What Americans Really Want...Really - Frank I. Luntz 2009-09-15

No one in America has done more observing of more people than Dr. Frank I. Luntz. From Bill O'Reilly to Bill Maher, America's leading pundits, prognosticators, and CEOs turn to Luntz to explain the present and to predict the future. With all the upheavals of recent events, the plans and priorities of the American people have undergone a seismic shift. Businesses everywhere are trying to market products and services during this turbulent time, but only one man really understands the needs and desires of the New America. From restaurant booths to voting booths, Luntz has watched and assessed our private habits, our public interests, and our hopes and fears. What are the five things Americans want the most? What do they really want in their daily lives? In their jobs? From their government? For their families? And how does understanding what Americans want allow businesses to thrive? Luntz disassembles the preconceived notions we have about one another and lays all the pieces of the American condition out in front of us, openly and honestly, then puts the pieces back together in a way that reflects the society in which we live.

What Americans Really Want...Really is a real, if sometimes scary, discussion of Americans' secret hopes, fears, wants, and needs. The research in this book represents a decade of face-to-face interviews with twenty-five thousand people and telephone polls with one million more, as well as the exclusive, first-ever "What Americans Really Want" survey. What Luntz offers is a glimpse into the American psyche, along with analysis that will rock assumptions and right business judgment. He proves that success in virtually any profession demands that we either understand what Americans really want, or suffer the consequences. Praise for Frank Luntz: "When Frank Luntz invites you to talk to his focus group, you talk to his focus group." --President Barack Obama, spoken on June 28, 2007, to a PBS-sponsored focus group following the Democratic presidential debate at Howard University "Frank Luntz understands the American people better than anyone I know." --Newt Gingrich, former Speaker of the House "The Nostradamus of pollsters." --Sir David Frost "America's top companies listen to Frank Luntz because he understands what customers want and what employees think. He has a keen sense of the American psyche and an outstanding command of language that empowers and persuades." --Thomas J. Donohue, President & CEO, U.S. Chamber of Commerce

Rich Dad, Poor Dad - Robert T. Kiyosaki 2016-04-27

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

The Passive Income Blueprint - Adidas Wilson 2019-04-28

Passive income is becoming more popular by the day. However, many people still do not understand how beneficial it is. Believe it or not, making money in your sleep is not the biggest benefit. This book outlines more important reasons why everyone should seek a passive income stream or be in the process of creating one. I also offer semi passive strategies. Planning for retirement should not be a huge headache—unless you think that you can only prepare for retirement by saving. If a sudden change in your life or the economy happens, your savings may not be very helpful in retirement. It is no secret that savings are just not enough. You will have unexpected expenses especially in your old age and you are likely to underestimate the amount you should save. People are living longer nowadays but that should not mean they want to work more years. A passive income stream means that you will have constant cash flow. You will be getting an amount of money regularly, unlike with savings. It will be like getting a paycheck without actively working.

Secrets of the Millionaire Mind - T. Harv Eker 2009-10-13

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Prepare yourself, I will take you from the very basics to the most complex

so that you may begin your path to economic progress; which is not easy, but is worth knowing. Once you have learned the way, I assure you, you will differ from 90% of the people. You will no longer prefer, like them, to hand your money over to others to obtain average gains without you becoming aware of what is really happening in the financial world.
