**Islam, Humanity, and the Indonesian Identity** - Ahmad Syafii Maarif 2018

"Islam exists in global history with its richly variegated cultural and social realities. When these specific cultural contexts are marginalized, Islam is reduced to an ahistorical religion without the ability to contribute to humanity. This limited understanding of Islam has been a contributing factor in many of the violent conflicts in the present day. Reflecting on Islam in Indonesia, the world's third largest democracy, supporting the largest Muslim population, Ahmad Syafii Maarif argues for an understanding that is both faithful to Islam's essential teachings and open to constantly changing social and cultural contexts. Building on this, he then addresses critical contemporary issues such as democracy, human rights, religious freedom, the status of women, and the future of Islam. Through this book the breadth and depth of the ideas of one of Indonesia's foremost Muslim scholars are made accessible for English language readership."

Rethinking Educational Leadership - Nigel Bennett 2003-05-16

The charismatic transformational leader, who creates a 'vision' for the future of their organization and persuades others to follow their path towards it, is now the dominant viewpoint that underpins government policies towards leadership development in the English-speaking world. This book offers a much-needed corrective to this orthodoxy by focusing on current research and thinking about 'leadership' rather than 'leaders. A wide range of prominent international contributors present a rare self critical look at their own assertions and test alternative leadership models against recent research projects. They also demonstrate how their analysis is relevant to all countries where leadership is an issue. Major features include: ] alternative theories to understanding the nature of leadership ] how leadership could be analyzed ] re-analysis of recent research carried out by contributors in the light of one or more of the alternative theories examined ] implications of the alternative perspectives for leadership training This book is recommended to all staff and students involved in educational leadership, management or administration programmes.

Handbook of Research on Library Response to the COVID-19 Pandemic - Holland, Barbara 2021-03-19

Since the spread of COVID-19, conferences have been canceled, schools have closed, and libraries around the world are facing difficult decisions on which services to offer and how, ranging from minimal restrictions to full closures. Depending on the country, state, or city, a government may have a different approach, sometimes ordering the closure of all institutions, others indicating that it's business as usual, and others simply leaving decisions up to library directors. All libraries worldwide have been affected, from university libraries to public library systems and national libraries. Throughout these closures, libraries continue to provide services to their communities, which has led to an emerging area of research on library services, new emerging technologies, and the advancements made to libraries during this global health crisis. The Handbook of Research on Library Response to the COVID-19 Pandemic consists of chapters that contain essential library services and emerging research and technology that evolved and/or has continued during the COVID-19 pandemic, as well as the challenges and opportunities that have been undertaken as a result. The chapters provide in-depth research, surveys, and information on areas such as remote working, machine learning, data management, and the role of information during COVID-19. This book is a valuable reference tool for practitioners, stakeholders, researchers, academicians, and students who are interested in the current state of libraries during a pandemic and the future outlook.

*Ramadan in Java* - André Möller 2005

The dissertation aims at reducing this gap in the

literature on Islamic cultures, and provides its readers with ways of approaching and understanding Ramadan - and various different Islamic phenomena - in Indonesia and in other parts of the Muslim world. It is argued that we preferably may approach Islam from three different angles, that is, to discuss it from the normative, the written, and the lived perspectives respectively. In this study, thorough attention is thus directed not only to the classical and normative Islamic texts and the lived reality in Java, but also to the popular and contemporary Indonesian literature on Ramadan.

in particular, represent an area with a high potential for interdisciplinary innovation, not only from an information technology standpoint, but also from social science, psychological and didactic perspectives. This book presents an interdisciplinary approach to educational games, which is centered on information technology and aims at: (1) improving digital management by focusing on the exchange of learning outcomes and solution assessment in a peer-to-peer network of learners; (2) achieving digital implementation by using forms of interaction to change the course of educational games; and (3) providing digital support by fostering group-formation processes in educational situations to increase both the effects of educational games and knowledge exchange at the individual level. In addition to a systematic analysis of the relationship between software architecture, educational games and social media applications, the book also presents the implemented IT systems' architectures and algorithmic solutions as well as the resulting applicable evaluation findings from the field of interactive multimedia learning.

**Al-Islam dan Kemuhammadiyah** - Bahar Agus Setiawan 2021-08-13

Riset ini secara seksama mencermati pengaruh metakognisi, efikasi diri, dan motivasi siswa dalam mewujudkan efektivitas pembelajaran Al-Islam dan Kemuhammadiyah. Mata pelajaran Al-Islam dan Kemuhammadiyah sebagai penciri lembaga pendidikan Muhammadiyah tentu harus memiliki kontribusi signifikan khususnya dalam ranah pengetahuan dan nilai

(value) sebagai dimensi esensialnya. Meskipun dalam implementasi di sekolah dianggap sebagai muatan lokal, namun Al-Islam dan Kemuhammadiyah memiliki kurikulum yang bersifat nasional. Keberadaan Al-Islam dan Kemuhammadiyah sebagai mata pelajaran atau bidang studi pada sekolah Muhammadiyah tidak lepas sebagai rantai gerakan dakwah dan tajdid dalam rangka mewujudkan Islam rahmatan lil alamin. Konteks ini sejalan dengan apa yang menjadi tujuan utama pembelajaran Al-Islam dan Kemuhammadiyah yaitu manusia yang beriman dan berakhlak. Konsep ini di era pendidikan modern populer dengan istilah pendidikan karakter. Multikulturalisme dan multi perspektif pemahaman agama siswa yang bersekolah di lembaga pendidikan Muhammadiyah menjadi tantangan tersendiri bagi perwujudan efektifitas pembelajaran Al-Islam dan Kemuhammadiyah. Mata pelajaran atau bidang studi Al-Islam dan Kemuhammadiyah yang merupakan bagian dari rumpun pendidikan agama Islam pada kurikulum nasional, tidak hanya bersifat pengetahuan namun sekaligus sebagai proses

penanaman. Mempelajari mata pelajaran tersebut tidak hanya bersifat keilmuan (scientific) tetapi juga bersifat doktriner yang dalam istilah dipahami sebagai pendekatan scientific cum doctiner. Peranan metakognisi, efikasi diri, dan motivasi dalam konteks pembelajaran sangat diperlukan sehingga dapat menciptakan pembelajaran yang efektif. Adanya pengetahuan siswa terhadap perkembangan kognisinya, kesadaran siswa, dan motivasi siswa dalam belajar menjadi elemen penting yang harus dikelola secara paripurna. Dimensi ini akan berimbas pada keterwujudan efektivitas pembelajaran Al-Islam dan Kemuhammadiyah. Mengetahui mana yang memiliki pengaruh dapat dijadikan referensi sebagai basis pembelajaran Al-Islam dan Kemuhammadiyah. Harapan hasil penelitian ini dalam tataran ideal menjadi rujukan dalam ranah riset berkaitan dengan Al-Islam dan Kemuhammadiyah. Ranah praktis dapat menjadi salah satu pelengkap dinamisasi penelitian tentang Al-Islam dan Kemuhammadiyah.
