Corporations Law - Jeswynn Yogaratnam 2016-10-13

Corporations Law: In Principle, 10th edition, continues its tradition of being one of the most easy to understand texts on corporate law in Australia. Since the last edition, there have been many significant developments in both legislation and case law as a result of a range of government reviews and administrative changes.

The New Lawyer - Nickolas James 2018-09-14

Outlines what law students should be able to understand and do after finishing their first year of study. Features in-chapter exercises requiring students to 'think', 'collaborate', 'rephrase' or 'research' legal concepts; Chapter vignettes 'Law in context' connect legal theory to legal precedence and legal events; Inclusion of law cases to encourage deep learning and to apply legal reasoning. -- Publisher.

No Country for Old Men - Cormac McCarthy 2007-11-29

From the bestselling, Pulitzer Prize-winning author of *The Road* comes a "profoundly disturbing and gorgeously rendered" novel (*The Washington Post*) that returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph. Look for Cormac McCarthy's new novel, *The Passenger*.

Maritime Economics - Alan Branch 2013-04-15

Now in its second edition *Maritime Economics* provides a valuable introduction to the organisation and workings of the global shipping industry. The author outlines the economic theory as well as many of the operational practicalities involved. Extensively revised for the new edition, the book has many clear illustrations and tables. Topics covered include: * an overview of international trade * Maritime Law * economic organisation and principles * financing ships and shipping companies * market research and forecasting.

Business Law and the Legal Environment, Standard Edition - Jeffrey F. Beatty 2012-01-02

BUSINESS LAW AND THE LEGAL ENVIRONMENT, 6E uses vivid examples and memorable scenarios to lead students through the full breadth of business law. Focusing on hands-on application and using a conversational writing style, this handy textbook equips students for business challenges from the first page. Plus, by showing students through practice how legal concepts apply to their future careers, *BUSINESS LAW AND THE LEGAL ENVIRONMENT, 6E* draws students into the material, helping them study more effectively and diligently. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Just Business: Multinational Corporations and Human Rights (Norton Global Ethics Series) - John

Gerard Ruggie 2013-03-25

"A true master class in the art of making the impossible possible." —Paul Polman One of the most vexing human rights issues of our time has been how to protect the rights of individuals and communities worldwide in an age of globalization and multinational business. Indeed, from Indonesian sweatshops to oil-based violence in Nigeria, the challenges of regulating harmful corporate practices in some of the world's most difficult regions long seemed insurmountable. Human rights groups and businesses were locked in a stalemate, unable to find common ground. In 2005, the United Nations appointed John Gerard Ruggie to the modest task of clarifying the main issues. Six years later, he had accomplished much more than that. Ruggie had developed his now-famous "Guiding Principles on Business and Human Rights," which provided a road map for ensuring responsible global corporate practices. The principles were unanimously endorsed by the UN and embraced and implemented by other international bodies, businesses, governments, workers' organizations, and human rights groups, keying a revolution in corporate social responsibility. *Just Business* tells the powerful story of how these landmark "Ruggie Rules" came to exist. Ruggie demonstrates how, to solve a seemingly unsolvable problem, he had to abandon many widespread and long-held understandings about the relationships between businesses, governments, rights, and law, and develop fresh ways of viewing the issues. He also takes us through the journey of assembling the right type of team, of witnessing the severity of the problem firsthand, and of pressing through the many obstacles such a daunting endeavor faced. *Just Business* is an illuminating inside look at one of the most important human rights developments of recent times. It is also an invaluable book for anyone wanting to learn how to navigate the tricky processes of global problem-solving and consensus-building and how to tackle big issues with ambition, pragmatism, perseverance, and creativity.

The Power of Place (RLE Social & Cultural Geography) - John A. Agnew 2014-01-10

Reflecting the revival of interest in a social theory that takes place and space seriously, this book focuses on geographical place in the practice of social science and history. There is significant interest among scholars from a range of disciplines in bringing together the geographical and sociological 'imaginings'. The geographical imagination is a concrete and descriptive one, concerned with determining the nature of places, and classifying them and the links between them. The sociological imagination aspires to explanation of human activities in terms of abstract social processes. The chapters in this book focus on both the intellectual histories of the concept of place and on its empirical uses. They show that place is as important for understanding contemporary America as it is for 18th-century Sri Lanka. They also show how the concept can provide insight into 'old' problems such as the nature of social life in Renaissance Florence and Venice. The editors are leading exponents of the view of place as a concept that can 'mediate' the geographical and sociological imaginings.

Social Psychology, Third Edition - Paul A. M. Van Lange 2020-10-06

This definitive work--now extensively revised with virtually all new chapters--has introduced generations of researchers to the psychological processes that underlie social behavior. What sets the book apart is its unique focus on the basic principles that guide theory building and research. Since work in the field increasingly transcends such boundaries as biological versus cultural or cognitive versus motivational

systems, the third edition has a new organizational framework. Leading scholars identify and explain the principles that govern intrapersonal, interpersonal, intragroup, and intergroup processes, in chapters that range over multiple levels of analysis. The book's concluding section illustrates how social psychology principles come into play in specific contexts, including politics, organizational life, the legal arena, sports, and negotiation. New to This Edition *Most of the book is entirely new. *Stronger emphasis on the contextual factors that influence how and why the basic principles work as they do. *Incorporates up-to-date findings and promising research programs. *Integrates key advances in such areas as evolutionary theory and neuroscience.

The World Book Encyclopedia - 2002

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Introduction to Business Law - Nickolas James 2016

Atomic Habits - James Clear 2018-10-16

The #1 New York Times bestseller. Over 4 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

The Verdict - Nick Stone 2015-12-15

Terry Flynt is a struggling legal clerk, desperately trying to get promoted. And then he is given the biggest opportunity of his career: to help defend a millionaire accused of murdering a woman in his hotel suite. The only problem is that the accused man, Vernon James, turns out to be not only someone he knows, but someone he loathes. This case could potentially make Terry's career, but how can he defend a former friend who betrayed him so badly? With the trial date looming, Terry delves deeper into Vernon's life and is forced to confront secrets from their shared past that could have devastating consequences for them both. For years he has wanted to witness Vernon's downfall, but with so much at stake, how can Terry be sure that he is guilty? And what choices must he make to ensure that justice is done?

CLEP® Principles of Marketing Book + Online - James E. Finch 2013-02-14

Earn College Credit with REA's Test Prep for CLEP® Principles of Marketing Everything you need to pass the exam and get the college credit you deserve. Business Law (Custom Edition) - ANDY. GIBSON 2018-01-30

This custom edition is published for Charles Sturt University.

The Complete Book of Personal Legal Forms - Mark Warda 2005

All of the legal forms and documents necessary to allow individuals and families to handle their own day-to-day legal problems without the need for an attorney.

59 Hours - Johnny Kovatch 2018-03-20

Real stories. Real teens. Real consequences. An innocent teen becomes a hostage stuck in the middle of a dangerous drug-fueled feud in this third book in the chilling Simon True series. On Sunday, August 6, 2000, fifteen-year-old Nick Markowitz was grabbed off the street on the orders of a local drug dealer named Jesse James Hollywood. Nick was taken as collateral because his brother Ben owed Jesse money. He was an innocent victim who became a pawn in an increasingly high-stakes feud between the two that ended with Nick's brutal murder. A dozen or more people saw Nick over the course of the next fifty-nine hours, but no one stepped forward to say anything. No one thought to report the crime to the police. Some of them were scared of Hollywood, while others simply didn't want to get involved. When the news of Nick's murder finally broke, they all had to confront what they'd done—or hadn't done. As for Hollywood, he ordered the hit, but he wasn't actually there when the murder took place. And once the story came to light, he immediately disappeared and remained a fugitive on the FBI's Most Wanted List for nearly six years before his eventual capture.

Business Law - Nickolas James 2010

Business Law is a new textbook that presents business law principles in a clear and easy to understand style. The objective of a business law subject is to ensure that students acquire enough knowledge of the law of business so they can recognise and solve simple legal problems, organise their affairs in order to avoid more complex or serious legal problems, and appreciate the connection of legal principles within a range of commercial environments. As the majority of students are required to study business law as part of either a commerce or business degree, this textbook follows a functional approach to the study of business law rather than doctrinal so the principles of business law are contextualised within a business environment. Business students need to know more than what the law is, they need to know where to find it, how to read it, how to use it and how it impacts on all facets of business. Students who use this textbook will develop a greater awareness of the law and its broad application to business and commercial environments. Hallmark Features: Written in a clear, accessible style by award winning law lecturer. Addressed to reader as business person. Seeks to balance legal doctrine, practical perspectives, law in context and critical perspectives. Emphasis upon material of relevance and use to business students in the 21st century. Organised into 12 manageable chapters corresponding with 12 teaching weeks of a typical semester, making it possible to use the entire textbook and cover all relevant business law topics in appropriate depth. No need to customise this textbook to suit the subject outline. Presents a functional rather than doctrinal approach, e.g. instead of 'tort law' and 'contract law', the chapters look at 'causing harm' and 'making deals'. Activity features appear throughout requiring students to reflect, research, apply or revise their understanding of legal concepts. Revision questions appear at the end of each major chapter section and provide an opportunity for students to check their knowledge before progressing. End-of-chapter quizzes contain multiple-choice questions and are ideal for self testing. Over 600 terms & definitions included in the end of book glossary. New to this Edition: Each chapter begins and ends with "Johnny and Ash" ? a framing narrative which establishes the importance and relevance of the business law concepts presented, by describing a particular problem or situation. This feature appears in each chapter and involves a range of scenarios between two characters: Johnny, a restaurant owner, and Ash, a solicitor. Johnny and Ash begin each chapter by discussing one of

more of the key issues explored within the chapter, and conclude each chapter with the resolution of those issues. They do so in a way which grounds these key issues in the real world, demonstrating how and why these issues might arise in business practice. The various scenarios link together into a continuing storyline, engaging the students' interest as they progress from chapter to chapter. Chapter 3 Exercising legal skills describes and develops important legal skills such as research, reading, interpretation and writing. This is an important chapter, not found in most introductory business law textbooks. Where appropriate, tables, diagrams, flowcharts and concept maps are used to illustrate the more complex material within the text. Each chapter is periodically punctuated with questions which require the student to either reflect, research or revise key points. These questions ensure that students engage with the text actively rather than passively. Each section within a chapter concludes with a set of revision questions testing the student's ability to recall the key points from the section. Key terms used in the text are defined in the margins and in the comprehensive glossary at the end of the book. Throughout the text the student is referred to the many useful online resources relevant to the practice of business law in Australia. "Law in context" boxes offer alternative perspectives on the law described in the main text. These perspectives include the operation of the law in practice, ethical perspectives, the portrayal of the law in popular culture, philosophical or historical perspectives on the law, insights upon the law from other disciplines such as economics or social science, the political context within which the law was developed and the law in a global context. Each chapter concludes with a set of quiz questions for students to test their own understanding of the content, as well as a set of exercises where the student can apply their knowledge to the solution of particular legal problems or further explore more challenging aspects of the law. About the Author Dr Nick James graduated from the University of Queensland in 1990 with Bachelor degrees in Law and Commerce, and until 1994 practised Commercial and Property Law in Brisbane and at the Gold Coast. In 1996 Nick returned to the University of Queensland to teach business law and property law at the Gatton Campus. In 1998 Nick completed his Master of Laws, and in 1999 he relocated to the new Ipswich campus where he was involved with the development and delivery of business law, corporations law and e-commerce law courses in flexible mode. In 2004, Nick completed his doctoral thesis on critical legal education. In 2005 he relocated to the law school at the St Lucia campus, and in 2009 was appointed Associate Professor and Associate Dean (Academic) within the School. Nick presently teaches Business Law to non-law students, and Law & Society to law students within the TC Beirne School of Law at the University of Queensland. He is the School Chair of Teaching and Learning, and a member of the editorial committee of the Legal Education Review. He received the UQ Award for Excellence in Teaching in 2004 and a National Carrick Citation for Outstanding Contribution to Student Learning in 2007. He is the author of numerous journal articles and conference papers in the areas of legal education and critical legal theory, and is presently engaged in a research project investigating the teaching and assessment of legal reasoning and critical thinking skills.

The New Lawyer, 2nd Edition - Nickolas James 2019-03-25

The New Lawyer has been updated to ensure that first year law students do not feel overwhelmed by the transition to law school. With updates in the content and statistics, this new edition has been written in an easy-to-read style specifically with students in mind. This book addresses the law Threshold Learning Outcomes (TLOs) and outlines what students should know, understand and be able to do at the conclusion of their first year of study. Available as a full colour printed textbook with an interactive eBook code included, this title enables every student the ability to master concepts and succeed in assessment.

Business Law and the Legal Environment - Jethro K. Lieberman 1993-04

Business Law, 5th Edition - Nickolas James 2020-01-21

Business Law, 5th Edition (James et al.) is written for business students to provide a clear and accessible introduction to the legal system. Business law courses are the first exposure to law for many business students and the first time they are obliged to think deeply about the discipline. This updated edition presents business law in a practical context rather than the doctrinal context that many major legal publishers use. The Business Law interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Herbert Smith Freehills, animated work problems and questions with immediate feedback. This new edition is a

unique resource that can form the basis of a blended learning solution for lecturers.

Business Law, 6th Edition - M.C. Kuchhal & Vivek Kuchhal 2013

This book deals with the fundamental branches of business law, namely, law of contract, law of sale of goods, law of partnership, law of negotiable instruments and law of information technology. Its contents have been extracted from the authors' reputed title Mercantile Law that has gained tremendous readership over the years. Business Law is intended to serve as a textbook for the students of BCom, BCom (Hons), CA Common Proficiency Test (CPT), CA Integrated Professional Competence Course (IPCC), CS Foundation Programme, ICMA Intermediate, BBA, MBA, and also for those appearing for banking and competitive examinations.

Moneyball (Movie Tie-in Edition) (Movie Tie-in Editions) - Michael Lewis 2011-08-22

Explains how Billy Beene, the general manager of the Oakland Athletics, is using a new kind of thinking to build a successful and winning baseball team without spending enormous sums of money.

Congressional Record - United States. Congress 1967

Assholes - Aaron James 2012-10-30

In the spirit of the mega-selling *On Bullshit*, philosopher Aaron James presents a theory of the asshole that is both intellectually provocative and existentially necessary. What does it mean for someone to be an asshole? The answer is not obvious, despite the fact that we are often personally stuck dealing with people for whom there is no better name. Try as we might to avoid them, assholes are found everywhere—at work, at home, on the road, and in the public sphere. Encountering one causes great difficulty and personal strain, especially because we often cannot understand why exactly someone should be acting like that. Asshole management begins with asshole understanding. Much as Machiavelli illuminated political strategy for princes, this book finally gives us the concepts to think or say why assholes disturb us so, and explains why such people seem part of the human social condition, especially in an age of raging narcissism and unbridled capitalism. These concepts are also practically useful, as understanding the asshole we are stuck with helps us think constructively about how to handle problems he (and they are mostly all men) presents. We get a better sense of when the asshole is best resisted, and when he is best ignored—a better sense of what is, and what is not, worth fighting for.

BUSINESS and COMPANY LAW Interactive Wiley E-Text: Powered by VitalSource - Nickolas James 2019-12-06

Commercial Law - Nicholas Ryder 2012-06-14

This innovative textbook examines commercial law and the social and political context in which it develops. Topical examples, such as funding for terrorism, demonstrate this fast-moving field's relevance to today's concerns. This wide-ranging subject is set within a clear structure, with part and chapter introductions setting out the student's course of study. Recommendations for further reading at the end of every chapter point the reader to important sources for advanced study and revision questions encourage understanding. The extensive coverage and detailed commentary has been extensively market tested to ensure that the contents are aligned with the needs of university courses in commercial law.

Mine! - Michael A. Heller 2021-03-02

"Mine" is one of the first words babies learn, and by the time we grow up, the idea of ownership seems natural, whether we are buying a cup of coffee or a house. But who controls the space behind your airplane seat: you, reclining, or the squished laptop user behind you? Why is plagiarism wrong, but it's okay to knock off a recipe or a dress design? And after a snowstorm, why does a chair in the street hold your parking space in Chicago, while in New York you lose both the space and the chair? In *Mine!*, Michael Heller and James Salzman, two of the world's leading authorities on ownership, explain these puzzles and many more. Remarkably, they reveal, there are just six simple rules that everyone uses to claim everything. Owners choose the rule that steers us to do what they want. But we can pick differently. This is true not just for airplane seats, but also for battles over digital privacy, climate change, and wealth inequality. *Mine!* draws on mind-bending, often infuriating, and always fascinating accounts from business, history, courtrooms, and everyday life to reveal how the rules of ownership control our lives and shape our world.

International Business Law - Ray August 2009

For upper-level undergraduate and MBA students enrolled in an international business law course. August, 5e emphasizes the diversity and similarity of how firms are currently regulated and governed around the world.

The Anatomy of Corporate Law - Reinier Kraakman 2009-07-23

This is the long-awaited second edition of this highly regarded comparative overview of corporate law. This edition has been comprehensively updated to reflect profound changes in corporate law. It now includes consideration of additional matters such as the highly topical issue of enforcement in corporate law, and explores the continued convergence of corporate law across jurisdictions. The authors start from the premise that corporate (or company) law across jurisdictions addresses the same three basic agency problems: (1) the opportunism of managers vis-à-vis shareholders; (2) the opportunism of controlling shareholders vis-à-vis minority shareholders; and (3) the opportunism of shareholders as a class vis-à-vis other corporate constituencies, such as corporate creditors and employees. Every jurisdiction must address these problems in a variety of contexts, framed by the corporation's internal dynamics and its interactions with the product, labor, capital, and takeover markets. The authors' central claim, however, is that corporate (or company) forms are fundamentally similar and that, to a surprising degree, jurisdictions pick from among the same handful of legal strategies to address the three basic agency issues. This book explains in detail how (and why) the principal European jurisdictions, Japan, and the United States sometimes select identical legal strategies to address a given corporate law problem, and sometimes make divergent choices. After an introductory discussion of agency issues and legal strategies, the book addresses the basic governance structure of the corporation, including the powers of the board of directors and the shareholders meeting. It proceeds to creditor protection measures, related-party transactions, and fundamental corporate actions such as mergers and charter amendments. Finally, it concludes with an examination of friendly acquisitions, hostile takeovers, and the regulation of the capital markets.

Antifragile - Nassim Nicholas Taleb 2014-01-28

Antifragile is a standalone book in Nassim Nicholas Taleb's landmark Incerto series, an investigation of opacity, luck, uncertainty, probability, human error, risk, and decision-making in a world we don't understand. The other books in the series are Fooled by Randomness, The Black Swan, Skin in the Game, and The Bed of Procrustes. Nassim Nicholas Taleb, the bestselling author of The Black Swan and one of the foremost thinkers of our time, reveals how to thrive in an uncertain world. Just as human bones get stronger when subjected to stress and tension, and rumors or riots intensify when someone tries to repress them, many things in life benefit from stress, disorder, volatility, and turmoil. What Taleb has identified and calls "antifragile" is that category of things that not only gain from chaos but need it in order to survive and flourish. In The Black Swan, Taleb showed us that highly improbable and unpredictable events underlie almost everything about our world. In Antifragile, Taleb stands uncertainty on its head, making it desirable, even necessary, and proposes that things be built in an antifragile manner. The antifragile is beyond the resilient or robust. The resilient resists shocks and stays the same; the antifragile gets better and better. Furthermore, the antifragile is immune to prediction errors and protected from adverse events. Why is the city-state better than the nation-state, why is debt bad for you, and why is what we call "efficient" not efficient at all? Why do government responses and social policies protect the strong and hurt the weak? Why should you write your resignation letter before even starting on the job? How did the sinking of the Titanic save lives? The book spans innovation by trial and error, life decisions, politics, urban planning, war, personal finance, economic systems, and medicine. And throughout, in addition to the street wisdom of Fat Tony of Brooklyn, the voices and recipes of ancient wisdom, from Roman, Greek, Semitic, and medieval sources, are loud and clear. Antifragile is a blueprint for living in a Black Swan world. Erudite, witty, and iconoclastic, Taleb's message is revolutionary: The antifragile, and only the antifragile, will make it. Praise for Antifragile "Ambitious and thought-provoking . . . highly entertaining."—The Economist "A bold book explaining how and why we should embrace uncertainty, randomness, and error . . . It may just change our lives."—Newsweek

International Law - Donald R Rothwell 2018-06-19

Now in its third edition, International Law: Cases and Materials with Australian Perspectives remains an authoritative textbook on international law for Australian students. With a strong focus on Australian practice and interpretation, the text examines how international law is developed, implemented and interpreted within the international community and considers new and developing approaches within this field. This

edition has been comprehensively updated to address recent developments in international law. The selection of cases and materials provides a thorough coverage of core areas and addresses a range of contemporary challenges, including climate change, human rights, nuclear proliferation and the South China Sea. A new chapter on international trade law reflects the growing importance of this body of law in Australian practice. Guiding commentary provides a rigorous analysis of key principles. Written by a team of experts with substantial experience in this field, International Law is an essential resource for students.

Where the Deer and the Antelope Play - Nick Offerman 2021-10-12

A humorous and rousing set of literal and figurative sojourns as well as a mission statement about comprehending, protecting, and truly experiencing the outdoors, fueled by three journeys undertaken by actor, humorist, and New York Times bestselling author Nick Offerman Nick Offerman has always felt a particular affection for the Land of the Free—not just for the people and their purported ideals but to the actual land itself: the bedrock, the topsoil, and everything in between that generates the health of your local watershed. In his new book, Nick takes a humorous, inspiring, and elucidating trip to America's trails, farms, and frontier to examine the people who inhabit the land, what that has meant to them and us, and to the land itself, both historically and currently. In 2018, Wendell Berry posed a question to Nick, a query that planted the seed of this book, sending Nick on two memorable journeys with pals—a hiking trip to Glacier National Park with his friends Jeff Tweedy and George Saunders, as well as an extended visit to his friend James Rebanks, the author of The Shepherd's Life and English Pastoral. He followed that up with an excursion that could only have come about in 2020—Nick and his wife, Megan Mullally, bought an Airstream trailer to drive across (several of) the United States. These three quests inspired some "deep-ish" thinking from Nick, about the history and philosophy of our relationship with nature in our national parks, in our farming, and in our backyards; what we mean when we talk about conservation; and the importance of outdoor recreation, all subjects very close to Nick's heart. With witty, heartwarming stories and a keen insight into the human problems we all confront, this is both a ramble through and celebration of the land we all love.

Never Split the Difference - Chris Voss 2016-05-17

A former international hostage negotiator for the FBI offers a new, field-tested approach to high-stakes negotiations—whether in the boardroom or at home. After a stint policing the rough streets of Kansas City, Missouri, Chris Voss joined the FBI, where his career as a hostage negotiator brought him face-to-face with a range of criminals, including bank robbers and terrorists. Reaching the pinnacle of his profession, he became the FBI's lead international kidnapping negotiator. Never Split the Difference takes you inside the world of high-stakes negotiations and into Voss's head, revealing the skills that helped him and his colleagues succeed where it mattered most: saving lives. In this practical guide, he shares the nine effective principles—counterintuitive tactics and strategies—you too can use to become more persuasive in both your professional and personal life. Life is a series of negotiations you should be prepared for: buying a car, negotiating a salary, buying a home, renegotiating rent, deliberating with your partner. Taking emotional intelligence and intuition to the next level, Never Split the Difference gives you the competitive edge in any discussion.

Company Law: An Interactive Approach, 2nd Edition - Ellie Chapple 2020-01-21

Chapple's award winning Company Law textbook is written for business or commerce students studying an accounting major. This updated second edition presents company law in an applied context rather than the doctrinal context many major legal publishers use. It is concise and to the point, covering the core concepts in a typical company law unit without any extraneous topics. The Company Law interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos from Clayton Utz, animated work problems and questions with immediate feedback. Chapple's unique resource can also form the basis of a blended learning solution for lecturers.

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You

will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Plato and the Divided Self - Rachel Barney 2012-02-16

Investigates Plato's account of the tripartite soul, looking at how the theory evolved over the Republic, Phaedrus and Timaeus.

Business Law, Google eBook - Nickolas James 2012-02-02

Business Law 2e is the new edition of a textbook that has been positively launched into the higher education market. The text presents business law principles in a clear and easy-to-understand style. The objective of a business law subject is to ensure that students acquire enough knowledge of the law of business so they can recognise and solve simple legal problems, organise their affairs in order to avoid more complex or serious legal problems, and appreciate the connection of legal principles within a range of commercial environments. As the majority of students are required to study business law as part of either a commerce or business degree, this textbook follows a functional approach to the study of business law rather than doctrinal so the principles of business law are contextualised within a business environment. Business students need to know more than what the law is, they need to know where to find it, how to read it, how to use it and how it impacts on all facets of business. Students who use this textbook will develop a greater awareness of the law and its broad application to business and commercial environments.

Drafting Trusts and Will Trusts in Australia - James Kessler 2008-01-01

Based on a highly acclaimed UK title, DRAFTING TRUSTS AND WILL TRUSTS IN AUSTRALIA has been comprehensively adapted to provide authoritative guidance on drafting trusts and will trusts in eight Australian jurisdictions. Providing both a comprehensive range of precedents and a wealth of valuable advice, DRAFTING TRUSTS AND WILL TRUSTS IN AUSTRALIA cuts through verbosity and helps you to understand and prepare trust documents your client wants and needs. The book features chapters on key areas of trust law, including beneficiaries, trustees, trustee's powers and general provisions of a trust. DRAFTING TRUSTS AND WILL TRUSTS IN AUSTRALIA also offers a large number of precedents for both lifetime and will trusts. The precedents, which appear in printed form and on an accompanying CD-Rom, reveal a fresh approach to creating documents. A unique addition to the Australian market, DRAFTING TRUSTS AND WILL TRUSTS IN AUSTRALIA is an essential reference for those practising in tax law, estate and succession planning, family law and property law.

Kissinger the Negotiator - James K. Sebenius 2018-05-08

Foreword by Henry Kissinger In this groundbreaking, definitive guide to the art of negotiation, three Harvard professors—all experienced negotiators—offer a comprehensive examination of one of the most successful dealmakers of all time. Politicians, world leaders, and business executives around the world—including every President from John F. Kennedy to Donald J. Trump—have sought the counsel of Henry Kissinger, a brilliant diplomat and historian whose unprecedented achievements as a negotiator have been universally acknowledged. Now, for the first time, Kissinger the Negotiator provides a clear analysis of Kissinger's overall approach to making deals and resolving conflicts—expertise that holds powerful and enduring lessons. James K. Sebenius (Harvard Business School), R. Nicholas Burns (Harvard Kennedy School of Government), and Robert H. Mnookin (Harvard Law School) crystallize the key elements of Kissinger's approach, based on in-depth interviews with the former secretary of state himself about some of his most difficult negotiations, an extensive study of his record, and many independent sources. Taut and instructive, Kissinger the Negotiator mines the long and fruitful career of this elder statesman and shows how his strategies apply not only to contemporary diplomatic challenges but also to other realms of negotiation, including business, public policy, and law. Essential reading for current and future leaders, Kissinger the Negotiator is an invaluable guide to reaching agreements in challenging situations.
