*Hammer's German Grammar and Usage* -  
A. E. Hammer 1995

[Waterfalls of Malaysia](#) - 1989

**Nadine Ijewere** - 2022-01-25

A celebration of identity and individual human beauty, this vibrant monograph is the first book dedicated to fashion photographer Nadine Ijewere—the first Black woman photographer to land a cover of Vogue in the magazine’s 125-year history. Dazzling color, dreamlike backgrounds, and a fierce gaze are the hallmarks of Ijewere’s work. But most important to the London photographer is subversion of traditional concepts of beauty. In fashion work, editorials, advertisements, and film stills, Ijewere draws not only on her roots in Nigeria and Jamaica, but also on her own experiences as a young Black girl in East London whose skin color, hair, and body type were nowhere to be found in the pages of magazines.

Ijewere’s vibrantly colored, brilliantly staged pictures often focus on themes of identity and diversity, and feature nontraditional subjects that celebrate the uniqueness of disparate cultures. This first monograph includes images from her series of Jamaican women’s hairstyles across different generations; photographs of young people defying gender norms on the streets of Lagos; and intimate studio portraits of mixed-race sisters. Also featured is editorial work she has created for Vogue in the US and UK, fashion shoots for Stella McCartney, Dior, Gap, Hermes, and Valentino. At the vanguard of a history-changing artistic movement, Ijewere’s remarkable career has made her one of the most sought-after fashion photographers working today.

Performances of Capitalism, Crises and Resistance - Marilena Zaroulia  
2015-07-27

Discussing crises through diverse examples, including the UK's National Theatre, public art installations, Occupy LSX, repatriation ceremonies and performances of the everyday, this book asks how performance captures and resists what is considered (politically, ideologically, culturally or socially) 'inside' or 'outside' Europe.

*Logo Philosophy and Implementation* -  
1999

**A Practice Grammar of German** - Hueber  
Verlag 2010

**Weird But True 1: Expanded Edition** -  
National Geographic Kids 2018

Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.

**German Pop Music** - Uwe Schütte  
2017-01-11

The development of German pop music represents a fascinating cultural mirror to the history of post-war Germany, reflecting sociological changes and political developments. While film studies is an already established discipline, German pop music is currently emerging as a new and exciting field of academic study. This pioneering companion is the first volume to provide a comprehensive overview of the subject, charting the development of German pop music from the post-war period 'Schlager' to the present 'Diskursrock'. Written by

acknowledged experts from Germany, the UK and the US, the various chapters provide overviews of pertinent genres as well as focusing on major bands such as CAN, Kraftwerk or Rammstein. While these acts have shaped the international profile of German pop music, the volume also undertakes in-depth examinations of the specific German contributions to genres such as punk, industrial, rap and techno. The survey is concluded by an interview with the leading German pop theorist Diedrich Diederichsen. The volume constitutes an indispensable companion for any student, teacher and scholar in the area of German studies interested in contemporary popular culture.

Language Hacking German - Benny Lewis  
2017-11-14

It's true that some people spend

years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language

abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission'

that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

**A Companion to Michael Haneke** - Roy Grundmann 2010-02-04

A Companion to Michael Haneke is a definitive collection of newly-commissioned work that covers Haneke's body of work in its entirety, catering to students and scholars of Haneke at a time when interest in the director and his work is soaring. Introduces one of the most important directors to have emerged on the

global cinema scene in the past fifteen years Includes exclusive interviews with Michael Haneke, including an interview discussion of The White Ribbon Considers themes, topics, and subjects that have formed the nucleus of the director's life's work: the fate of European cinema, Haneke in Hollywood, pornography, alienation, citizenship, colonialism, and the gaze of surveillance Features critical examinations of La Pianiste, Time of the Wolf, Three Paths to the Lake and Caché, among others

### **The Human Body in Early Iron Age**

**Central Europe** - Katharina Rebay-Salisbury 2016-12-08

Identities and social relations are fundamental elements of societies. To approach these topics from a new and different angle, this study takes the

human body as the focal point of investigation. It tracks changing identities of early Iron Age people in central Europe through body-related practices: the treatment of the body after death and human representations in art. The human remains themselves provide information on biological parameters of life, such as sex, biological age, and health status. Objects associated with the body in the grave and funerary practices give further insights on how people of the early Iron Age understood life and death, themselves, and their place in the world. Representations of the human body appear in a variety of different materials, forms, and contexts, ranging from ceramic figurines to images on bronze buckets. Rather than focussing on their narrative content,

human images are here interpreted as visualising and mediating identity. The analysis of how image elements were connected reveals networks of social relations that connect central Europe to the Mediterranean. Body ideals, nudity, sex and gender, aging, and many other aspects of women's and men's lives feature in this book. Archaeological evidence for marriage and motherhood, war, and everyday life is brought together to paint a vivid picture of the past.

Germany On Their Minds - Anne C. Schenderlein 2019-10-03

Throughout the 1930s and early 1940s, approximately ninety thousand German Jews fled their homeland and settled in the United States, prior to that nation closing its borders to Jewish refugees. And even though many of them wanted little to do with

Germany, the circumstances of the Second World War and the postwar era meant that engagement of some kind was unavoidable—whether direct or indirect, initiated within the community itself or by political actors and the broader German public. This book carefully traces these entangled histories on both sides of the Atlantic, demonstrating the remarkable extent to which German Jews and their former fellow citizens helped to shape developments from the Allied war effort to the course of West German democratization.

*Encounters with Modernity* - Benjamin Ziemann 2014-06-01

During the three decades from 1945 to 1975, the Catholic Church in West Germany employed a broad range of methods from empirical social research. Statistics, opinion

polling, and organizational sociology, as well as psychoanalysis and other approaches from the “psy sciences,” were debated and introduced in pastoral care. In adopting these methods for their own work, bishops, parish clergy, and pastoral sociologists tried to open the church up to modernity in a rapidly changing society. In the process, they contributed to the reform agenda of the Second Vatican Council (1962-1965). Through its analysis of the intersections between organized religion and applied social sciences, this award-winning book offers fascinating insights into the trajectory of the Catholic Church in postwar Germany.

*Explorations and Entanglements* -

Hartmut Berghoff 2018-11-16

Traditionally, Germany has been

considered a minor player in Pacific history: its presence there was more limited than that of other European nations, and whereas its European rivals established themselves as imperial forces beginning in the early modern era, Germany did not seriously pursue colonialism until the nineteenth century. Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters, it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific. The studies gathered here offer fascinating research into German missionary, commercial, scientific, and imperial activity against the backdrop of the Pacific’s overlapping cultural circuits and complex oceanic transits.

**Twelve Years A Slave (Illustrated) -**

Solomon Northup 2014-08-22

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

*Advances in Human Factors in Training, Education, and Learning*

*Sciences* - Salman Nazir 2020-06-30

This book addresses the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices, and discusses key principles of behavioral and cognitive science, which are extremely relevant to the design of instructional content and new technologies to support mobile and multimedia learning, virtual training and web-based learning, among others, as well as performance measurements, social and adaptive learning and many other types of educational technology, with a special emphasis on those important in the corporate, higher education, healthcare and military training contexts. Gathering contributions to the AHFE 2020 Virtual Conference on Human Factors

in Training, Education, and Learning Sciences, held on July 16–20, 2020, the book offers a timely perspective on the role of human factors in education. It highlights important new approaches and ideas, and fosters new discussions on how to optimally design learning experiences.

*Gustav Stresemann* - Karl Heinrich Pohl 2019-05-01

As a foreign minister and chancellor of Weimar Germany, Gustav Stresemann is a familiar figure for students of German history – one who, for many, embodied the best qualities of German interwar liberalism. However, a more nuanced and ambivalent picture emerges in this award-winning biography, which draws on extensive research and new archival material to enrich our understanding of Stresemann's public image and

political career. It memorably explores the personality of a brilliant but flawed politician who endured class anxiety and social marginalization, and who died on the eve of Germany's descent into economic and political upheaval.

**GPU Pro 7** - Wolfgang Engel 2016-03-23

The latest edition of this bestselling game development reference offers proven tips and techniques for the real-time rendering of special effects and visualization data that are useful for beginners and seasoned game and graphics programmers alike. Exploring recent developments in the rapidly evolving field of real-time rendering, GPU Pro 7: *Advanced Practice Makes Perfect Basic German* - Jolene Wochenske 2011-06-10  
Learn German in bite-sized lessons!

The key to Practice Makes Perfect: Basic German is how manageable the grammar and vocabulary are presented to you. You're not overwhelmed by it all! Supported by engaging exercises, these 50 units cover all aspects of grammar and vocabulary, giving you a solid foundation in the language. Each unit is three pages in length, and you can expect to be completed with each in 10 to 15 minutes.

Features Key grammatical concepts and core vocabulary are absorbed almost effortlessly through exercises

Flexibility for self-study or as a complement to your first-year class

**English Grammar for Students of German** - Cecile Zorach 2003-04

This book offers explanations of grammatical terms and functions as they apply to English and German. It illustrates the similarities and

differences between the two languages and stresses the common linguistics pitfalls for English speakers. It includes review exercises with answers at the back.

*Children's Social Worlds in Cultural Context* - Tiia Tulviste 2019-09-10

This book addresses cultural variability in children's social worlds, examining the acquisition, development, and use of culturally relevant social competencies valued in diverse cultural contexts. It discusses the different aspects of preschoolers' social competencies that allow children – including adopted, immigrant, or at-risk children – to create and maintain relationships, communicate, and to get along with other people at home, in daycare or school, and other situations. Chapters explore how

children's social competencies reflect the features of the social worlds in which they live and grow. In addition, chapters examine the extent that different cultural value orientations manifest in children's social functioning and describes how parents in autonomy-oriented cultures tend to value different social skills than parents with relatedness or autonomous-relatedness orientations. The book concludes with recommendations for future research directions. Topics featured in this book include: Gender development in young children. Peer interactions and relationships during the preschool years. Sibling interactions in western and non-western cultural groups. The roles of grandparents in child development. Socialization and development in refugee children.

Child development within institutional care. *Children's Social Worlds in Cultural Context* is a valuable resource for researchers, clinicians/practitioners, and graduate students in developmental psychology, child and school psychology, social work, cultural anthropology, family studies, and education.

The Respectable Career of Fritz K. - Hartmut Berghoff 2015-05-01  
Entrepreneur and Nazi functionary  
Fritz Kiehn lived through almost 100 years of German history, from the Bismarck era to the late Bonn Republic. A successful manufacturer, Kiehn joined the Nazi Party in 1930 and obtained a number of influential posts after 1933, making him one of the most powerful Nazi functionaries in southern Germany. These posts

allowed him ample opportunity to profit from "Aryanizations" and state contracts. After 1945, he restored his reputation, was close to Adenauer's CDU during Germany's economic miracle, and was a respected and honored citizen in Trossingen. Kiehn's biography provides a key to understanding the political upheavals of the twentieth century, especially the workings of the corrupt Nazi system as well as the "coming to terms" with National Socialism in the Federal Republic.

*The Berlin School* - Rajendra Roy 2013  
"The informal movement that critics like to call the Berlin School, " as director Christoph Hochhäusler puts it, is a loose affiliation of filmmakers who emerged around the time the Berlin Wall fell. The founding figures--Thomas Arslan,

Christian Petzold, and Angela Schanelec--and their younger colleagues are not bound by a manifesto or by any singular aesthetic. Nonetheless, their observant portrayals of characters in flux offer a compelling cinematic expression of the search for new identities in a time of societal change. The films of the Berlin School have resonated profoundly since the mid-1990s, making it one of the most influential auteur movements to emerge from Europe in the new millennium.

[Google Maps](#) - Evangelos Petroutsos  
2014-03-21

Create custom applications with the Google Maps API Featuring step-by-step examples, this practical resource gets you started programming the Google Maps API with JavaScript

in no time. Learn how to embed maps on web pages, annotate the embedded maps with your data, generate KML files to store and reuse your map data, and enable client applications to request spatial data through web services. Google Maps: Power Tools for Maximizing the API explains techniques for visualizing masses of data and animating multiple items on the map. You'll also find out how to embed Google maps in desktop applications to combine the richness of the Windows interface with the unique features of the API. You can use the numerous samples included throughout this hands-on guide as your starting point for building customized applications. Create map-enabled web pages with a custom look Learn the JavaScript skills required to exploit the Google Maps API Create

highly interactive interfaces for mapping applications Embed maps in desktop applications written in .NET Annotate maps with labels, markers, and shapes Understand geodesic paths and shapes and perform geodesic calculations Store geographical data in KML format Add GIS features to mapping applications Store large sets of geography data in databases and perform advanced spatial queries Use web services to request spatial data from within your script on demand Automate the generation of standalone web pages with annotated maps Use the Geocoding and Directions APIs Visualize large data sets using symbols and heatmaps Animate items on a map Bonus online content includes: A tutorial on The SQL Spatial application A bonus chapter on animating multiple airplanes Three

appendices: debugging scripts in the browser; scalable vector graphics; and applying custom styles

**The GMO Deception** - Sheldon Krimsky  
2014-06-03

Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates.

Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really

solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

*Fellow Tribesmen* - Frank Usbeck  
2015-05-01

Throughout the nineteenth and

twentieth centuries, Germans exhibited a widespread cultural passion for tales and representations of Native Americans. This book explores the evolution of German national identity and its relationship with the ideas and cultural practices around "Indianthusiasm." Pervasive and adaptable, imagery of Native Americans was appropriated by Nazi propaganda and merged with exceptionalist notions of German tribalism, oxymoronically promoting the Nazis' racial ideology. This book combines cultural and intellectual history to scrutinize the motifs of Native American imagery in German literature, media, and scholarship, and analyzes how these motifs facilitated the propaganda effort to nurture national pride, racial

thought, militarism, and hatred against the Allied powers among the German populace.

Deutsch Ohne Mühe Heute - Hilde Schneider 1994-06-01

Learn modern German in 100 lively and entertaining lessons. In just five months, you will be able to hold a conversation with German speakers. The audio recordings, made by professional voice-over artists, are invaluable for picking up the rhythms of the spoken language. Workbook and CD Package

*Divine Stories* - 2013-02-08

*Divine Stories* is the inaugural volume in a landmark translation series devoted to making the wealth of classical Indian Buddhism accessible to modern readers. The stories here, among the first texts to be inscribed by Buddhists,

highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimate liberation. Originally contained in the Divyavadana, an enormous compendium of Sanskrit Buddhist narratives from the early Common Era, the stories in this collection express the moral and ethical impulses of Indian Buddhist thought and are a testament to the historical and social power of narrative. Long believed by followers to be the actual words of the Buddha himself, these divine stories are without a doubt some of the most influential stories in the history of Buddhism.

PFIN 4 - Lawrence J. Gitman

2015-01-12

4LTR Press solutions give students

the option to choose the format that best suits their learning preferences. This option is perfect for those students who focus on the textbook as their main course resource. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Hitler's Exiles - Mark M. Anderson  
2000

A 1998 Los Angeles Times Book of the Year: the "vivid and moving" (Los Angeles Times Book Review) composite portrait of the historic migration of German-speaking refugees from Hitler. Hitler's Exiles is at once a moving human document and a new classic of the literature of exile. Hailed by David Rieff as "fascinating, important, and heart-rending,"

Hitler's Exiles features nearly fifty first-person accounts of the flight from Hitler's Germany to America, many published for the first time. From forgotten archives and obscure published sources, Hitler's Exiles recaptures the unknown voices of that perilous time by focusing on the ordinary people who underwent a most extraordinary voyage. Anderson also includes little-known writings by such major figures as Thomas Mann, Hannah Arendt, and Bertolt Brecht. A new preface written for this paperback edition discusses the outpouring of emotion and memory the book has generated, and includes several moving letters from relatives of those in the book.

30 Bangs - Roosh V 2012-03-07

Erotic memoir

*Affective Health and Masculinities in*

*South Africa* - Hans Reihling  
2020-04-24

*Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity

that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology,

gender studies, African studies, psychology, and global health.  
**Walker Evans, Cuba** - Walker Evans  
2001

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--  
Jacket.

**The linguistic integration of adult migrants: from one country to**

## **another, from one language to another**

- 2014-01-01

The linguistic integration of migrants affects every aspect of settling in a new country (employment, health, etc.). The aim of this collection of texts is to propose a number of specific measures member states can take to help adult migrants become acquainted with the language of the host country. The main focus is on organising language courses that meet migrants' real communication needs. It is not enough for authorities simply to consider the technical aspects of such courses, they should also design and conduct them in accordance with the fundamental values of the Council of Europe. A number of issues concerning the linguistic integration of adult migrants are presented here,

beginning with the notion of linguistic integration itself. Family reunion, the nature of citizenship and the function of language tests, among others, are dealt with from the point of view of language and language use. Readers are invited to reflect on the type of language competences that need to be acquired as well as an appropriate use of the Common European Framework of Reference for Languages. The collection also sets out approaches and instruments designed to assist in implementing effective policies.

## **Asylum Matters** - Laura Affolter

2020-11-30

This open access book examines everyday practices in an asylum administration. Asylum decisions are often criticised as being 'subjective' or 'arbitrary'. Asylum

Matters turns this claim on its head. Through the ethnographic study of asylum decision-making in the Swiss Secretariat for Migration, the book shows how regularities in administrative practice and 'socialised subjectivity' are produced. It argues that asylum caseworkers acquire an institutional habitus through their socialisation on the job, making them 'carriers' of routine practices. The different chapters of the book deal with what it means to methodologically study administrative practice: with how asylum proceedings work in Switzerland and with the role different types of knowledge play in overcoming the uncertainties inherent in refugee status and credibility determination. It sheds light on organisational socialisation

processes and on the professional norms and values at the heart of administrative work. By doing so, it shows how disbelief becomes normalised in the office. This book speaks to legal scholars, sociologists, anthropologists, human geographers and political scientists interested in bureaucracy, asylum law, migration studies and socio-legal studies, and to NGOs working in the field of asylum.

**German Quickly** - April Wilson 1993  
German Quickly: A Grammar for Reading German is a thorough, straightforward textbook with a sense of fun. It teaches the fundamentals for reading German literary and scholarly texts of all levels and difficulty. It can be used as an introductory text for students with no background in German, or it can serve as a

reference text for students wishing to review German. The grammar explanations are detailed and clear, and the accompanying reading selections, consisting partly of aphorisms and proverbs, are intriguing. There are also many informative appendices, including a summary of German grammar, a detailed description of German dictionaries currently available, and a vocabulary list of 3200 words that are commonly encountered in scholarly writings. Teaching and Learning with ICT in the Primary School - Marilyn Leask 2000 Teaching and Learning with ICT in the Primary School introduces teachers to the range of ways in which ICT can be used to support and extend the teaching and learning opportunities in their classrooms. Chapters cover areas such as: literacy, numeracy,

science, and their relationship with ICT; managing curriculum projects using ICT; creating and using multimedia applications. Ideas and activities for teachers to try are based on tried and tested methods from innovative schools around the UK and abroad. Practising teachers and students will find this an invaluable guide on how to work together to extend their skills and knowledge in the area of ICT.

**Players Making Decisions** - Zack Hiwiler 2015-12-09

Game designers today are expected to have an arsenal of multi-disciplinary skills at their disposal in the fields of art and design, computer programming, psychology, economics, composition, education, mythology—and the list goes on. How do you distill a vast universe down to a few salient

points? *Players Making Decisions* brings together the wide range of topics that are most often taught in modern game design courses and focuses on the core concepts that will be useful for students for years to come. A common theme to many of these concepts is the art and craft of creating games in which players are engaged by making meaningful decisions. It is the decision to move right or left, to pass versus shoot, or to develop one's own strategy that makes the game enjoyable to the player. As a game designer, you are never entirely certain of who your audience will be, but you can enter their world and offer a state of focus and concentration on a task that is intrinsically rewarding. This detailed and easy-to-follow guide to game design is for both digital and

analog game designers alike and some of its features include: A clear introduction to the discipline of game design, how game development teams work, and the game development process Full details on prototyping and playtesting, from paper prototypes to intellectual property protection issues A detailed discussion of cognitive biases and human decision making as it pertains to games Thorough coverage of key game elements, with practical discussions of game mechanics, dynamics, and aesthetics Practical coverage of using simulation tools to decode the magic of game balance A full section on the game design business, and how to create a sustainable lifestyle within it  
**Fluent Forever** - Gabriel Wyner  
2014-08-05

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from

opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

*The Militant Church* - Lester Sumrall  
1995-07-01

Warfare strategies for today's Christians by a militant man - a recognized leader in combating the demonic forces at work in the world

today.
