Eichmann in Jerusalem - Hannah Arendt
2006-09-22

The controversial journalistic

analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

Humiliation, Degradation, Dehumanization - Paulus Kaufmann
2010-10-07

Degradation, dehumanization, instrumentalization, humiliation, and nonrecognition – these concepts point to ways in which we understand human beings to be violated in their dignity. Violations of human dignity are brought about by concrete practices and conditions; some commonly acknowledged, such as torture and rape, and others more contested, such as poverty and exclusion. This volume collates reflections on such concepts and a range of practices, deepening our understanding of human dignity and its violation, bringing to the surface interrelationships and commonalities, and pointing to the values that are thereby shown to be

in danger. In presenting a streamlined discussion from a negative perspective, complemented by conclusions for a positive account of human dignity, the book is at once a contribution to the body of literature on what dignity is and how it should be protected as well as constituting an alternative, fresh and focused perspective relevant to this significant recurring debate. As the concept of human dignity itself crosses disciplinary boundaries, this is mirrored in the unique range of perspectives brought by the book's European and American contributors – in philosophy and ethics, law, human rights, literature, cultural studies and interdisciplinary research. This volume will be of interest to social and moral philosophers, legal and human rights theorists, practitioners

and students.

Rhythm in Art, Psychology and New Materialism - Gregory Minissale
2021-02-28

This book examines the psychology involved in handling, and responding to, materials in artistic practice, such as oils, charcoal, brushes, canvas, earth, and sand. Artists often work with intuitive, tactile sensations and rhythms that connect them to these materials. Rhythm connects the brain and body to the world, and the world of abstract art. The book features new readings of

artworks by Matisse, Pollock, Dubuffet, Tápies, Benglis, Len Lye, Star Gossage, Shannon Novak, Simon Ingram, Lee Mingwei, L. N. Tallur and many others. Such art challenges centuries of philosophical and aesthetic order that has elevated the substance of mind over the substance of matter. This is a multidisciplinary study of different metastable patterns and rhythms: in art, the body, and the brain. This focus on the propagation of rhythm across domains represents a fresh art historical approach and provides important opportunities for art and science to cooperate.

Arts of Living on a Damaged Planet -
Anna Lowenhaupt Tsing 2017-05-30
Living on a damaged planet challenges

who we are and where we live. This timely anthology calls on twenty eminent humanists and scientists to revitalize curiosity, observation, and transdisciplinary conversation about life on earth. As human-induced environmental change threatens multispecies livability, *Arts of Living on a Damaged Planet* puts forward a bold proposal: entangled histories, situated narratives, and thick descriptions offer urgent “arts of living.” Included are essays by scholars in anthropology, ecology, science studies, art, literature, and bioinformatics who posit critical and creative tools for collaborative survival in a more-than-human Anthropocene. The essays are organized around two key figures that also serve as the publication’s two openings: Ghosts, or landscapes

haunted by the violences of modernity; and *Monsters, or interspecies and intraspecies sociality*. *Ghosts and Monsters* are tentacular, windy, and arboreal arts that invite readers to encounter ants, lichen, rocks, electrons, flying foxes, salmon, chestnut trees, mud volcanoes, border zones, graves, radioactive waste—in short, the wonders and terrors of an unintended epoch. Genocide - Adam Jones 2006-09-27

An invaluable introduction to the subject of genocide, explaining its history from pre-modern times to the present day, with a wide variety of case studies. Recent events in the former Yugoslavia, Rwanda, East Timor and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics. The book examines the differing

interpretations of genocide from psychology, sociology, anthropology and political science and analyzes the influence of race, ethnicity, nationalism and gender on genocides. In the final section, the author examines how we punish those responsible for waging genocide and how the international community can prevent further bloodshed.

(Re)Constructing Memory: School

Textbooks and the Imagination of the Nation - James H. Williams 2014-08-08

This book examines the shifting portrayal of the nation in school textbooks in 14 countries during periods of rapid political, social, and economic change. Drawing on a range of analytic strategies, the authors examine history and civics textbooks, and the teaching of such texts, along with other prominent curricular materials—children’s readers, a required text penned by the head of state, a holocaust curriculum, etc.. The authors analyze the uses of history and pedagogy in building, reinforcing and/or redefining the nation and state especially in the light of challenges to its legitimacy. The primary focus is on countries in developing or transitional contexts. Issues include

the teaching of democratic civics in a multiethnic state with little history of democratic governance; shifts in teaching about the Khmer Rouge in post-conflict Cambodia; children's readers used to define national space in former republics of the Soviet Union; the development of Holocaust education in a context where citizens were both victims and perpetrators of violence; the creation of a national past in Turkmenistan; and so forth. The case studies are supplemented by commentary, an introduction and conclusion.

Hottentot Venus - Barbara Chase-Riboud 2007-12-18

It is Paris, 1815. An extraordinarily shaped South African girl known as the Hottentot Venus, dressed only in feathers and beads, swings from a

crystal chandelier in the duchess of Berry's ballroom. Below her, the audience shouts insults and pornographic obscenities. Among these spectators is Napoleon's physician and the most famous naturalist in Europe, the Baron George Cuvier, whose encounter with her will inspire a theory of race that will change European science forever. Evoking the grand tradition of such "monster" tales as Frankenstein and The Hunchback of Notre Dame, Barbara Chase Riboud, prize-winning author of the classic *Sally Hemings*, again gives voice to an "invisible" of history. In this powerful saga, Sarah Baartman, for more than 200 years known only as the mysterious lady in the glass cage, comes vividly and unforgettably to life.

A Deafening Silence - Romito,
Patrizia 2008-01-23

This book is born of a contradiction: on the one hand, there has been a genuine advance in the awareness of violence against women and children

and actions to oppose it. On the other, the violence persists and so does the counter-attack against those who seek to expose it. Patrizia Romito's extraordinary book describes the links between discrimination, violence against women and violence against children and, uniquely, uncovers the strategies and tactics used for concealing it. Her analysis, corroborated by a solid theoretical framework as well as up-to-date international research data, powerfully reveals the interconnectedness of what might appear as separate events or measures. The book also demonstrates how the same tactics and strategies are at work in various different countries. Written in a clear and direct style, the book is an essential tool for anyone -

professional, researcher or activist
- wanting to understand male violence
against women and children and to
oppose it.

*The Cambridge World History of
Violence: Volume 2, AD 500–AD 1500* -
Matthew Gordon 2020-03-31

Violence permeated much of social
life across the vast geographical
space of the European, Asian, and
Islamic worlds and through the broad
sweep of what is often termed the
Middle Millennium (roughly 500 to
1500). Focusing on four contexts in
which violence occurred across this
huge area, the contributors to this
volume explore the formation of
centralized polities through war and
conquest; institution building and
ideological expression by these same
polities; control of extensive trade
networks; and the emergence and

dominance of religious ecumenes.
Attention is also given to the idea
of how theories of violence are
relevant to the specific historical
circumstances discussed in the
volume's chapters. A final section on
the depiction of violence, both
visual and literary, demonstrates the
ubiquity of societal efforts to
confront meanings of violence during
this *longue durée*.

**America and the Armenian Genocide of
1915** - Jay Winter 2004-01-08

Before Rwanda and Bosnia, and before
the Holocaust, the first genocide of
the twentieth century happened in
Turkish Armenia in 1915, when
approximately one million people were
killed. This volume is an account of
the American response to this
atrocious. The first part sets up the

framework for understanding the genocide: Sir Martin Gilbert, Vahakn Dadrian and Jay Winter provide an analytical setting for nine scholarly essays examining how Americans learned of this catastrophe and how they tried to help its victims. Knowledge and compassion, though, were not enough to stop the killings. A terrible precedent was born in 1915, one which has come to haunt the United States and other Western countries throughout the twentieth century and beyond. To read the essays in this volume is chastening: the dilemmas Americans faced when confronting evil on an unprecedented scale are not very different from the dilemmas we face today.

Wars and Capital - Eric Alliez
2018-05-11

A critique of capital through the lens of war, and a critique of war through the lens of the revolution of 1968. "We are at war," declared the President of the French Republic on the evening of November 13, 2015. But what is this war, exactly? In *Wars and Capital*, Éric Alliez and Maurizio Lazzarato propose a counter-history of capitalism to recover the reality of the wars that are inflicted on us and denied to us. We experience not the ideal war of philosophers, but wars of class, race, sex, and gender;

wars of civilization and the environment; wars of subjectivity that are raging within populations and that constitute the secret motor of liberal governmentality. By naming the enemy (refugees, migrants, Muslims), the new fascisms establish their hegemony on the processes of political subjectivation by reducing them to racist, sexist, and xenophobic slogans, fanning the flames of war among the poor and maintaining the total war philosophy of neoliberalism. Because war and fascism are the repressed elements of post-'68 thought, Alliez and Lazzarato not only read the history of capital through war but also read war itself through the strange revolution of '68, which made possible the passage from war in the singular to a plurality of wars—and

from wars to the construction of new war machines against contemporary financialization. It is a question of pushing "'68 thought" beyond its own limits and redirecting it towards a new pragmatics of struggle linked to the continuous war of capital. It is especially important for us to prepare ourselves for the battles we will have to fight if we do not want to be always defeated.

Photographing the Holocaust - Janina Struk 2020-09-03

Atrocities committed by the Nazis during the Holocaust were photographed more intensely than any before. In the time since the images were taken they have been subjected to a perplexing variety of treatments: variously ignored, suppressed, distorted and above all exploited for propaganda purposes.

With the use of many photographs, including some never before seen, this book traces the history of this process and asks whether the images can be true representations of the events they were depicting. Yet their provenance, Janina Struk argues, has been less important than the uses to which a wide range of political interests has put them, from the desperate attempts of the war-time underground to provide hard evidence of the death camps to the memorial museums of Europe, the US and Israel today.

Intercourse - Andrea Dworkin 2008-08-01

Andrea Dworkin, once called "Feminism's Malcolm X," has been worshipped, reviled, criticized, and analyzed-but never ignored. The power of her writing, the passion of her

ideals, and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists. Now the book that she's best known for—in which she provoked the argument that ultimately split apart the feminist movement—is being reissued for the young women and men of the twenty-first century. *Intercourse* enraged as many readers as it inspired when it was first published in 1987. In it, Dworkin argues that in a male supremacist society, sex between men and women constitutes a central part of women's subordination to men. (This argument was quickly—and falsely—simplified to “all sex is rape” in the public arena, adding fire to Dworkin's already radical persona.) In her introduction to this twentieth-anniversary edition of *Intercourse*,

Ariel Levy, the author of *Female Chauvinist Pigs*, discusses the circumstances of Dworkin's untimely death in the spring of 2005, and the enormous impact of her life and work. Dworkin's argument, she points out, is the stickiest question of feminism: Can a woman fight the power when he shares her bed?

The Sacred Fount - Henry James 1995
One of Henry James's most mesmerizing and unusual novels, *The Sacred Fount* (1901) has for its scene a weekend party at the great English country house Newmarch. Here James leads the reader down a bizarre garden path. *The Sacred Fount*--his only novel to employ a first-person narrator--places us in the hands of an obsessive novelist (never named and never described, but perhaps familiar), who detects alarming

changes in his acquaintances. A woman known for her élan has lost her poise, a dull man is charming; a friend is suddenly aged, a plain woman sparkles. Where one improves, another seems to suffer. With "plunges of insight," "as noiseless and guarded as if I were trapping a bird," the narrator stalks his fellow guests through the weekend, avidly trying to make sense of what he comes to believe are actual exchanges of life force. "The sacred fount," as R.P. Blackmur noted, "is the mystery of the power that passes among us, depleting or restoring us, in friendship, in love, even in more public relations [Here] is the beautiful, the critical job of making that mystery manifest."

The Mismeasure of Desire - David E. Stannard 1993-11-18

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of

genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans

and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate. *The English Novel* - George Saintsbury

"The Kingdom of God is Within You" - graf Leo Tolstoy 1894

Initially banned in his home country The Kingdom of God Is Within You is Leo Tolstoy's great non-fictional work. The zenith of Tolstoy's thirty years of Christian thinking, it sets out a plan for a new society guided by a literal Christian interpretation. Christ conceived of a society based on love, compassion and tolerance, and Tolstoy believed this was incompatible with violence. Tolstoy's response is the principle of nonresistance in the face of violence ...
