Introduction to Information Retrieval - Christopher D. Manning 2008-07-07

Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

Thinking about Deterrence - Air Univeristy Press 2014-09-01

With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.

The End of Power - Moises Naim 2014-03-11

We know that power is shifting: From West to East and North to South, from presidential palaces to public squares, from once formidable corporate behemoths to nimble startups and, slowly but surely, from men to women. But power is not merely shifting and dispersing. It is also decaying. Those in power today are more constrained in what they can do with it and more at risk of losing it than ever before. In *The End of Power*, award-winning columnist and former Foreign Policy editor Moisés Naím illuminates the struggle between once-dominant megaplayers and the new micropowers challenging them in every field of human endeavor. Drawing on provocative, original research, Naím shows how the antiestablishment drive of micropowers can topple tyrants, dislodge monopolies, and open remarkable new opportunities, but it can also lead to chaos and paralysis. Naím deftly covers the seismic changes underway in business, religion, education, within families, and in all matters of war and peace. Examples abound in all walks of life: In 1977, eighty-nine countries were ruled by autocrats while today more than half the world's population lives in democracies. CEO's are more constrained and have shorter tenures than their predecessors. Modern tools of war, cheaper and more accessible, make it possible for groups like Hezbollah to afford their own drones. In the second half of 2010, the top ten hedge funds earned more than the world's largest six banks combined. Those in power retain it by erecting powerful barriers to keep challengers at bay. Today, insurgent forces dismantle those barriers more quickly and easily than ever, only to find that they themselves become vulnerable in the process. Accessible and captivating, Naím offers a revolutionary look at the inevitable end of power—and how it will change your world.

[The Mom Factor](#) - Henry Cloud 2009-09-01

From the very beginning, you relied on her for things no one else could give

you. How she met those needs -- or didn't meet them -- affected you daily as a child. And still affects you profoundly as an adult. For every son or daughter who wonders if things should have been different . . . for every man or woman who wonders if they still couldn't be . . . here's a life-changing look at *The Mom Factor*. She shaped you in ways that would surprise you both. No one has influenced the person you are today like your mother. The way she handled your needs as a child has shaped your worldview, your relationships, your marriage, your career, your self-image -- your life. How can you identify areas that need reshaping, make positive choices for personal change, and establish a balanced, mature relationship with Mom today? In *The Mom Factor*, Drs. Henry Cloud and John Townsend steer you down a path of discovery and growth beyond the effects of six common mothering styles: - The Phantom Mom -The China-Doll Mom -The Controlling Mom -The Trophy Mom -The Still-the-Boss Mom -The American-Express Mom -- Cloud and Townsend show you how your mom affected you as a child and may still be affecting you today. You'll find a hopeful, realistic, and empowering approach to identifying your unmet mothering needs and filling them in healthy, life-changing ways through other people. This encouraging book doesn't just help you understand areas in your life that need change and strengthening -- it helps you apply your discoveries to attain new freedom and joy in living, and an increased ability to give and receive love. *The Mom Factor* is a biblical, highly practical route to wholeness and growth, deeper and more satisfying bonds with your family, friends, and spouse -- and a new, healthier way of relating to your mother today.

[Tough-Minded Management 1st ed.](#) - Joe D. Batten 2017-07-31

In this book (originally published in 1963) author J. D. Batten, at the time himself the Chairman of the Board of a management consulting and human resources firm in Iowa, imparts sound advice and tips to aid managers and management in their important task of improving their effectiveness at all

levels. "The excellence of the book lies in the basic information it has to give to the relatively new manager."—Personnel Psychology "Must reading for anyone who thinks all management books are just a rehash of planning, organizing, staffing, controlling, etc....Especially recommended..."—NRHA Magazine "A totally fresh description of how to turn MBO into a 'living system'....practical and highly motivational."—Buffalo Law Journal "Many useful suggestions to offer the executive."—West Coast Review of Books Exercised - Daniel Lieberman 2021-01-05

The book tells the story of how we never evolved to exercise - to do voluntary physical activity for the sake of health. Using his own research and experiences throughout the world, the author recounts how and why humans evolved to walk, run, dig, and do other necessary and rewarding physical activities while avoiding needless exertion. Drawing on insights from biology and anthropology, the author suggests how we can make exercise more enjoyable, rather than shaming and blaming people for avoiding it
To Sleep in a Sea of Stars - Christopher Paolini 2020-09-15

Customer Success - Nick Mehta 2016-02-29

Your business success is now forever linked to the success of your customers

Customer Success is the groundbreaking guide to the exciting new model of customer management. Business relationships are fundamentally changing. In the world B.C. (Before Cloud), companies could focus totally on sales and marketing because customers were often 'stuck' after purchasing. Therefore, all of the 'post-sale' experience was a cost center in most companies. In the world A.B. (After Benioff), with granular per-year, per-month or per-use pricing models, cloud deployments and many competitive options, customers now have the power. As such, B2B vendors must deliver success for their clients to achieve success for their own businesses. Customer success teams are being created in companies to quarterback the customer lifecycle and drive adoption, renewals, up-sell and advocacy. The Customer Success philosophy is invading the boardroom and impacting the way CEOs think about their business. Today, Customer Success is the hottest B2B movement since the advent of the subscription business model, and this book is the one-of-a-kind guide that shows you how to make it work in your company. From the

initial planning stages through execution, you'll have expert guidance to help you: Understand the context that led to the start of the Customer Success movement Build a Customer Success strategy proven by the most competitive companies in the world Implement an action plan for structuring the Customer Success organization, tiering your customers, and developing the right cross-functional playbooks Customers want products that help them achieve their own business outcomes. By enabling your customers to realize value in your products, you're protecting recurring revenue and creating a customer for life. Customer Success shows you how to kick start your customer-centric revolution, and make it stick for the long term.

When: The Scientific Secrets of Perfect Timing - Daniel H. Pink 2018-01-09

The instant New York Times Bestseller #1 Wall Street Journal Business Bestseller Instant Washington Post Bestseller "Brimming with a surprising amount of insight and practical advice." --The Wall Street Journal Daniel H. Pink, the #1 bestselling author of *Drive* and *To Sell Is Human*, unlocks the scientific secrets to good timing to help you flourish at work, at school, and at home. Everyone knows that timing is everything. But we don't know much about timing itself. Our lives are a never-ending stream of "when" decisions: when to start a business, schedule a class, get serious about a person. Yet we make those decisions based on intuition and guesswork. Timing, it's often assumed, is an art. In *When: The Scientific Secrets of Perfect Timing*, Pink shows that timing is really a science. Drawing on a rich trove of research from psychology, biology, and economics, Pink reveals how best to live, work, and succeed. How can we use the hidden patterns of the day to build the ideal schedule? Why do certain breaks dramatically improve student test scores? How can we turn a stumbling beginning into a fresh start? Why should we avoid going to the hospital in the afternoon? Why is singing in time with other people as good for you as exercise? And what is the ideal time to quit a job, switch careers, or get married? In *When*, Pink distills cutting-edge research and data on timing and synthesizes them into a fascinating, readable narrative packed with irresistible stories and practical takeaways that give readers compelling insights into how we can live richer, more engaged lives.

First Hundred Million - E. Haldeman-Julius 2008-07-01

Every publisher dreams of selling 100 million books. E. Haldeman Julius made it happen. Year after year, publishers go under before they even see a fraction of that number. The reason is simple. Few publishers truly know what the American public wants to read. Fewer still know what key words in a title can trigger a buying frenzy. Be different and gain control of your publishing success by applying the results of E. Haldeman Julius's amazing, scientific experiment. He published thousands of books, all with the same cover design, size and price. The only thing that set them apart was the title. He discovered that a change of a single word literally could mean thousands more in sales. Gain an insight into the American public's buying habits without breaking the bank. Apply key words that trigger your buyers' insatiable appetites and be the next publishing success. Don't hesitate, because your competitors sure won't.

The Power of Regret - Daniel H. Pink 2022-02-01

"The world needs this book." —Brené Brown, Ph.D., New York Times bestselling author of *Dare to Lead* and *Atlas of the Heart* An instant New York Times bestseller As featured in *The Wall Street Journal* and *The Washington Post* Named a Best Book of 2022 by NPR and Financial Times From the #1 New York Times–bestselling author of *When* and *Drive*, a new book about the transforming power of our most misunderstood yet potentially most valuable emotion: regret. Everybody has regrets, Daniel H. Pink explains in *The Power of Regret*. They're a universal and healthy part of being human. And understanding how regret works can help us make smarter decisions, perform better at work and school, and bring greater meaning to our lives. Drawing on research in social psychology, neuroscience, and biology, Pink debunks the myth of the "no regrets" philosophy of life. And using the largest sampling of American attitudes about regret ever conducted as well as his own World Regret Survey—which has collected

regrets from more than 15,000 people in 105 countries—he lays out the four core regrets that each of us has. These deep regrets offer compelling insights into how we live and how we can find a better path forward. As he did in his bestsellers *Drive*, *When*, and *A Whole New Mind*, Pink lays out a dynamic new way of thinking about regret and frames his ideas in ways that are clear, accessible, and pragmatic. Packed with true stories of people's regrets as well as practical takeaways for reimagining regret as a positive force, *The Power of Regret* shows how we can live richer, more engaged lives.

Bang - Daniel Peña 2017

Uli's first flight, a late-night joy ride with his brother, changes their lives forever when the engine stops and the boys crash land, with "Texas to the right and Mexico to the left." Before the accident, Uli juggled his status as both an undocumented immigrant and a high school track star in Harlingen, Texas, desperately hoping to avoid being deported like his father. His mother Araceli spent her time waiting for her husband. His older brother Cuauhtémoc, a former high-school track star turned drop-out, learned to fly a crop duster, spraying pesticide over their home in the citrus grove. After the crash, Cuauhtémoc wakes up bound and gagged, wondering where he is. Uli comes to in a hospital, praying that it's on the American side of the border. And their mother finds herself waiting for her sons as well as her missing husband. Araceli knows that she has to go back to the country she left behind in order to find her family. In Mexico, each is forced to navigate the complexities of their past and an unknown world of deprivation and violence. Ruthless drug cartels force Cuauhtémoc to fly drugs. "If a brick goes missing, Cuauhtémoc dies. If a plane goes missing, Cuauhtémoc dies. If Cuauhtémoc goes missing, they find Cuauhtémoc (wherever he's at) and Cuauhtémoc dies." If they can't find him, they will kill his mother. They have photos of her in Matamoros to prove they can enforce the threat. Meanwhile, Uli returns to his family's home in San Miguel and finds a city virtually abandoned, devastated by

battles between soldiers, cartels and militias that vie for control. Vividly portraying the impact of international drug smuggling on the innocent, Peña's debut novel also probes the loss of talented individuals and the black market machines fed with the people removed and shut out of America. Ultimately, *Bang* is a riveting tale about ordinary people forced to do dangerous, unimaginable things.

Global Education Monitoring Report 2020 - UNESCO 2020-07-07

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

Your First 100 Million - Daniel S. Peña 1999

Infinite Powers - Steven Strogatz 2019

From preeminent math personality and author of *The Joy of x*, a brilliant and endlessly appealing explanation of calculus - how it works and why it makes our lives immeasurably better. Without calculus, we wouldn't have cell phones, TV, GPS, or ultrasound. We wouldn't have unraveled DNA or discovered Neptune or figured out how to put 5,000 songs in your pocket. Though many of us were scared away from this essential, engrossing subject in high school and college, Steven Strogatz's brilliantly creative, down-to-earth history shows that calculus is not about complexity; it's about simplicity. It harnesses an unreal number--infinity--to tackle real-world problems, breaking them down into easier ones and then reassembling the answers into solutions that feel miraculous. *Infinite Powers* recounts how calculus tantalized and thrilled its inventors, starting with its first glimmers in ancient Greece and bringing us right up to the discovery of gravitational waves (a phenomenon predicted by calculus). Strogatz reveals how this form of math rose to the challenges of each age: how to determine the area of a circle with only sand and a stick; how to explain why Mars goes "backwards" sometimes; how to make electricity with magnets; how to ensure your rocket doesn't miss the moon; how to turn the tide in the fight against AIDS. As Strogatz proves, calculus is truly the language of the universe. By unveiling the principles of that language, *Infinite Powers* makes us marvel at the world anew.

Sky Captain and the World of Tomorrow - Kevin J. Anderson 2004

Based on the upcoming film from Paramount Pictures starring Jude Law and Gwyneth Paltrow, set for release on July 25. In 1939 New York City, Joe Sullivan, leader of the heroic Flying Legion, must save the day when gigantic mechanical robots are unleashed upon the world. Original.

The Book of Iowa Films - Marty Knepper 2014-08-04

This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

Step-by-step Model Drawing - Char Forsten 2010-01-01

It Had to Be You - Susan Elizabeth Phillips 2013-05-14

The Windy City isn't quite ready for Phoebe Somerville—the outrageous, curvaceous New York knockout who has just inherited the Chicago Stars football team. And Phoebe is definitely not ready for the Stars' head coach, former gridiron legend Dan Calebow, a sexist jock taskmaster with a one-track mind. Calebow is everything Phoebe abhors. And the sexy new boss is everything Dan despises—a meddling bimbo who doesn't know a pigskin from a pitcher's mound. So why is Dan drawn to the shameless sexpot like a

heat-seeking missile? And why does the coach's good ol' boy charm leave cosmopolitan Phoebe feeling awkward, tongue-tied . . . and ready to fight?

The sexy, heartwarming, and hilarious "prequel" to This Heart of Mine—Susan Elizabeth Phillips's New York Times bestselling blockbuster—It Had To Be You is an enchanting story of two stubborn people who believe in playing for keeps.

A Course in Time Series Analysis - Daniel Peña 2011-01-25

New statistical methods and future directions of research in time series A Course in Time Series Analysis demonstrates how to build time series models for univariate and multivariate time series data. It brings together material previously available only in the professional literature and presents a unified view of the most advanced procedures available for time series model building. The authors begin with basic concepts in univariate time series, providing an up-to-date presentation of ARIMA models, including the Kalman filter, outlier analysis, automatic methods for building ARIMA models, and signal extraction. They then move on to advanced topics, focusing on heteroscedastic models, nonlinear time series models, Bayesian time series analysis, nonparametric time series analysis, and neural networks.

Multivariate time series coverage includes presentations on vector ARMA models, cointegration, and multivariate linear systems. Special features include: Contributions from eleven of the world's leading figures in time series Shared balance between theory and application Exercise series sets Many real data examples Consistent style and clear, common notation in all contributions 60 helpful graphs and tables Requiring no previous knowledge of the subject, A Course in Time Series Analysis is an important reference and a highly useful resource for researchers and practitioners in statistics, economics, business, engineering, and environmental analysis. An Instructor's Manual presenting detailed solutions to all the problems in the book is available upon request from the Wiley editorial department.

Negotiating for Success: Essential Strategies and Skills - George J. Siedel

2014-10-04

We all negotiate on a daily basis. We negotiate with our spouses, children,

parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the

performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract's legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: "Life is negotiation!" No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

Global Innovation Index 2020 - Cornell University 2020-08-13

The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges – including in the context of the economic slowdown induced by the coronavirus disease

(COVID-19) crisis.

The Historian - Elizabeth Kostova 2005-06-01

The record-breaking phenomenon from Elizabeth Kostova is a celebrated masterpiece that "refashioned the vampire myth into a compelling contemporary novel, a late-night page-turner" (San Francisco Chronicle). Breathtakingly suspenseful and beautifully written, The Historian is the story of a young woman plunged into a labyrinth where the secrets of her family's past connect to an inconceivable evil: the dark fifteenth-century reign of Vlad the Impaler and a time-defying pact that may have kept his awful work alive through the ages. The search for the truth becomes an adventure of monumental proportions, taking us from monasteries and dusty libraries to the capitals of Eastern Europe—in a feat of storytelling so rich, so hypnotic, so exciting that it has enthralled readers around the world. "Part thriller, part history, part romance...Kostova has a keen sense of storytelling and she has a marvelous tale to tell." —Baltimore Sun

Persuasion - Daniel J. O'Keefe 2015-02-18

Persuasion: Theory and Research, Third Edition is a comprehensive overview of social-scientific theory and research on persuasion. Written in a

clear and accessible style that assumes no special technical background in research methods, the Third Edition has been thoroughly revised to reflect developments in persuasion studies. New discussions of subjects such as reactance and the use of narratives as vehicles for persuasion, revised treatments of the theories of reasoned action and planned behavior, and two new chapters on social judgment theory and stage models provide your students with the most current work on persuasion in a clear, straightforward manner. In this edition, author Daniel J. O'Keefe has given special attention to the importance of adapting (tailoring) messages to audiences to maximize persuasiveness. Each chapter has a set of review questions to guide students through the chapter's material and quickly master the concepts being introduced.
