Blueprint for Black Power - Amos N. Wilson
1998

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint

for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be

neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

Achtung-Panzer! - Heinz Guderian 1995

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War.

Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When

that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Divorce Sucks - Mary Jo Eustace 2009-09-18

Hock the platinum. Take down the vacation photos. Cancel the joint checking account.

There's no question . . . Divorce Sucks. And perhaps no one knows that better than author Mary Jo Eustace, whose ex-husband Dean McDermott married Tori Spelling a mere thirty days after their divorce was finalized. One part tell-all and one part guide to get readers on their feet after a bitter breakup, this hilarious addition to the bestselling Sucks series tells everything readers don't want to know about divorce - from what a phone call with a lawyer will cost; to how to handle your newer, younger replacement; to what Hollywood divorcees are actually thinking when they watch their ex walk the red carpet with a millionairess. Sometimes horrifying, sometimes gratifying, and never merciful, this book will give readers an inside look at one of today's most public divorces while reminding them - hey, it could always be worse.

The bestselling author of The Best Exotic Marigold Hotel and Tulip Fever is back with a warm, witty and wise novel about the unexpected twists that later life can bring... 'Nobody in the world knows our secret ... that I've ruined Bev's life, and she's ruined mine.' Petra's love life is a bit of a car-crash, even in her sixties. But then she falls for Jeremy, an old chum, visiting from abroad. The catch? Jeremy is her best friend's husband. And just as Petra is beginning to relax guiltily into her happy ever

after, she finds herself catapulted to West Africa, and to Bev, her best friend who she's been betraying so spectacularly. It turns out that no matter where you are in the world, everyone has something to hide. Can Bev - can anyone - be trusted?

Triadic Chromatic Approach - George Garzone
2020-04-04

You will find the development of the Triadic Chromatic Approach, applied to the diminished and augmented triads. With this book you will get the explanation, the examples, the exercises and the audios and videos. In my eyes, the augmented and the diminished portion of the triadic approach are the most open and creative sound to my ears. Through these two triads you will be able to escape the world of traditional sounds and patterns. For use for all Bb, Eb C & bass instruments.

Angels and Demons in Art - Rosa Giorgi 2005

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of

angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.
