedoms. The Council of Europe Convention against Trafficking in Human Organs seeks to protect individual rights by addressing this illegal act from a criminal law perspective. The Convention aims to tackle this crime both at national and international levels by harmonising national legislation, identifying the

various offences that constitute trafficking in human organs and laying down the foundation for more efficient cross-border co-operation. It also covers preventive measures and the legal situation of the victims. Wide accession to the Convention is essential in the fight against a crime that is, more often than not, transnational in scope.

Asia-Pacific Rebalance 2025

- Michael Green 2016-02-04

In 2015, Congress tasked the Department of Defense to commission an independent assessment of U.S. military strategy and force posture in the Asia-Pacific, as well as that of U.S. allies and partners, over the next decade. This CSIS study fulfills that congressional requirement.

2012-12-06

The Globalization of Crime - United Nations Office on Drugs and Crime 2010

In The globalization of crime: a transnational organized crime threat assessment, UNODC analyses a range of key transnational crime threats, including human trafficking, migrant smuggling, the illicit heroin and cocaine trades, cybercrime, maritime piracy and trafficking in environmental resources, firearms and counterfeit goods. The report also examines a number of cases where transnational organized crime and instability amplify each

other to create vicious circles in which countries or even subregions may become locked. Thus, the report offers a striking view of the global dimensions of organized crime today.

Economic Survey 2011-12 - Government of India Ministry of Finance 2012-04-24

A flagship annual document of the Ministry of Finance, Government of India, Economic Survey 2011-12 reviews the developments in the Indian economy over the past 12 months, summarizes the performance on major development programmes, and highlights the policy initiatives of the government and the prospects of the economy in the short to medium term.

Gender Equality - Walter Leal Filho 2021-01-10

The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for

Downloaded from
sixideasapps.pomona.edu
on by @guest

integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the "2030 Agenda for Sustainable Development". On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force. These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. It encompasses 17 volumes, each devoted to one of the 17 SDGs. This volume addresses SDG 5, namely "Achieve gender equality and empower all women and girls" and contains the description of a range of terms, which allows a better understanding and fosters knowledge. This SDG is considered by many as a pivotal goal since the significant role of women in achieving sustainable development has always been

acknowledged in several official UN declarations. Yet gender disparity is still rampant under various guises in various countries. Women's rights need to be strongly safeguarded through legislation to ensure equal opportunities. Concretely, the defined targets are: End all forms of discrimination against all women and girls everywhere Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation Recognize and value unpaid care and domestic work through the provision of public services, infrastructure and social protection policies and the promotion of shared responsibility within the household and the family as nationally appropriate Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in

political, economic and public life Ensure universal access to sexual and reproductive health and reproductive rights as agreed in accordance with the Programme of Action of the International Conference on Population and Development and the Beijing Platform for Action and the outcome documents of their review conferences Undertake reforms to give women equal rights to economic resources, as well as access to ownership and control over land and other forms of property, financial services, inheritance and natural resources, in accordance with national laws Enhance the use of enabling

technology, in particular information and communications technology, to promote the empowerment of women Adopt and strengthen sound policies and enforceable legislation for the promotion of gender equality and the empowerment of all women and girls at all levels Editorial Board Katarzyna Cichos, Vijaya Deshmukh, Melissa Haeffner, Sandra Hopkins, Tamara Hunt, Nerise Johnson, Chhabi Kumar, Julia Mambo, Anagha Paul, Andréia Faraoni Freitas Setti, Tony Wall Accident Investigation Manual - Northwestern University (Evanston, Ill.).
